**RE: Notice of PROPOSED Minor Modification  
Valero Refining Company – Tennessee, LLC.  
Operating Permit No. 00101-01TV(R)**

Dear Ms. Ferrando:

This electronic submittal is being sent to the United States Environmental Protection Agency, Region 4, in accordance with the requirements of 40 CFR 70.8(a), initiating the 45-day review period of the proposed Minor Modification for the Valero Refining Company – Tennessee, LLC facility located at 2385 Riverport Road, Memphis, Tennessee. Operations at this facility consist of petroleum refining and associated ancillary activities.

This modification allows the facility to apply the requirements of 40 CFR Subpart GGGa to all facility emission sources that are currently affected by 40 CFR Part 60, Subpart GGG. The requirements of Subpart GGGa are more stringent than those contained in Subpart GGG. There will be no change in the facility's allowable emissions as a result of this modification.

The 30-day review and comment period for the general public and affected states was completed on January 12, 2025 and no comments were received.

Included within this electronic submittal are the following:

- Title V Major Source Operating permit with Minor Modification changes
- Application Evaluation Document (Statement of Basis), including Emissions Summary Table

Should you have any questions or desire to make comments on this proposed Title V operating permit minor modification, please contact Mark A. Landry at (901) 222-9569 or via email at [mark.landry@shelbycountyttn.gov](mailto:mark.landry@shelbycountyttn.gov).

Sincerely,

*Wasim Khokhar*
