IN RE: EPA File NO. : 12R-12-R4

Helena Wooden-Aguilar
U.S. EPA Office of Civil Rights
1200 Pennsylvania Ave., N.W.,
Washington, D.C. 20460

Ms. Helena Wooden-Aguilar:

Please be advised I desire to have the file closed if the following will not state a claim with OCR:

1. The land ALABAMA Prison Easterling sets on is eat-up with lead, mercury, gas-vapors and the same draws into the water;
2. Prisoners, are subjected to the toxic waste fumes from gravely ~~ineffective~~ ineffective sewer lines;
3. BARBER County or City, exposes the local community to insufficient water systems, due discriminative oversite; when it rains [bait linch] the locals are flooded and the prisoners are restricted from ~~open~~ using the water system at Easterling.
4. I believe, ALABAMA inmates are due some protections, but most definitely the local community.
