Our whole community is requesting that your office refile, our claims. We are still suffering on a daily basis because of the negative impacts from the City Of Baton Rouge owned and operated North Baton Rouge Sewage Treatment Plant. Baton Rouge (local), State and federal government (s) continues to force citizens to live in human waste. This note is a formal complaint (s) / claim (s) from our community to your office. If you need anything (information) else please in form us in a TIMELY manner. Remember, A TIMELY MANNER. Please send us the time frame your office held the other complaint(S). Thanks, Mrs.Ericka Farrell and others for your positive work.
