

<b>American Innovation and Manufacturing Act: Technology Transitions Provisions</b> Powering the Great American Comeback Fact Sheet	
<b>Action</b>	<ul style="list-style-type: none"> <li>Reconsideration of “Phasedown of Hydrofluorocarbons: Restrictions on the Use of Certain Hydrofluorocarbons Under the American Innovation and Manufacturing Act of 2020” (88 FR 73098; October 24, 2023).</li> </ul>
<b>Reasons for Action</b>	<ul style="list-style-type: none"> <li>Concerns related to the time provided for compliance and the scope of applicability.</li> <li>To allow time for companies to successfully transition to new solutions from U.S. chemical and manufacturing companies for the affected commercial and industrial refrigeration uses.</li> </ul>
<b>Important facts on regulation/program</b>	<ul style="list-style-type: none"> <li>The AIM Act authorizes EPA to restrict use of hydrofluorocarbons (HFCs) by sector and subsector where new chemical replacements are available. The Technology Transitions regulations address emerging American chemicals and technologies. Covered HFC uses include aerosols, foams, air-conditioning and refrigeration.</li> <li>The average cost of compliance for the industries that EPA intends to reconsider is \$30.87 million per year for the first five years. This reconsideration could provide additional time and increased flexibility for those industries.</li> </ul>
<b>Groups or entities requesting reconsideration</b>	<ul style="list-style-type: none"> <li>Companies</li> <li>Industry associations</li> </ul>
<b>Responds to</b>	<ul style="list-style-type: none"> <li>Pillar 2: Restore American Energy Dominance</li> <li>Executive Order 14154: Unleashing American Energy</li> </ul>
