

## OFFICE OF AIR AND RADIATION

WASHINGTON, D.C. 20460

March 26, 2025

Mr. Scott Yager  
Vice President, Environment  
Interstate Natural Gas Association of America  
*Via Electronic Mail: syager@ingaa.org*

Dear Mr. Yager:

This letter concerns the administrative petition of the Final Rule "Greenhouse Gas Reporting Rule: Revisions and Confidentiality Determinations for Petroleum and Natural Gas Systems." 89 Fed. Reg. 42,062 (May 14, 2024) that you submitted on December 9, 2024, on behalf of the Interstate Natural Gas Association of America.

The U.S. Environmental Protection Agency (EPA) intends to issue a Federal Register notice initiating a rulemaking process, including public notice and comment, for subpart W of the Greenhouse Gas Reporting Program that includes the issue related to requirements to estimate emissions from reciprocating internal combustion engine crankcase vents in § 98.233(ee) identified in your petition. Thus, at the EPA's discretion, the Agency is granting the petition for reconsideration, in so far as we are initiating an additional public comment process on the issues raised in your petition. At this time, the EPA has not determined any specific provision(s) to be proposed concerning the issues in your petition.

If you have any questions regarding this letter, please contact Stephanie Bogle at (202) 343-9179 or by email at [bogle.stephanie@epa.gov](mailto:bogle.stephanie@epa.gov). We thank you for your continuing interest in this rule, and we look forward to hearing from you during the upcoming rulemaking process on this issue.

Sincerely,

Abigale Tardif  
Principal Deputy Assistant Administrator
