Dear President Obama & First Lady,

Thank you for your tireless efforts in running and protecting our great country, a very difficult job for sure.

The reason for my letter to you is that my business (b) (6) Privacy and (b) (6) Privacy - have been under attack for the past three years by a rouge inspector (b) (6) Privacy of the Illinois EPA Land Bureau. In the past three years he has issued violations to my medical waste treatment business & Pet Funeral business, which I have and will continue to fight for the truth and continued services throughout Illinois.

(b) (6) Privacy has in the past disregarded our safety procedures and spoke personal racial attacks against me and my staff for no reason other than what seems to be either religious discrimination or bias in the department of EPA. He has in the past three years placed us in violation which was dismissed after bringing it to the attention of his superiors. (b) (6) Privacy full service medical waste treatment business in Illinois up against a Billion dollar organization call (b) (6) Privacy based in Lake Forest Illinois. This monopoly business controls not only the regulator agencies who oversee this industry as well as DuPage County officials who have also been aggressive to me and my firm in other locations we own.

Since our inception in (b) (6) Privacy we have always maintained a high level of respect for IL EPA and its inspectors with cooperation and no violations up until (b) (6) Privacy started his rouge actions. We maintain a clean and safe environment with no accidents or violations during the past (b) (6) Privacy years in the solid waste industry.

The following contacts are heads of departments who I feel could be politically corrupt or not know about the violations and the urgent matter about to unfold. Considering the next election is near we feel a law suit brought against Illinois would harm Attorney General Madigan chances of reelection for the burden is always a river which flows up stream to the highest office.

Director Mr. Raymond Poe Head Director – 217-524-3300

Mrs. Beverly Alberracin, IL EPA permitting – 217-524-3289
