the conditions and circumstances of overt and blatant disregard  
for the health and welfare of prisoners by compelling them  
to be exposed to hazardous and dangerous health and  
medical conditions that have immediate and long term  
medical and health adversities. As those persons who  
work in this adverse and dangerous conditions have been

Accordingly, although this is not a coal mine,  
the effects of cloth lint and dust are equated in effect  
as coal dust causing (b) (6) - Privacy. These

Hoping your office can and will promptly cause an  
investigation and seek appropriate corrective action to aid  
these prisoners whom are being intimidated, oppressed, retaliated,  
and threatened if they complain about the conditions
