B&R Auto Wrecking-American Auto Salvage-Perlenfein, Inc. ("Respondent") is a "person," within the meaning of Section 502(5) of the Clean Water Act ("Act"), 33 U.S.C. § 1362(5), and 40 C.F.R. § 122.2.

Attached is an "Expedited Settlement Offer Worksheet" ("Settlement Worksheet"), which is incorporated by reference. By its signature, Complainant ("EPA") finds that Respondent is responsible for the alleged violations specified in the Settlement Worksheet.

Respondent failed to comply with the condition(s) or limitation(s) of a duly issued permit pursuant to Section 402 of the Act, 33 U.S.C. § 1342, and Section 301(a) of the Act, 33 U.S.C. § 1311(a).

EPA finds, and Respondent admits, that Respondent is subject to Section 301(a) of the Act, 33 U.S.C. § 1311, and that EPA has jurisdiction over any "person" who "discharges pollutants" from a "point source" to "waters of the United States." Respondent neither admits nor denies the specific alleged violations specified in the Settlement Worksheet or this Expedited Settlement Agreement ("Agreement").

This Agreement constitutes a Consent Agreement and Final Order, which EPA is authorized to enter under the authority vested in the Administrator of EPA by Section 309(g)(2)(A) of the Act, 33 U.S.C. § 1319(g)(2)(A), and by 40 C.F.R. § 22.13(b). The parties enter into this Agreement to settle the civil violation(s) alleged in this Agreement for a penalty of \$2,197. Respondent consents to the assessment of this penalty and waives the right to: (1) contest the finding(s) specified in the Settlement Worksheet; (2) a hearing pursuant to Section 309(g)(2) of the Act, 33 U.S.C. § 1319(g)(2); and (3) appeal pursuant to Section 309(g)(8), 33 U.S.C. § 1319(g)(8).

Additionally, Respondent certifies, subject to civil and criminal penalties for making a false statement to the United States Government, that the alleged violations identified in the Settlement Worksheet have been corrected. Respondent shall submit a written report and other documentation required by EPA with this Agreement detailing the specific actions taken to correct the alleged violations cited herein. This documentation may include monitoring, inspection and maintenance reports, documentation of corrective actions, certification records, and other records required for compliance with permit documentation and recordkeeping conditions.

Respondent certifies that, within thirty (30) days after receipt of the Final Order, Respondent will submit electronic payment via [www.pay.gov](http://www.pay.gov) or submit a bank, cashiers, or certified check, with

case name and docket number noted, for the amount specified above, payable to the "Treasurer, United States of America," via certified mail, to:

EXPEDITED SETTLEMENT AGREEMENT

Permit Section Citation	Description of Violations
A.1.a-j; A.2.a Narrative Technology-based Effluent Limits	At the time of the inspection, two dumpsters in different areas of the yard were observed to not be covered. One of the dumpsters contained miscellaneous items. The second dumpster contained old radiators that had been removed from waste vehicles. At the time of the inspection, two catch basins encircled with bio-char bags (used as BMPs) were observed to be ineffective and in need of maintenance or replacement (catch basin 1 and catch basin 2).
B.12.c Monthly Visual Monitoring Reports	The facility did not have 11 of the 34 visual monitoring reports that were requested. Check rain events for the ones that were missing to see if sufficient rain fall occurred in those months
B.7.a.i Monitoring Procedures	The site discharges into a ditch through a 6-inch diameter PVC pipe. The ditch flows to the receiving water, Mill Race Creek. At the time of the inspection, the water level in the ditch had almost fully submerged the discharge pipe. The facility could not obtain a representative sample of its discharge due to the discharge mixing with water from other sources.
