

REGION 6

DALLAS, TX 75270

April 1, 2025

Mr. Adam Kesterholt
Environmental Manager
CSC Landfill, Republic Services
101 Republic Way
Avalon, Texas 76623

RE: The U. S. Environmental Protection Agency Region 6 Extension of Current Approval of Republic Services for Disposal of Polychlorinated Biphenyls at CSC Landfill Located in Avalon, Texas; EPA ID No. TXD000836585

Dear Mr. Kesterholt:

The EPA is currently reviewing your renewal application and supplemental information for the PCB authorization submitted through March 25, 2025, for compliance with the Toxic Substances Control Act, 40 CFR 761.75. In addition, the EPA is fulfilling its obligations under the Endangered Species Act and the National Historic Preservation Act.

In order to allow for full consideration and review of your submitted information and any subsequent public participation, the EPA is extending your current approval pursuant to regulations issued under section 6(e) of the Toxic Substances Control Act and codified in 40 CFR Parts 750 and 761. The EPA finds that extending your current approval for disposal of PCBs at CSC Landfill until November 30, 2025, does not present an unreasonable risk of injury to health or the environment.

If you have any further questions, please contact me, or your staff may contact RCRA Corrective Action, UST, Solid Waste and Permits Acting Branch Manager, Harry Shah, at shah.harry@epa.gov or (214)-665-6457.

Sincerely,

Helena Healy
Director
Land, Chemicals and Redevelopment Division

cc: Ms. Charly Fritz

Waste Permits Division Deputy Director, Texas Commission on Environmental Quality

Ms. Andrea Kotrla

Environmental Manager, Republic Services
