**Permit
For
Hazardous Waste Treatment, Storage, and/or Disposal Facility**

Permit No. PAR000522326
Date Issued September 27, 2011
Date Expired September 27, 2021

This permit is issued by the Commonwealth of Pennsylvania Department of Environmental Protection (DEP) under authority of the Pennsylvania Solid Waste Management Act, the Act of July 7, 1980, Act 97, 35 P.S. Section 6018.101 *et seq.* (the Act), DEP hazardous waste regulations and Federal hazardous waste regulations to Zambelli Fireworks Manufacturing Co. (hereafter called the Permittee), to operate a hazardous waste management facility located in Mahoning Township, Lawrence County, Pennsylvania, at latitude 41° 02' 58" North and longitude 80° 24' 31" West.

The Permittee must comply with all terms and conditions of this permit. This permit consists of the conditions contained herein (Parts I - III, consisting of Pages 1 through 20 and Application References 1 through 4) and the applicable regulations contained in 25 Pa. Code Chapters 260a - 270a and 40 CFR 260-270 as specified in the permit.

This permit is based on the assumption that the information submitted in the original permit application attached to the Permittee's letter dated December 13, 2010, as modified by subsequent amendments dated December 29, 2010, and June 15, 2011 (hereafter referred to as the application) is accurate and that the facility will be constructed and/or operated as specified in the application. Any inaccuracies found in this information may be grounds for the revocation or modification of this permit and potential enforcement action. The Permittee must inform DEP of any deviation from or changes in the information in the application that would affect the Permittee's ability to comply with the applicable regulations or permit conditions.

This permit is conditioned upon full compliance with all applicable provisions of the Act; DEP regulations contained in 25 Pa. Code Chapter 260a - 270a; Federal regulations contained in 40 CFR Chapters 260 - 270; the Clean Streams Law, 35 P.S. 691.1 *et seq.*; the Air Pollution Control Act, 35 P.S. 4001 *et seq.*; the Dam Safety and Encroachments Act, 32 P.S. 693.1 *et seq.*; the Surface Mining Conservation and Reclamation Act, 52 P. S. 1396.1 *et seq.*; the Coal Refuse Disposal Control Act, 52 P.S. 30.51 *et seq.*; all other Pennsylvania statutes related to the protection of the environment, and all Pennsylvania statutes related to the protection of public health, safety, and welfare.

This permit is effective as of September 27, 2011, and shall remain in effect until September 27, 2021, unless revoked and reissued, or terminated in accordance with 25 Pa. Code 270a.41, 270a.42, 270a.43 and 40 CFR 270.41, 270.42, and 270.43, or suspended in accordance with the Act.

PART I - STANDARD CONDITIONS

A. EFFECT OF PERMIT

This permit authorizes only the management of hazardous waste expressly described in this permit and does not authorize any other management of hazardous waste. Issuance of this permit does not convey property rights of any sort or any exclusive privilege; nor does it authorize any injury to persons or property, any invasion of other private rights, or any infringement of State or local laws or regulations. Compliance with the terms of this permit does not constitute a defense to any action brought under the Act or any other law governing protection of public health or the environment.

B. PERMIT ACTIONS

This permit may be modified, revoked and reissued, terminated for cause as specified in 25 Pa. Code 270a.41 270a.42, 270a.43 and 40 CFR 270.41, 270.42, and 270.43 or suspended in accordance with the Act. The filing of a request for a permit modification, revocation and reissuance, or revocation or the notification of planned changes or anticipated noncompliance on the part of the Permittee does not stay or supersede the applicability or enforceability of any permit condition.

C. SEVERABILITY

The provisions of this permit are severable, and if any provision of this permit or the application of any provision of this permit to any circumstance is held to be invalid, the application of such provision to other circumstances and the remaining provisions of this permit shall not be affected thereby.

D. DEFINITIONS

For the purpose of this permit, terms used herein shall have the same meaning as those in Title 25 of the Pennsylvania Code and Title 40 of the Code of Federal Regulations (25 Pa. Code Chapters 260a - 270a and 40 CFR 260 - 270), unless this permit specifically states otherwise;

5. Annually-adjusted cost estimate(s) for facility closure required by 40 CFR 264.142 and this permit.
6. Operating record required by 40 CFR 264.73 and Part II, Section H.1 of this permit.
7. Inspection schedules and logs required by 40 CFR 264.15(b)(2) and this permit.
8. Documents required by Part I, Sections H.9, H.13, H.14, H.15 and Part 11, Sections B, D, E, F, G, I and J of this permit.

H. DUTIES AND REQUIREMENTS

1. Duty to Comply. The Permittee shall comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the Act and the regulations promulgated thereunder, and is grounds for enforcement action, for permit revocation, termination and reissuance, or modification, or for denial of a permit renewal application.
2. Duty to Reapply. If the Permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the Permittee must submit a complete application for a new permit at least 180 days before this permit expires.
3. Permit Expiration. This permit and all conditions therein will remain in effect beyond the permit's expiration date if the Permittee has submitted a timely, complete application and through no fault of the Permittee, the Department has not issued a new permit.
4. Need to Halt or Reduce Activity Not a Defense. It shall not be a defense for the Permittee in an enforcement action to argue that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

5. Duty to Mitigate. In the event of noncompliance with the Act, the regulations, or this permit, the Permittee shall take all necessary steps to prevent and abate any releases to the environment, and shall carry out such measures as are necessary to prevent significant adverse impacts on human health or the environment.
6. Proper Operation and Maintenance. The Permittee shall at all times properly operate and maintain all facilities and systems of storage, treatment and control (and related appurtenances) which are installed or used by the Permittee to achieve compliance with the Act, the regulations, and the conditions of this permit. Proper operation and maintenance shall include effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. The Permittee shall operate back-up or auxiliary facilities or similar systems if necessary to achieve compliance with the Act, the regulations and the conditions of the permit.
7. Duty to Provide Information. The Permittee shall furnish to the Department within a reasonable time, any relevant information which the Department may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit. The Permittee shall also furnish to the Department, upon request, copies of required records kept by the Permittee pursuant to the Act, the regulations, or any permit condition.
8. Inspection and Entry. The Permittee shall allow the Department, its agents and authorized representatives, upon the presentation of credentials and other documents as may be required by law, or without advance notice or a search warrant to:
 - a. Enter at reasonable times upon the Permittee's premises where a regulated facility or activity is located or conducted, or where records concerning the regulated facility or activity are kept;
 - b. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;

- c. Inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under the Act, the regulations, or this permit;
- d. Sample or monitor any substances or parameters at any location for the purposes of assuring permit compliance or as otherwise authorized by the Act or the regulations; and,
- e. Engage in any other activities necessary or appropriate to the documentation of events or conditions at any locations.

9. Monitoring and Records

- a. Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity. The method used to obtain a representative sample of the waste to be analyzed must be the appropriate method from Appendix I of 40 CFR Part 261 - Criteria, Identification and Listing of Hazardous Waste or an equivalent method approved by the Department. Laboratory methods must be those specified in Appendix III of 40 CFR Part 261; Test Methods for Evaluating Solid Waste. Physical/Chemical Methods (U.S. EPA Document SW-846, most recent edition); Standard Methods of Waste Water Analysis (U.S. EPA; 15th ed.; 1980); or an equivalent method approved by the Department and the waste analysis plan (Application Reference 1).
- b. The Permittee shall retain records of all monitoring information, including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation, copies of all reports and records required by the Act, the regulations, or this permit, and all records of all data used to complete the application for this permit for a period of at least 3 years from the date of the sample, measurement, report or record, or application. These periods may be extended by request of the Department at any time and are automatically extended during the course of any unresolved enforcement action regarding this facility.

- (1) The dates, exact place, and times of sampling or measurements;
 - (2) The individuals who performed the sampling or measurements;
 - (3) The dates analyses were performed;
 - (4) The individuals who performed the analyses;
 - (5) The analytical techniques or methods used;
 - (6) The results of such analyses.
10. Reporting Planned Changes. The Permittee shall give notice to the Department as soon as possible of any planned physical alterations or additions to the permitted facility. This notice must include a description of all incidents of noncompliance reasonably expected to result from the proposed changes. The Permittee shall not modify the facility without first obtaining a permit from the Department.
11. Anticipated Noncompliance. The Permittee shall give advance notice to the Department of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.
12. Transfer of Permits. This permit shall not be transferred or assigned to any other person or municipality, unless the permit has been modified or revoked and reissued to identify the new permittee and incorporate such other requirements as may be necessary.
13. Twenty-Four Hour Reporting. The Permittee shall report to the Department any noncompliance with the Act, the regulations or any condition of this permit or any occurrence or event at the facility which may endanger health or the environment.

c. A written submission shall also be provided to the Department within five (5) days of the time the Permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the period of non-compliance (including exact dates and times); if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the noncompliance. The Permittee need not comply with the five (5) day written notice requirement if the Department extends it to fifteen (15) days.

14. Other Noncompliance. The Permittee shall report to the Department all other instances of noncompliance not otherwise required to be reported above, at the time monitoring reports are submitted. The reports shall contain the information listed in permit condition I.H.13.

15. Other Information. Whenever the Permittee becomes aware that it failed to submit any relevant facts in the permit application, or submitted incorrect information in a permit application or in any report to the Department, or whenever the Permittee becomes aware of circumstances which require a modification or clarification of any fact or representation made to the Department in connection with a permit application, it shall promptly submit such facts or information to the Department.

I. CERTIFICATION OF CONSTRUCTION OR MODIFICATION

1. The permittee shall submit a certification by a registered professional engineer upon the completion of construction or modification, stating that the following hazardous waste storage and treatment units were constructed or modified in compliance with the permit. The certification shall include all associated as-built drawings.

PART II - GENERAL FACILITY CONDITIONS**A. DESIGN AND OPERATION OF FACILITY**

The Permittee shall maintain and operate the facility to minimize the possibility of a fire, explosion, or release of hazardous waste or hazardous waste constituents to air, soil, surface water, or groundwater which could threaten human health or the environment.

B. GENERAL WASTE ANALYSIS

The Permittee shall follow the procedures described in the Waste Analysis Plan (Application Reference 1). The Permittee shall verify its waste analysis as part of its quality assurance program, in accordance with current EPA practices (Test Methods for Evaluating Solid Waste: Physical/Chemical Methods SW-846, most recent edition) or equivalent methods approved by the Department in accordance with procedures in 40 CFR 260.21; and at a minimum maintain proper functional instruments, use approved sampling and analytical methods, verify the validity of sampling and analytical procedures, and perform correct calculations. The following are additional requirements and conditions to the waste analysis plan:

C. SECURITY

The Permittee shall comply with the security provisions of 40 CFR 264.14(b) and (c).

D. GENERAL INSPECTION REQUIREMENTS

The Permittee shall remedy any deterioration or malfunction discovered by an inspection as required by 40 CFR 264.15(c). Records of inspections shall be kept as required by 40 CFR 264.15(d).

F. PREPAREDNESS AND PREVENTION

1. Required Equipment. At a minimum, the Permittee shall equip the facility with the equipment set forth in the PPC plan, Application Reference 3, as required by 40 CFR 264.32.
2. Testing and Maintenance of Equipment. The Permittee shall test and maintain the equipment specified in the previous permit condition and in Application Reference 3 as necessary to assure its proper operation in time of emergency.
3. Access to Communications or Alarm System. The Permittee shall maintain access to the communications or alarm system as required by 40 CFR 264.34.
4. Arrangements with Local Authorities. The Permittee shall maintain arrangements with State and local authorities as required by 40 CFR 264.37. If State or local officials refuse to enter into or renew existing preparedness and prevention arrangements with the Permittee, the Permittee must document this refusal in the operating record.

G. PREPAREDNESS, PREVENTION AND CONTINGENCY (PPC) PLAN

1. Implementation of PPC Plan. The Permittee shall immediately carry out the provisions of the PPC plan, Application Reference 3, and follow the emergency procedures described by 25 Pa. Code 264a.56 and 40 CFR 264.56 (a)-(j) whenever there is a fire, explosion, emission or discharge of hazardous waste or hazardous waste constituents which could threaten human health or the environment.

PART III – Thermal Treatment

A. CONSTRUCTION

The Permittee shall construct and maintain the thermal treatment facility (Open Burning Unit, and Three Immersion Tanks) in accordance with the design submitted in the permit application.

1. The modifications required for the concrete secondary containment for the immersion tanks must be completed within 180 days of issuance of this permit.

B. WASTE

1. Only hazardous waste generated by the Permittee shall be thermally treated under this permit.
2. The hazardous waste shall consist of damaged and/or unusable fireworks.
 - a. The damaged or unusable fireworks are classified as DOO3 Characteristic of Reactivity (explosive) prior to placement into the immersion tanks.
 - b. The damaged or unusable fireworks are classified as DOO1 Characteristic of Ignitability after removal from the immersion tanks and placement into the Open Burn Unit.

C. OPERATING CONDITIONS

1. The Permittee shall openly burn waste fireworks in accordance with the requirements of this section, 40 CFR 265.382, 25Pa. Code 265a.382, and the procedure and specifications outlined in the Burn Unit Operating Plan.
2. Prior to each burn session, inspect the area to ensure there are no combustible materials within a 100 ft radius of the center of the open burn unit. If present remove combustible materials including brush, trees, etc.

3. Prior to each burn session, inspect the exterior steel diamond mesh installed on the open burn unit. Repair or replace any damaged sections of the mesh prior to initiating a burn event.
4. The open burn unit fire box shall operate the fire box in compliance with the requirements of 25 Pa. Code §129.14.
5. The Permittee will record the hours of operation, throughput of material processed and fuel consumed for this source.
6. Ash/residues from the open burning unit shall be tested and properly disposed.
7. The Permittee will calculate monthly particulate matter (PM) emissions. The results from the last month will be added with emissions from the previous months to form a 12 month rolling total. If the 12 month rolling total ever exceeds 3 tons, the Permittee will complete an Air Quality Plan Approval Application for this source.

D. Environmental Sampling

1. The Permittee shall prepare an Environmental Soil Sampling Plan to address potential impacts to the surrounding areas that may result from the open burning activities. The Permittee shall submit the Environmental Soil Sampling Plan to the Department for approval within 90 days of the issuance date of this Permit. Upon Department approval the Environmental Soil Sampling Plan will be incorporated into this Permit.

The Environmental Soil Sampling Plan must include, at a minimum, the following:

- a. A description of hazardous waste or hazardous constituents likely to be released from the open burning unit.
- b. A description of those constituents for which the soil will be analyzed.
