**Re: Clean Air Act Notice of Intent to Sue Pursuant to 42 U.S.C. §§
7604(b)(2) and 7661(b)(2) Over Failure to Respond to Clean Air
Act Title V Petition Over DCP Operating Company, LP, Libsack
Compressor Station, Weld County, CO, Title V Permit No.
21OPWE446**

Administrator Zeldin:

Please be advised that we represent The Center for Biological Diversity, which intends to sue you and the Environmental Protection Agency (“EPA”) for your failure “to perform any act or duty under this chapter which is not discretionary. . .” 42 U.S.C. § 7604(a)(2). Specifically, under 42 U.S.C. § 7661d(b)(2), EPA has a non-discretionary duty to “grant or deny” petitions to object to Title V permits “within 60 days after the petition is filed.” EPA failed to respond to the Center’s Title V Petition to Object (“Petition”) to Title V Permit No. 21OPWE446 issued by the Colorado Department of Public Health and Environment (“CDPHE”) to DCP Operating Company, LP (“DCP”) for its Libsack Compressor Station within 60 days of the Center filing the Petition on April 2, 2025.

We intend to bring a lawsuit against you 60 days from the postmark date of this letter, or shortly thereafter, under Section 304(a)(2) of the Clean Air Act, 42

501 S. Cherry Street, Suite 1100
Denver, CO 80246

U.S.C. § 7604(a)(2), for your failure to perform a non-discretionary duty outlined in 42 U.S.C. § 7661d(b)(2).

The Center for Biological Diversity is a nonprofit, 501(c)(3) conservation organization. The Center's mission is to ensure the preservation, protection, and restoration of biodiversity, native species, ecosystems, public lands and waters, and public health through science, policy, and environmental law. The Center has more than 93,000 members, many of whom are harmed by your failure to perform a mandatory duty under the Clean Air Act.

CDPHE is the agency responsible for issuing Title V operating permits in Colorado. The Center submitted comments on the draft Libsack Compressor Station Title V Permit on June 26, 2024. CDPHE responded to the Center's comments on December 17, 2024. The proposed permit was thereafter submitted to EPA for the agency's 45-day review. EPA did not object to the proposed permit. CDPHE issued a Title V permit to DCP for the Libsack Compressor Station on March 1, 2025.

The Center submitted its Petition to EPA within 60 days of the close of EPA's 45-day review period, on April 2, 2025, as required by 42 U.S.C. § 7661d(b)(2). The Center's Petition raises issues regarding the federal and practical enforceability of the Libsack Compressor Station permit's terms and conditions and whether the permit assures compliance with the applicable requirements under the Clean Air Act.

The Clean Air Act provides: "The administrator shall grant or deny such [Title V] petition within 60 days after the petition is filed." 42 U.S.C. § 7661d(b)(2). Responding to Title V petitions within 60 days pursuant to 42 U.S.C. § 7661d(b)(2) is a non-discretionary duty under the Clean Air Act. The Center submitted the Petition for the Libsack Compressor Station on April 2, 2025 via the email address titlevpetitions@epa.gov, per EPA instruction.¹ EPA therefore had until June 2, 2025 to grant or deny the Title V petition. EPA neither granted nor denied the Title V petition by this date and/or by the date of this letter. Therefore, EPA is in violation of 42 U.S.C. § 7661d(b)(2) by failing to perform its non-discretionary duty. "Any person" may commence a civil action against the Administrator for failing to perform a non-discretionary duty under the Act. 42 U.S.C. § 7604(a)(2).

¹ Normally petitions are submitted via the EPA's Central Document Exchange Platform, but due to technical difficulties, the EPA has directed people to submit petitions to the email address, titlevpetitions@epa.gov.
