Mr. Kerry Durnen  
Vice President and General Manager  
Wayne Disposal, Inc.  
49350 North I-94 Service Drive  
Belleville, Michigan 48111

Dear Mr. Durnen:

SUBJECT: Completeness Review; Hazardous Waste Management Facility Operating License Renewal Application; Wayne Disposal, Inc.; Belleville, Michigan, MID 048 090 633; Waste Data System Number 395812

The Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division (MMD), has performed a completeness review of the Hazardous Waste Management Facility Operating License Renewal Application (Renewal Application) submitted by Wayne Disposal, Inc. (WDI), on November 5, 2021. The Renewal Application was reviewed for compliance with Part 111, Hazardous Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and its administrative rules.

Based on this review, the MMD has determined that the Renewal Application is administratively complete. The MMD will proceed with the technical review of the Renewal Application to determine if the facility satisfies the technical requirements of Part 111 and its administrative rules, and the federal Resource Conservation and Recovery Act of 1976. The MMD will provide WDI with a determination on the technical adequacy of the Renewal Application upon completion of the review.

If you have any questions, please contact Ms. Christine Matlock, Environmental Engineer, Engineering and Program Support Unit, Hazardous Waste Section, MMD, at 517-290-4612; MatlockC2@Michigan.gov; or EGLE, P.O. Box 30241, Lansing, Michigan 48909-7741, or you may contact me.

Sincerely,

Kimberly M. Tyson, P.E., Manager  
Hazardous Waste Section  
Materials Management Division

Dear Mr. Takacs:

SUBJECT: Hazardous Waste Management Facility Expansion Operating License (License);  
Wayne Disposal, Inc. (WDI), Belleville, Michigan; MID 048 090 633

The Department of Environmental Quality (DEQ), Resource Management Division (RMD), has completed its review of the License application from WDI. Based on that review and the results of the public hearing held on March 12, 2012, the DEQ has issued the License to WDI pursuant to Part 111, Hazardous Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The License application review and the public participation procedures were conducted in accordance with Part 111.

Enclosed are copies of the License, Response to Comments, and Notice of Final Decision. The license attachments that were previously provided with the draft License have not changed, so they can be included with this final License. If you have any questions or comments, please contact Mr. Peter Quackenbush, Hazardous Waste Section, RMD, at 517-373-7397; quackenbushp@michigan.gov; or DEQ, P.O. Box 30241, Lansing, Michigan 48909-7741.

Sincerely,

Liane J. Shekter Smith, P.E., Chief  
Resource Management Division

**APPLICABLE REGULATIONS AND LICENSE APPROVAL**

The conditions of this license were developed in accordance with the applicable provisions of the rules, effective March 17, 2008. The licensee shall comply with all terms and conditions of this license. This license consists of the 32 pages of conditions attached hereto (along with those in Attachments 1 through 16) and the applicable regulations contained in R 299.9101 through R 299.11008, as specified in the license. For purposes of compliance with this license, applicable rules are those that are in effect on the date of issuance of this license in accordance with R 299.9521(3)(a).

This license is based on the information in the license application submitted on March 4, 2011, and any subsequent amendments (hereafter referred to as "the application"). Pursuant to R 299.9519(11)(c), the license may be revoked if the licensee fails, in the application or during the license issuance process, to disclose fully all relevant facts or, at any time, misrepresents any relevant facts. As specified in R 299.9519(1), the facility shall be constructed, operated, and maintained in accordance with Part 111 of Act 451, as amended on December 22, 2010; the rules; and this license.

This license is effective on the date of issuance and shall remain in effect for 10 years from the date of issuance, unless revoked pursuant to R 299.9519 or continued in effect as provided by the Michigan Administrative Procedures Act, 1969 PA 306, as amended (Act 306). Pursuant to R 299.9516, this license shall be reviewed by the DEQ 5 years after the date of issuance and shall be modified as necessary in accordance with the provisions of R 299.9519 and R 299.9520.

Re: Final Federal TSCA Chemical Waste Landfill Approval Modification and Renewal,  
Wayne Disposal, Inc., Belleville, Michigan, MID048090633

Dear Mr. Durnen:

Enclosed is the final federal Toxic Substances Control Act (TSCA) approval modification and renewal for the Wayne Disposal, Inc. (Wayne Disposal) landfill in Belleville, Michigan. This is a chemical waste landfill approval to dispose of polychlorinated biphenyls (PCBs) issued pursuant to 40 C.F.R. § 761.75. This approval replaces the approval issued on September 27, 2013.

On June 28, 2018, the U.S. Environmental Protection Agency issued the draft federal TSCA approval modification and renewal for Wayne Disposal's landfill in Belleville, Michigan for public comment. The draft federal TSCA approval was publicly noticed in the *Belleville Independent* on June 28, 2018. A copy of the draft federal TSCA approval was available for review at the Van Buren Township Hall, 46425 Tyler Rd., Van Buren Township, Michigan 48111 and on the EPA website. In addition, EPA mailed fact sheets regarding the public comment period to community groups and individuals identified during Wayne Disposal's environmental justice analysis and community outreach activities. The public comment period was open through July 31, 2018. A joint Michigan Department of Environmental Quality (MDEQ) and EPA public hearing was held on July 19, 2018. EPA received no comments by mail or email; however, several significant comments were received during the public hearing. EPA and MDEQ responded jointly to these comments. EPA responded to the comments related to PCBs and the TSCA approval renewal. The comments did not alter any of the conditions of the draft approval. EPA is now issuing a final modified and renewed approval to Wayne Disposal.

This approval may be withdrawn, or further conditions may be added to it, at any time EPA has reason to believe that operation of the process represents an unreasonable risk of injury to human health or the environment. Withdrawal of this authorization or the imposition of further

conditions may also result from future EPA rulemaking or development of guidance with respect to PCBs. Moreover, violation of any condition included as part of this authorization may subject Wayne Disposal to enforcement action and/or termination of this approval.

You and Wayne Disposal are responsible for ensuring that all applicable provisions of TSCA and the federal PCB regulations are followed. Violation of any of the applicable provisions may be cause for rescission of this approval. Furthermore, this approval does not relieve Wayne Disposal of the responsibility to comply with all other federal, State and local regulations and ordinances for transportation, siting, operation, and maintenance of its landfill facility.

EPA reserves the right for its authorized representatives to observe disposal activities and operations at the Wayne Disposal landfill and inspect records which the company is required to maintain under the federal PCB regulations and this approval during normal operations and at other reasonable times.

If you have questions concerning the final federal TSCA approval, please contact Lisa Graczyk, of my staff, at (312) 353-3219.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tinka G. Hyde".

Tinka G. Hyde  
Division Director  
Land and Chemicals Division

**AUTHORITY**

This chemical waste landfill approval (Approval) is issued by the U.S. Environmental Protection Agency to Wayne Disposal, Inc. (WDI), pursuant to Section 6(e)(1) of the Toxic Substances Control Act (TSCA), 15 U.S.C. § 2605(e)(1), and the federal regulations for disposal of Polychlorinated Biphenyls (PCBs) at 40 C.F.R. § 761.75. This Approval replaces the September 27, 2013, Approval and April 14, 2015, Minor Modification previously issued to WDI.

Section 6(e)(1)(A) of TSCA, 15 U.S.C. § 2605(e)(1)(A), requires that EPA promulgate rules to prescribe methods for the disposal of PCBs. The regulations at 40 C.F.R. § 761.75 require, among other things, that various types of PCBs and PCB Items be disposed of in chemical waste landfills approved by EPA for PCB disposal. 40 C.F.R. § 761.75(a) designates the Regional Administrator as the approval authority for such PCB disposal facilities. 40 C.F.R. § 761.75(b) sets out technical requirements for PCB disposal facilities. 40 C.F.R. § 761.75(c) prescribes the process by which an owner or operator of a chemical waste landfill may obtain approval to dispose of PCBs.

EPA Headquarters Delegation 12-5 authorizes the re-delegation of approval authority for PCB disposal facilities from Regional Administrators to Regional Division Directors. Under EPA, Region 5 Delegation 12-5, dated July 28, 2014, the approval authority for PCB disposal facilities was delegated to the Director, Land and Chemicals Division (LCD), EPA, Region 5.

None of the information required to be maintained under or submitted pursuant to this Approval is subject to the requirements of the Paperwork Reduction Act, 44 U.S.C. § 3501, *et seq.*, because such information is collected by EPA from WDI for the purpose of assuring compliance with this Approval.

is hereby authorized to discharge industrial wastewater from the above identified facility and through the outfall identified herein into the sanitary sewer system tributary to the South Huron Valley Wastewater Treatment Plant in accordance with the conditions set forth in this permit. Compliance with this permit does not relieve the permittee of its obligation to comply with any or all applicable Pretreatment regulations, standards, or requirements, or laws that may become effective during the term of this permit.

Noncompliance with any term or condition of this permit shall constitute a violation of the South Huron Valley Utility Authority Rules and Regulations.

If the permittee wishes to continue to discharge after the expiration date of this permit, an application must be filed for permit re-issuance in accordance with the requirements of Article V, Section 4 of the Rules and Regulations, a minimum of 90 days prior to the expiration date.

The permittee shall pay an ANNUAL SURVEILLANCE FEE OF \$4,095.00 for the current year of this permit, in accordance with the conditions of Part IIA.4 of this permit. Permit fees are subject to yearly evaluations and adjustments based on flow, number of constituents monitored, and any other factors influencing the costs associated with the administration of the Industrial Pretreatment Program.
