| 2025-EPA-02446 | McCullough, Irvin | Government Accountability Project | This request is for memoranda created between December 1, 2024, and December 31, 2024 for the Administrator. Specifically, I am requesting memoranda reviewed by the Administrator regarding the potential exodus of staff due to the upcoming second Trump administration. For context, the Trump administration has indicated that it will launch an aggressive offense against the 'deep state', which could include designating EPA staffers as 'Schedule F' employees, making them at-will employees, and seeking to move the agency headquarters out of Washington. The administration has also proposed slashing funding for the EPA, which could further compromise the agency's ability to carry out its core activities. | 2025-EPA-02476 | Bogardus, Kevin | E&E News | I request the briefing described in the following excerpt from House Report 118-155: "The Committee remains concerned by the rise in harmful algal blooms (HABs) throughout the Great Lakes and believes that in- vesting GLRI funding in innovative projects, including wetland and other natural infrastructure project designs, technologies, algae re- mediation through harvesting or cultivation, or through other ap- proaches, can achieve both nutrient and HAB reduction benefits at landscape scales. The Agency is directed to brief the Committee on its current and historical allocation of funds among the five focus areas, with a focus on Area 3 (nutrients) and Area 4 (habitat). Ad- ditionally, the Committee urges the Agency to focus on HAB reduc- tion efforts in Great Lakes regions where nutrient loading contrib- utes the most to HABs. The Committee strongly supports projects that have cross-cutting benefits across focus areas and directs the Agency to combine resources from multiple focus areas and to de- velop a more flexible and responsive allocation process, which en-sures that States and local communities have the capacity and tools to respond to the growing threat that HABs and other envi- ronmental challenges pose to the Great Lakes." | 2025-EPA-02469 | Pacey, Lesley | Government Accountability Project | Please provide responsible documents to the entire FOIA that was originally submitted in August 2024, but will was closed unexpectedly after a small portion of the request was fulfilled. I did not appeal in time because there was so much of the FOIA that had not been touched and we expected the production was coming on a rolling basis. Instead, to our surprise we found the FOIA closed. The one portion of the request was only a draft pre-dated QAPP and SOPs. Please see attached. We were given a fee waiver due to our media work and expedited processing due to the ongoing EPA OIG complaint we have against ASPECT and the compelling reason that the information would inform public health in East Palestine. | 2025-EPA-02521 | Chase, Andrew | - | I am requesting bargaining unit certifications between EPA and AFGE. This request is for documents that contain either the text "All nonprofessional employees, management officials, supervisors" or the text "22-09130(UC)". EPA does not need to search for documents not containing these two text strings however they can be included if readily available. Documents may be dated 1980 or later. If records schedules limit the date search to more recent records, use the records schedule timeframe. Argument against FOIA exemption 2: Union bargaining unit certifications are not merely internal documents concerning routine administrative practices. These records establish the scope, composition, and representation rights of federal employee bargaining units, directly affecting external parties—namely, the employees represented and the unions involved. Exemption 2 is intended to cover matters of trivial administrative significance, not documents with significant public and external labor relations implications. Arguments against exemption 5: Exemption 5 primarily shields documents that are both pre-decisional and deliberative—those reflecting the internal decision-making process of an agency before a final decision or policy is made. Bargaining unit certifications, by their very nature, are final agency determinations made by the Federal Labor Relations Authority (FLRA) or relevant certifying body. Bargaining unit certifications are not confidential communications exchanged solely within or between agencies. Instead, they are formal agency determinations issued as part of the public-facing regulatory process under the Federal Service Labor-Management Relations Statute (5 U.S.C. Chapter 71). As final records, they are intended to be publicly accessible. (Date Range for Record Search: From 01/01/1980 To 01/07/2025) | 01/07/2025 |

| 2025-EPA-02481 | Bogardus, Kevin | E&E News | I request the reports described in the following excerpt from House Report 118-155: "Lead Service Lines.—Public Law 117–58 provides a significant investment in pipe replacement to address lead remediation in drinking water systems. The Committee is aware that remediation may temporarily increase the risk of lead exposure during the short period of time in which pipes are being replaced and extant lead may be agitated throughout the water system. The Committee en- courages the Agency to consider providing recommendations for local drinking water systems to assess blood lead level tests among children in projects funded by EPA lead remediation grants. The Committee directs the Agency to report on the status of such out- reach, and any findings, at regular intervals." Please see pages 74 through 75 of House Report 118-155 (https://www.congress.gov/118/crpt/hrpt155/CRPT-118hrpt155.pdf). The joint explanatory statement of Division E of the Consolidated Appropriations Act, 2024, Public Law No: 118-42, states "the language set forth in House Report 118-155 and Senate Report 118-83 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement." | 2025-EPA-02595 | Payne, Bailey | Benton County | Hi, I work for Benton County in Oregon. The Coffin Butte Landfill has been a hot topic in our community. I'd like to get an update on where the enforcement process is. Here's an excerpt from an email I received... Senator Jeff Merkley met with the head of EPA Mike Regan at the US Senate hearing on budget appropriations for the Environmental Protection Agency: 1:52:32 JM: [In my] home state: Coffin Butte Landfill. In June of 2022 the EPA sent out a team to measure the methane coming out of it, because of local concerns. The inspection resulted in recording 61 leaks, including three measurements that maxed out the instrumentation that was being used, at 70,000 parts per million. So: can you give me a short version of what action the EPA is taking? This is now 23 months ago that the field inspection occurred. If we need a longer discussion, I'd like to follow up with you to make sure that there is going to be action regarding landfills like this that are out of compliance. 1:53:10 MR: Well, I will say that our enforcement arm has been very aggressive at looking at these methane leaks and opportunities here. This is one that as you said was discovered in 2022. Unfortunately it is an active enforcement situation, so I can't speak to that without betraying the confidence or the legal obligations that I have. But I can tell you that we are coordinating with the State of Oregon – it's an active case, and we are laser-focused on this case. 1:53:43 JM: Great, because if you have a landfill which maxes out the instrumentation – which is I think quite rare? – it should probably rise to the top of the list of places to act on. I'll convey to the folks in Corvallis and nearby that you are on the case. | 2023-R05-06260 | Patel, Shennie | Crowell & Moring LLP | We respectfully request the following: From January 2019 through to the date of this FOIA request, any and all copies of the following electronic records in EPA's files that involve communications regarding PFAS-related matters between EPA personnel in Region 5 with particular individuals, government agencies, and/or entities listed in Attachment A to this FOIA request: 1) Electronic Calendar Entries in Outlook regarding any scheduled meetings; 2) External, incoming and outgoing, electronic communications, and any corresponding attachments; and 3) Electronic Memoranda to File or Notes that document, memorialize, or refer to any of the above-described communications or meetings. For items 2) and 3) above, we believe the following keywords search would further limit the production to relevant communications between EPA and the listed individuals, government agencies, and/or entities regarding PFAS-related discussions: ([names of individuals] or [government agencies] or [entities]) and ("PFAS" or "per- and polyfluoroalkyl substances" or "PFOA" or "Perfluorooctanoic acid"). Item 1) above would involve searching only for the names of the individuals, government agencies, and entities listed in Attachment A, as calendar entries usually do not also include subject matter. Please limit the request to include all employees and agents of EPA within the following Divisions located in EPA's Region 5: (1) Office of Regional Administrator; (2) Office of Enforcement and Compliance; (3) Office of Regional Counsel; (3) Water; and (4) Superfund. | 01/17/2025 |

| 2025-EPA-02979 | Pacey, Lesley | Government Accountability Project | U.S. Environmental Protection Agency National FOIA Office 1200 Pennsylvania Avenue, NW (2310A) Washington, DC 20460 Via Email: hq.foia@epa.gov Re: Freedom of Information Act Request - East Palestine Train Derailment PFAS/PFOA Records Dear FOIA Officer: Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and on behalf of the Government Accountability Project, I hereby request copies of all records in the possession, custody, or control of the Environmental Protection Agency (EPA) related to PFAS and PFOA contamination following the Norfolk Southern train derailment in East Palestine, Ohio. Background: On February 3, 2023, a Norfolk Southern train derailed in East Palestine, Ohio, leading to environmental contamination concerns. EPA officials have acknowledged PFAS and PFOA as chemicals of concern, particularly due to the fire suppression efforts between February 3-6, 2023, including the controlled burn of vinyl chloride tank cars, involved the use of PFAS-containing firefighting foam (AFFF). Additionally, it is known that hybrid Ford trucks with lithium-ion batteries that contain PFAS and PFOA burned during the disaster as they were aboard the derailed train. Requested Records: Please provide all records dated between February 3, 2023, and February 3, 2024, including but not limited to: 1. All sampling data related to PFAS and PFOA contamination 2. Liquid and solid waste disposal records and data concerning PFAS and PFOA 3. Internal EPA communications regarding PFAS and PFOA contamination 4. Communications between EPA and Norfolk Southern's contractor Arcadis regarding PFAS and PFOA 5. Communications between EPA and the media regarding PFAS/PFOA and Ford trucks 6. Records related to the use and disposal of aqueous film forming foam (AFFF) 7. Environmental assessment reports mentioning PFAS or PFOA contamination Search Terms: Please include the following search terms: - East Palestine Train Derailment OR EPTD OR Norfolk Southern AND - PFAS OR PFOA OR "aqueous film forming foam" OR AFFF OR Ford OR "Ford Maverick" OR "lithium-ion batteries" OR "fire department" OR "firefighting foam" Request for Expedited Processing: We request expedited processing pursuant to 5 U.S.C. § 552(a)(6)(E) due to a compelling need to inform the public about ongoing environmental hazards. Community members continue to face potential exposure through ongoing remediation work, and timely access to this information is crucial for public health and safety decisions. Please exclude internal newsletters. Fee Waiver Request: We request a fee waiver pursuant to 5 U.S.C. § 552(a)(4)(A)(iii). The Government Accountability Project is a non-profit organization engaged in gathering information about governmental activities and disseminating that information to the public. This request is not for commercial use, and disclosure of the requested information will contribute significantly to public understanding of government operations. | 2025-EPA-03014 | Bernhardt, Courtney | Environmental Integrity Project | On 3/6/2025, Ms. Bernhardt spoke to OECA staff and Denise Dykeman regarding the scope of your request. During the conversation you clarified your request as follows: 1. The date range for both requests should be: From 1/1/2023 To 1/20/2025. 2. These requests will be limited to Headquarters and processed accordingly. Requesters agree to submit separate requests to the EPA Regional Offices for the Region-specific material. This FOIA request seeks records from the United States Environmental Protection Agency (EPA) Office of Enforcement and Compliance Assurance and each EPA region: 1. Information requests that EPA issued on or after January 1, 2023 that seek to determine whether any person or entity is in violation of applicable limits, standards or other applicable requirements. These requests are issued pursuant to Section 308 of the Clean Water Act (CWA), 33 U.S. C. § 1318; Section 114 of the Clean Air Act (CAA), 42 U.S.C. § 7414; Section 3007(a) of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. § 7414; Section 3007(a) of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. §6927(a); and Section 300j-4(a) of the Safe Drinking Water Act (SDWA), 42 U.S.C. § 1445(a). 2. Notices of violation issued by EPA on or after January 1, 2023, pursuant to Section 309(a) of the CWA, 33 U.S.C. § 1319(a); Section 113 of the CAA, 42 U.S.C. § 7413; Section 3008 of RCRA, 42 U.S.C. § 6928; and Sections 300-g3(a) and 300h-2 of the SDWA, 42 U.S.C. §§ 1414 and 1423. Notices of violation are sent when enforcement proceedings are initiated. 3. Any spreadsheets, lists, databases, inventories, indices, or other records that identify each NOV that EPA issued on or after January 1, 2023, including any additional information such as to whom the NOV was issued to, when it was issued, the location of the facility or source, pollutants and units at issue, and the type or category of facility or source. | 2025-EPA-03035 | Ilola, Maria | - | Request for Access to Toxicology Study Documents I hope this message finds you well. My name is Maria Ilola, and I am currently pursuing a Master's degree in Toxicology at the University of Eastern Finland. I am writing to kindly request access to the following documents: Brown, D. (1981). Dinoseb: A 100-week oral (dietary) toxicity and carcinogenicity study in the mouse. Hazelton Laboratories Europe, Ltd. Prepared for Dow Chemical Pacific, Ltd., Hong Kong. EPA MRID 00152762. Dow Chemical Company. (1977). MRID No. 00025582. Available from EPA. These documents appear to be critical for the completion of my risk assessment report on Dinoseb, as they are the only available carcinogenicity studies on this substance that I have been able to locate. Unfortunately, they do not seem to be publicly available. As I am a student and working on this project for an academic course, I do not have the financial means to purchase these documents. If possible, I would greatly appreciate your assistance in granting me access to these studies for academic purposes. However, if this request cannot be fulfilled, I completely understand. Thank you for your time and consideration. I look forward to your response. | 2025-EPA-03043 | Becker, Scott | American Environmental and Construction Services | I would like to request any environmental documentation pertaining to the following property: Barlow Creosote GA HSI No.: 10191 Parcel No.: 114 005 Located at: Route 2 (Antioch Church Road), Argyle, Clinch County, GA 31634 We are conducting an environmental investigation of the site and are interested in obtaining any Response Action Reports, Corrective Action Reports, Removal Workplans, Phase I or Phase II Investigations, Etc. We have knowledge that there has been work conducted at the site i.e. investigation and/or remediation beginning in approximately 1994 and continuing intermittently until 2018, if not more recently. Currently, the site is operated by the Georgia Environmental Protection Division, Land Protection Branch. It is on the Georgia Hazardous Site Inventory as Number 10191. EPA conducted a site Screening of the site in 1986. Previous environmental contractors that have conducted work at the site include: Kemron Environmental Services; MACTEC Inc.; Earth Tech/AECOM. The Barlow Creosote property is bordered by the Bridges of Hope Property located at 1326 Antioch Church Road, Homerville, GA. This property has also been investigated in relation to the Barlow Creosote property. We would be interested in seeing any documentation pertaining to the Bridges of Hope property as well. We do have several reports and/or other documents pertaining to the site which we can provide to provide additional information on the Barlow Creosote property, if necessary. | 2025-EPA-03054 | Perryman, Skye | Democracy Forward Foundation | Democracy Forward Foundation ("DFF") requests that your agency produce the following within twenty (20) business days: All appointment memoranda and removal memoranda appointing or removing individuals to or from positions within the agency issued or signed from January 20, 2025, until the date of the search. Any document compiling or reflecting the incoming personnel actions to be taken by the incoming Trump Administration upon assumption of office, such as a list or spreadsheet designating individuals for appointment, assignment, removal, or demotion. Please include documents that were created or came into the agency's possession from November 7, 2024 until the date of the search. DFF recognizes that the above request seeks personnel records, however most privacy interests implicated by this narrow subset of records are significantly outweighed by the public interest in disclosure. First, the requested information would inform the public about who the incoming administration has put in positions of power to lead vital government agencies in its first days in office. Second, there is a substantial public interest in understanding the Trump Administration's actions in seeking to remove civil service protections from career civil servants, and the responsive records will indicate the extent to which the administration has initially taken–or not taken–perssonnel actions affecting career civil servants. Consequently, DFF expects that your agency will produce the requested records with few or no exemption claims, though DFF would not object to the redaction of sensitive personal information like social security numbers or dates of birth. | 2025-EPA-02478 | Bogardus, Kevin | E&E News | I request the briefing described in the following excerpt from Senate Report 118-83: "Bubbly Creek, Illinois.—The Committee directs the Agency to brief the Committee on what current EPA authorities and pro- grams exist to advance the restoration of urban rivers and environ- mental justice areas that have historic contamination but that do not meet the levels needed to be considered Superfund sites. The Committee remains concerned about the lack of progress on the restoration of the South Fork of the South Branch of the Chicago River known as ''Bubbly Creek'' and encourages the EPA to use its existing authorities and programs to advance the project." Please see page 98 of Senate Report 118-83 (https://www.congress.gov/118/crpt/srpt83/CRPT-118srpt83.pdf). The joint explanatory statement of Division E of the Consolidated Appropriations Act, 2024, Public Law No: 118-42, states "the language set forth in House Report 118-155 and Senate Report 118-83 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement." (please see page 1 of https://docs.house.gov/billsthisweek/20240304/FY24%20INT%20Conference%20JES%20scan%203.1.24.pdf). Please consider any final briefing materials accompanying this briefing for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request. | 01/23/2025 |

| 2025-EPA-03076 | Bastani Oskoui, Kaveh | NYC Department of Health | Pre-1978 buildings have often leaded bathtubs. These bathtubs are deteriorating over time and many of them lack a protective surfacing. Parents of lower socioeconomic status very often live in these buildings and sometimes allow their children to play in the bathtub for long hours. As an official of the NYC Health Department, I have observed that playing long hour in such bathtubs is associated with high blood lead level of these children. Therefore I am requesting to obtain all available information about leaded bathtubs in pre-1978 buildings, their durability, their composition and how to mitigated them as lead hazard for children. | 2025-EPA-03124 | Chase, Karen | Concerned Citizen | Subject: Freedom of Information Act Request for Nimbus Project Environmental Impact Assessments, Permitting, and Related Reports (Request for Expedited Processing) Dear FOIA Officer, Under the Arkansas Freedom of Information Act, A.C.A. § 25-19-101 et seq., I respectfully request access to records related to the Nimbus Project in Carroll County, Arkansas. Specifically, I am requesting: 1. Environmental Impact Assessments (EIAs): o Copies of all Environmental Impact Assessments (EIAs), Environmental Impact Statements (EISs), or similar documentation prepared for the Nimbus Project to evaluate its potential environmental impacts, including effects on wildlife, water resources, and local ecosystems. o Records of any public comments or responses related to these assessments. 2. Land Disturbance Permitting: o Copies of any Stormwater Construction General Permit applications (ARR150000), including Notices of Intent (NOI) and Stormwater Pollution Prevention Plans (SWPPP) submitted by Scout Clean Energy or any associated entities for the Nimbus Project. o Any communications between the DEQ and project developers regarding compliance with land disturbance permitting requirements. 3. Habitat and Wildlife Protection: o Records related to consultations or permitting with the U.S. Fish and Wildlife Service or DEQ concerning bald and golden eagle conservation or other federally protected species impacted by the Nimbus Project. o Documentation of mitigation measures proposed or implemented to address habitat disturbances or wildlife impacts. 4. Enforcement Actions: o Records of any investigations, compliance actions, or violations related to the Nimbus Project's permitting or environmental compliance. 5. Geotechnical and Hydrology Reports: o A copy of the geotechnical report (geo report) submitted for the Nimbus Project. o A copy of the hydrology report submitted for the Nimbus Project, detailing water table conditions, groundwater flow, and other relevant hydrological data. 6. Structural Pier Compliance Evidence: o Factual evidence, including supporting documentation or communications, that confirms the structural piers for the Nimbus Project are not deeper than the recommendations outlined in the geotechnical report. Request for Expedited Processing I request expedited processing of this FOIA request based on the following reasons: 1. Significant Public Interest and Potential Environmental Harm: The Nimbus Project represents a large-scale development with potential impacts on sensitive wildlife species, local hydrology, and ecosystems. Public access to this information is critical to ensuring that environmental regulations and construction practices are followed appropriately. 2. Time-Sensitive Nature of Development: The Nimbus Project is advancing, and delays in accessing these records could hinder public oversight and the opportunity for timely intervention to address potential environmental, hydrological, or structural concerns. 3. Urgency to Inform Public Debate: The requested information will contribute significantly to ongoing discussions about conservation, environmental impacts, and development in Carroll County, Arkansas. Ensuring transparency and accountability is crucial for public trust. If possible, I would prefer the requested records be provided in electronic format and sent to my email address listed above. If there are . . . The description has exceeded the character limit. | 01/27/2025 |

| 2025-EPA-03159 | Evers, Austin | American Oversight | Re: Freedom of Information Act Request (EPA-OIG-25-0194) Dear FOIA Officer: Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, American Oversight makes the following request for records. On January 24, 2025, President Trump removed inspectors general from many federal agencies. These removals may violate federal law, which requires the White House to provide Congress 30 days' notice of any intent to fire a Senate-confirmed inspector general. American Oversight seeks records with the potential to shed light on these actions. Requested Records (EPA-OIG-25-0194) American Oversight requests that your agency produce the following records within twenty business days: All records reflecting communications (including emails, email attachments, text messages, messages on messaging platforms (such as Signal, Slack, GChat or Google Hangouts, Lync, Skype, or WhatsApp), telephone call logs, calendar invitations, calendar entries, meeting notices, meeting agendas, informational material, draft legislation, talking points, any handwritten or electronic notes taken during any oral communications, summaries of any oral communications, or other materials) between (a) the agency officials listed below, and (b) anyone in the White House Office (including email address communications with email addresses ending in @who.eop.gov and phone logs reflecting calls with numbers beginning (202) 456-xxxx), and (c) containing any of the key terms listed below. Agency Officials 1. James Payne, Acting Administrator 2. Chad McIntosh, Associate Deputy Administrator 3. Eric Amidon, Chief of Staff 4. John Rich, White House Liaison Key Terms a. "inspector general" b. "Inspectors general" c. "notice requirement" d. IG e. OIG f. Investigation g. Investigate h. Massacre i. Removal j. Terminate k. Dismiss l. Fire m. "Non-duty status" n. | 2025-EPA-03170 | Montgomery, Emily | EBI Consulting, Inc. | Hi, EBI Consulting, Inc. (EBI) is preparing a Phase I Environmental Site Assessment (ESA) for the property located at 17050 Arnold Drive, Riverside, CA. The site is a skilled nursing facility located within the boundaries of the March Air Force Base NPL boundaries. I'm trying to determine the hazards that are posed to my Subject Property, in regards to the Ph. I. As part of the research process for the ESA, EBI is requesting information/documentation related to the current status of the NPL site, including: * What is the current status of the NPL site clean-up for areas located west of the AFB? o From what I can tell, my Subject Property is located within OU-2 (west of the AFB). * I have a 2012 Plume Map that shows the confines of the plumes on the east site of MAFB. Can you confirm the 2012 Plume Map is the latest updated plume map? * I see that as of October 2023, the 5th Five Year Review is being conducted. o Has this review been completed? o Can you provide a copy or a link of where I can find one? * Do you have any reports that have determined groundwater flow and depth to groundwater? Any help you can provide me on this is greatly appreciated. (Date Range for Record Search: From 11/01/1989 To 01/28/2025) | 01/28/2025 |

Fieldnotes seeks the above listed records for noncommercial use as a representative of the news media. Fieldnotes qualifies as a news media organization under the definition provided by Congress in the OPEN Government Act because it "gathers information of potential interest to a large segment of the public, and uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience." Specifically, Fieldnotes is seeking this FOIArequest because the information in it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements,social media networks such as Facebook, and Twitter. In addition, Fieldnotes reaches out to many traditional news media outlets that regularly broadcast our publications through television, radio,print and electronic articles and interviews. Fieldnotes plans to compile the information from this request into a distinct, original work that will be released to the public through the publications listed above. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. | 2025-EPA-03165 | Winn, Emily | - | My name is Emily Winn, and I am working on a research project at Stanford's School of Engineering in the Water and Energy Efficiency for the Environment Lab. Currently I am studying compatibility of regions in the U.S. for Class I deep well injection (hazardous and non-hazardous) to build a database on alternative water sources across the continental United States. Our primary goal is to identify sub-state level data that provides greater resolution than the state-level inventory available through the EPA's UIC Well Inventory. While the inventory gives an excellent starting point, it does not provide the level of detail required to assess geological compatibility at a more granular level. I'm hoping you might be able to assist or point me in the direction of someone within the EPA who could help. Specifically, I'm looking for: • Data or resources detailing the locations of Class I wells at a sub-state level. • Any available geospatial data or maps that indicate geological suitability for deep well injection. • Recommendations for additional resources or contacts who might have access to this information. This information is critical for understanding regional geological compatibility and would significantly enhance the accuracy of our analysis. If there is a specific process to access more detailed datasets or if I need to submit a formal request, please let me know. I truly appreciate any guidance or assistance you can provide on this matter. Thank you in advance for your time and support, and I look forward to hearing from you. | 2025-EPA-03254 | Brown, Ann | Center for Biological Diversity | As background, as of January 20, 2025, the U.S. Environmental Protection Agency ("EPA" was administering several Greenhouse Gas Reduction Fund programs, including the "National Clean Investment Fund," "Solar for All," the "Clean Communities Investment Accelerator," the "Environmental and Climate Justice Community Change Grants program," the "Environmental Justice Thriving Communities Grantmaking Program," and "Environmental Justice Collaborative Problem-Solving Cooperative Agreement Program." On January 20, 2025, President Trump issued an Executive Order ("EO") requiring agencies, "to the maximum extent allowed by law," to terminate all equity-related programs. On January, 27, 2025, the Office of Management and Budget issued a Memorandum ("Memorandum") prohibiting agencies from continuing to fund certain activities, including those related to "the green new deal." A subsequently issued spreadsheet suggests the Greenhouse Gas Reduction Fund is such a covered activity, but the Memorandum was subsequently rescinded. Specifically, the Center requests from EPA from January 20, 2025 to the date EPA conducts this search, the records, including communications with non-federal employees*, created or obtained by EPA that discuss either: 1. The extent to which the aforementioned programs listed above are implicated by the January 20, 2025 EO or January 27, 2025 Memorandum; and/or 2. How these programs will proceed in light of the EO and Memorandum. *Please note: The Center requests that EPA start its search with the Office of the Administrator, Office of the Greenhouse Gas Reduction Fund (OGGRF), General Counsel, and Inspector General. For this request, the term "records" refers to documents, correspondence (including inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails including attachments, letters, notes, recordings, telephone records, telephone notes, telephone logs, text messages, chat messages, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form. | 02/03/2025 |

| 2025-EPA-03256 | Copley, Michael | - | Under the federal Freedom of Information Act, 5 U.S.C. § 552 (the "FOIA"), I request as a reporter for National Public Radio, Inc. (NPR) that EPA make available to me for inspection and copying letters and any other communication that EPA sent to grant recipients under the Solar for All program notifying them of a pause in funding. As you know, the FOIA provides that if portions of a document are exempt from release, the remainder must be segregated and disclosed. Therefore, please send me all non-exempt portions of the records I have requested and justify any deletions by reference to specific exemptions of the FOIA. I reserve the right to appeal your decision to withhold any materials. Since some of the documents listed above may be more readily available than others, please provide the documents that are available as soon as possible without waiting to provide access to all the documents. I submit this request in my capacity as a journalist, and this information is time-sensitive. Accordingly, I would appreciate your communicating with me by telephone or email (b) (6) or mcopley@npr.org) rather than by mail, if you have any questions regarding this request. I look forward to receiving your reply within twenty (20) business days, as required by federal law. Thank you for your anticipated cooperation with this FOIA request. | 2025-EPA-03281 | Guerrini, Stanton | - | FOIA Request – Dalzell (Bureau County, IL 61320) EPA Loan & Petition Suppression Date: February 3, 2025 To: U.S. Environmental Protection Agency (EPA) FOIA O?ce Dear FOIA O?cer, Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I request access to records related to the $7.5 million EPA loan awarded to the Village of Dalzell (Bureau County, IL 61320) under Ordinance No. 0-01-24-05-08 for water infrastructure improvements. Specifically, I request: 1? Loan Approval & Justification 1. A copy of the full loan agreement between the EPA and the Village of Dalzell. 2. Any applications, reports, or justifications submitted by the Village of Dalzell to the EPA to secure the loan. 3. Any documents stating whether this loan is forgivable or if there are conditions for repayment. 4. Any environmental studies or reports submitted by Dalzell claiming water quality or infrastructure deficiencies. 5. Any communications between the EPA and Dalzell regarding the necessity of this project. 2? Financial Use & Contractor Payments 6. A breakdown of how the $7.5 million has been allocated or spent. 7. A list of all contractors and subcontractors paid with these funds. 8. Any bidding records or competitive selection processes used for hiring contractors. 9. Any financial audits or compliance reports related to this loan. 3? Petition Suppression & Public Opposition 10. A copy of any correspondence, records, or discussions between the EPA and Dalzell regarding public approval or opposition to this loan. 11. A copy of any petitions submitted by Dalzell residents regarding the loan and EPA funding. 12. A copy of any internal EPA communications regarding a challenge or public objection to this loan. 13. Any records indicating whether Dalzell informed the EPA that a valid petition was submitted but rejected on a technicality. 14. Any documentation showing whether the EPA was notified that the Village Clerk delayed providing the petition to a resident, limiting the time available to gather signatures. 15. Any communications between the Village of Dalzell, Matt Hansen of Willett Hofmann & Associates, and the EPA regarding the petition process, including any instructions given to residents about collecting signatures. ? Clarification: It has been confirmed that Matt Hansen did NOT instruct residents to delay gathering signatures. If any documentation exists stating otherwise, I request a full copy for review. 16. Any internal EPA discussions regarding the legitimacy of the petition rejection, including concerns raised about denying it by one day. ? Additional Note to the EPA: I have direct evidence that contradicts what the Village of Dalzell claims about the petition process. If the EPA requires further proof, I am willing to provide supporting documentation. Justice61320 (Date Range for Record Search: From 01/02/2024 To 02/04/2025) | 02/04/2025 |

To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. The terms "pertaining to", "referring", "relating", or "concerning" with respect to any given subject means anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with, or is in any manner whatsoever pertinent to that subject. The term "record" means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (emails), MMS or SMS text messages, instant messages, messaging systems (such as IRC, WebIRC, Rocketchat, Signal, iMessage, Microsoft Teams, WhatsApp, Telegram, Signal, Google Chat, Twitter direct messages, Lync, Slack, and Facebook Messenger), contracts, cables, telexes, notations of any type of conversation, telephone call, voicemail, meeting or other communication. Please comply fully with 5 U.S.C. § 552(b). Please limit all searches to the timeframe of 1 January, 2024 to the present. Search Instructions: For potentially responsive documents, please include the full communications/email chain, and all attachments. Please search all email inboxes assigned/issued/used by the custodian, regardless of classification. | 02/05/2025 |

| 2025-EPA-03416 | Smith, Michelle | AP | I am a reporter for The Associated Press. I am requesting the following records under FOIA: For the period beginning Jan. 20, 2025 to the date this request is fulfilled: Any and all records of communications to or from Gautier Cole Killian, aka Cole Killian. This request includes all communications sent to, from, CC'ed or BCC'd to or from Killian.Cole@epa.gov or any other email address Mr. Killian used to conduct government business, as well as any records attached to those emails. This also includes any communications Mr. Killian sent or received through text, the Signal messaging app or any other messaging app, Slack, X, voicemail, phone recording, memorandum, letters, transcripts, notes, meeting minutes or other communications through any platform, regardless of format. The AP is seeking only information releasable under FOIA. I ask that you provide these records in an electronic, searchable format, and by email if possible. If it will accelerate release of responsive records, please also provide responsive material on a rolling basis. Because I am making this request as a member of the media for the sole purpose of informing the public about important aspects of the government and how it functions, I ask that you waive any and all fees associated with this request. My justification for the waiver is as follows: 1) The subject of the request is a a federal detailee at the Environmental Protection Agency, and I am requesting communication related to the person's government duties both at EPA and DOGE. 2) The disclosure of these records is likely to contribute to public understanding of the operations and activities of EPA, DOGE and possibly other government agencies and offices. This information is not currently published or otherwise available except through a FOIA request. 3) The disclosure of the requested information to me as a member of the news media will benefit the American public at large. 4) The disclosure of the information will contribute significantly to the public's understanding of the operations and activities of the government given that this information is not currently known. 5) This is a non-commercial request made as a member of the media for the sole purpose of | 02/06/2025 |

| | | | informing the public. 6) My sole interest in requesting this information is to inform the public about the workings of government. If my fee waiver is denied, I ask that you notify me in advance if the fees are to exceed $50. In making this request, I ask for expedited treatment because it involves a matter of urgent public concern related to the actions of a federal detailee at the Environmental Protection Agency who has been entrusted with highly sensitive government information, including data from the Treasury Department and federal employees' personal data. Mr. Killian is on a team of engineers that has reportedly been given "unprecedented access" to this information, and is reportedly among a group that have been given "critical roles" at the Department of Government Efficiency or DOGE. People working at DOGE have been taking sweeping action to terminate contracts, gain access to classified information and take other steps, some of which may be irreversible or which could potentially pose a threat to the safety or life of certain government employees. Disclosure of the requested information is likely to shed significant light . . . The description has exceeded the character limit. | |
| 2025-EPA-03371 | Carmouche, Cole | - | Dear FOIA Officer, Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, I request access to the following records from EPA Region 9 related to the 2017 interpretation of "point of generation" under the Resource Conservation and Recovery Act (RCRA) as applied to offshore oil rigs: 1) Internal agency communications, emails, and memos from EPA Region 9 regarding the implementation or enforcement of the 2017 EPA interpretation that hazardous waste is generated on offshore rigs rather than onshore transfer facilities. 2) Records of administrative enforcement actions (e.g., notices of violation, compliance orders, penalties) issued by Region 9 against offshore oil operators for RCRA violations related to hazardous waste determination, storage, or disposal. 3) Settlement agreements, consent decrees, or administrative resolutions between EPA Region 9 and offshore oil companies regarding RCRA compliance issues stemming from the 2017 interpretation of "point of generation." Guidance documents, policy memoranda, or legal analyses produced by EPA Region 9 that discuss the regulatory impact of the 2017 "point of generation" interpretation for offshore hazardous waste management. 4) Any petitions, challenges, or industry correspondence received by EPA Region 9 from offshore operators seeking to modify or oppose the application of the 2017 rule. I request records from January 1, 2017, to the present. If these records exist in electronic format, I prefer to receive them digitally via email or an online portal. If any portion of this request is denied, please cite the specific exemption(s) under FOIA and provide the segregable portions of documents that are not exempt. If any fees exceed $100, please notify me before processing. Thank you for your time, and I look forward to your response within 20 business days, as required under FOIA. | 2025-EPA-03403 | Edmondson, Jack | Ekotrope, Inc. | I would like to request a .csv OR excel file that shows the state-by-state breakdown, by month (if possible), of national ENERGY STAR submissions to the EPA's ENERGY STAR registry for new residential construction, broken down by the agency which accredited the ENERGY STAR certification. Specifically, I am looking for the breakdown by agency like RESNET, Building Science Institute, etc.. If breaking it down by month is not feasible, a breakdown by state for the entire date range requested (Jan 1 2024 to Jan 31 2025 inclusive) would also be acceptable. If any further breakdown such as type of certification, like version (e.g. USv3.2, USMFv1.1, etc.), exists, that would also be helpful, but it would not be required for this. Thank you! | 2025-EPA-03267 | Jagirapu, Haasika | - | I am conducting a research project on the environmental impact of cruise ships, specifically how their waste disposal practices contribute to the spread of diseases such as Hepatitis. My focus is on how cruise lines manage sewage, graywater, and other waste, and whether their disposal methods pose risks to marine ecosystems and public health. Additionally, I am investigating the carbon emissions of various cruise ships from the 1970s to the present, examining trends in pollution, regulatory compliance, and environmental responsibility. To support my research, I am requesting detailed data on cruise ship waste management practices, discharge locations, water quality compliance reports, and any studies related to disease transmission linked to oceanic waste disposal. Access to this information will help assess the effectiveness of current regulations and identify areas for improvement in industry sustainability practices. | 2025-EPA-03414 | Hwang, Taewon | - | My name is Taewon Hwang, and I am a PhD student in Economics at Texas A&M University. I am writing to formally request data from the Environmental Protection Agency (EPA) under the Freedom of Information Act (FOIA) to support my doctoral research. Specifically, I request access to and copies of data on Clean Water Act grants from the EPA's Grants Information and Control System (GICS). I seek the same dataset previously provided to Dr. David A. Keiser and Dr. Joseph S. Shapiro, as well as Dr. Patrick Flynn and Tucker Smith, for research purposes. The requested dataset includes, but is not limited to, the following information: • Details on all Clean Water Act grants awarded to wastewater treatment plants, including the name of the recipient treatment plant and the overseeing government authority (city, county, state, or special district). • Grant identifier codes. • Grant award dates. • Grant amounts. • Total project costs (including federal and local capital expenditures). • Any grants awarded under predecessor laws to the Clean Water Act (1957–1971). • Any other relevant details on the disbursement and designation of funds. Since this dataset has already been compiled and provided to the aforementioned researchers, I expect that minimal work should be required to fulfill this request. If the data is available in electronic format, I prefer to receive it in that manner (e.g., as a CSV, Excel file, or other machine-readable format). | 02/10/2025 |

| 2025-EPA-03469 | Turse, Nick | Type Media Center | Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request digital copies of your webpages taken down, removed, and/or deleted since January 20, 2025. I specifically request that you include so-called "non-responsive" material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C.Cir. 2016) which found that FOIA "does not provide for . . . redacting non-exempt information within responsive records." As declared by the court, "once an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record—i.e., as a unit—except insofar as the agency may redact information falling within a statutory exemption." As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Please notify me by email prior to your incurring any expenses in excess of $ .01. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a member of the news media and this information is of timely value, I would appreciate your communicating with me by email, rather than by mail, if you have questions regarding this request. Please do not close this request, for any reason, unless I explicitly request it in writing. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. Regards, | 02/11/2025 |

All appointment memoranda and removal memoranda appointing or removing individuals to or from positions within the agency issued or signed from January 20, 2025, until the date of the search. Any document compiling or reflecting the incoming personnel actions to be taken by the incoming Trump Administration upon assumption of office, such as a list or spreadsheet designating individuals for appointment, assignment, removal, or demotion. Please include documents that were created or came into the agency's possession from November 7, 2024 until the date of the search. DFF recognizes that the above request seeks personnel records; however, most privacy interests implicated by this narrow subset of records are significantly outweighed by the public interest in disclosure. First, the requested information would inform the public about who the new administration has put in positions of power to lead vital government agencies in its first days in office. Second, there is a substantial public interest in understanding the Trump Administration's actions in seeking to remove civil service | 02/11/2025 |

Consequently, DFF expects that your agency will produce the requested records with few or no exemption claims, though DFF would not object to the redaction of sensitive personal information like social security numbers or dates of birth. | 2025-EPA-03537 | Horn, Caleb | EnSafe Inc. | I am requesting sample analysis data from EPA soil screenings from residential properties in Fredericktown, Missouri as part of the NPL Superfund Site Madison County Mines. The attached document "NPL Site Narrative for Madison County Mines" describes sampling performed by EPA at 842 residential properties in Fredericktown. I am working on a project within Fredericktown and this data would help to establish background levels of metals in the area. The document details that projects have been ongoing since 1983, but I am not sure if the 842 properties were all sampled during the same project or if this is a cumulative number throughout all projects. If the analysis of this soil screening is available in PDF, or if there are documents such as distribution maps or summary tables describing this data that would be a great place to start. Please contact me at chorn@ensafe.com to discuss any necessary associated fees before any work begins. I am not sure what to put for the fee information section. | 2025-EPA-03532 | Glover, Joseph | George Washington University | U.S. Environmental Protection Agency Freedom of Information Officer 1200 Pennsylvania Avenue, NW (2310A) Washington, DC 20460 Dear FOIA Officer, Under the Freedom of Information Act, 5 U.S.C. § 552, I am requesting access to records related to a Superfund site in Frederick, Maryland (NPL Site ID: 0304606, EPA ID: MDD985397249). Specifically, I seek records from the past five years (December 2020 to February 2025) regarding the following Superfund Environmental Indicators from the Office of Superfund Remediation and Technology Innovation (OSRTI): 1. Documents regarding Site-Wide Human Exposure Superfund Environmental Indicators, including but not limited to: • Human Health Risk Assessments • Remedial Investigation/Feasibility Study (RI/FS) reports • Removal Action Memoranda • Site Assessment Reports • Site Investigation reports (Federal Facility (FF) sites) • Expanded Site Investigations (FF sites) 2. Documents regarding Site Status for the Migration of Contaminated Groundwater Environmental Indicators, including but not limited to: • Documents detailing contamination levels in groundwater related to human health and ecological risk • Existing data on the extent of contaminated groundwater • Hydrologic information on groundwater migration or discharge into surface water If any of the requested documents are wholly or partially inconclusive, I also request access to them. If there are any fees associated with processing this request, please inform me in advance of any charges. However, I respectfully request a waiver of all fees, as disclosing this information is in the public interest. The records will contribute to public knowledge and significantly help the public understand the EPA's efforts to ensure environmental safety in Frederick, MD. If any portion of this request is unclear or overly broad, I am happy to discuss modifications to facilitate processing. I appreciate your attention to this request and look forward to your response. | 2025-EPA-03538 | Marchman, Tim | N/A | To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Copies of all emails, including attachments, sent and received by Gautier Cole Killian from his onboarding through the time this request is processed. His email address should be killian.gautier@epa.gov or killian.cole@epa.gov. Expedited Processing Request Pursuant to 5 U.S.C. § 552(a)(6)(E) and applicable regulations (e.g., 5 C.F.R. § 1303.10(d)), I request expedited processing on the grounds that there is an urgency to inform the public about potential federal government activity that could significantly affect technology policy and governance. The records requested have far-reaching implications for data privacy, employee retention, and litigation exposure. Delayed disclosure of these records would compromise the public’s timely understanding of critical government functioning. As a journalist actively reporting on government technology policies and the so-called Department of Government Efficiency, I have a compelling need for expedited access to this information. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. | 2025-EPA-03563 | Yu, Stephanie | - | Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq., Conservation Law Foundation ("CLF") hereby requests the records described below pertaining to the response to CLF's FOIA request No. 2019-EPA-08945 f/k/a 2019-EPA-07257, originally submitted by Ian Coghill, CLF, to the U.S. EPA, Region 1 on July 11, 2019. EPA responded to that request on September 17, 2019, with a 40 C.F.R. 2.204(d)(1) initial denial in order to conduct a further inquiry with third parties regarding confidential business information ("CBI"). EPA responded on January 7, 2025, stating that "the third parties have claimed portions, and in some cases in entirety, records that constitute CBI and have submitted a substantiation of that claim in response to EPA's request. The response also indicated that "[i]n addition, we are withholding, in part, and in some cases in entirety, certain information." This FOIA request seeks the communications between the agency and third parties regarding the determination of confidentiality and applicability of FOIA Exemption 4. CLF requests: 1. All communications between EPA and private entities and/or their representatives regarding the confidentiality determinations as to documents responsive to FOIA Request 2019-EPA-08945 f/k/a 2019-EPA-07257 for the Shell Oil Products US d/b/a/ Equilon Enterprises LLC Terminal. 2. All communications between EPA and any private entities and/or their representatives regarding the confidentiality determinations as to documents responsive to FOIA Request 2019-EPA-08945 f/k/a 2019-EPA-07257 for the Gateway Terminals, Gulf Oil Limited Partnership New Haven Terminal, and Magellan Midstream Partners, LP New Haven Terminals. | 02/13/2025 |

February 13, 2025 FREEDOM OF INFORMATION ACT REQUEST FOIA Officer U.S. Environmental Protection Agency 1200 Pennsylvania Avenue, NW (2822T) Washington, DC 20460 hq.foia@epa.gov Subject: Freedom of Information Act Request for E15 Location Information Dear FOIA Officer, On behalf of Growth Energy, a trade association of domestic ethanol producers, I submit this request under the Freedom of Information Act for the following records: Every record relating to the locations of retail fueling stations that offer or sell E15, a gasoline fuel blend containing 11-15 percent ethanol, collected by EPA through the RFG Survey Association to ensure compliance with the EPA's Fuel Regulation Rule, 40 CFR § 1090.1400. Please provide responsive records on a site-by-site basis. In addition, please produce responsive records in their original format where possible, provided, however, if the records are available in electronic format, please provide them in a machine-readable format such as CSV, Excel, or another structured data format that maintains the integrity of the dataset. If EPA needs to consult with any other agency to process this request, please do not delay production of responsive records that are not the subject of that consultation. We are willing to pay up to $500 in fees. Please inform me if you anticipate the possibility of excess charges so that I may decide whether to agree to those charges. The request furthers the commercial interests of Growth Energy's members. I would appreciate your acknowledgment of this request as soon as possible, along with an estimated timeline for fulfillment. If clarification is needed, please contact me at CBliley@GrowthEnergy.org. Thank you for your time and consideration. Sincerely, Chris Bliley SVP of Regulatory Affairs Growth Energy (Date Range for Record Search: From 01/01/2022 To 02/13/2025) | 02/13/2025 |
| 2025-EPA-03567 | Aguilar Rosenthal, Antonia | The Revolving Door Project | Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and your agency's implementing regulations, the Revolving Door Project makes the following request for records. The records requested herein may reside in multiple components or offices within your agency. We ask that you coordinate this request across your agency in your role as the agency's FOIA contact. We request that responsive records return all non-governmental entities that have participated in ongoing disaster recovery work between January 7, 2025 and the date on which this request is fulfilled. To ensure that this request is properly construed, that searches are conducted in an adequate but efficient manner, and that extraneous costs are not incurred, the Revolving Door Project welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, the Revolving Door Project hopes to decrease the likelihood of costly and time-consuming litigation in the future. Where possible, please provide responsive material in electronic format by email or in PDF or TIF format on a USB drive. Please send any responsive material being sent by mail to the Revolving Door Project, 5418 DTC Parkway, Greenwood Village, CO 80111. If it will accelerate release of responsive records to the Revolving Door Project, please also provide responsive material on a rolling basis. | 2025-EPA-03633 | Bogardus, Kevin | E&E News | I request the quarterly workforce and staffing plan for the fiscal year 2025 first quarter, or FY 2025 Q1, which should be the latest quarter that ended on Jan. 1, 2025, described in the following excerpt from House Report 118-155: "The Agency is directed to follow all guidance in House Report 117–83 under the headings titled 'Reprogramming', 'Congressional Budget Justification', 'Operating Plan', and 'Workforce and Staff- ing Plans'." Please see page 57 of House Report 118-155 (https://www.congress.gov/118/crpt/hrpt155/CRPT-118hrpt155.pdf). House Report 117-83 states, "Workforce and Staffing Plans.—The explanatory statement ac- companying the fiscal year 2021 appropriations included directions for the Agency to develop workforce and staffing plans to achieve the Agency's FTE targets in fiscal year 2021. For fiscal year 2022, the Committee expects the Agency to submit as part of its oper- ating plan, staffing targets by National Program Management area, with separate staffing targets for headquarters and each re- gional office within each Program, in line with the Agency's en- acted appropriation. The Committee expects the Agency to continue to develop workforce and staffing plans to achieve the staffing tar- gets submitted with the operating plan, and directs the Agency to submit its fiscal year 2022 workforce and staffing plans to the Committee not more than 45 days after the submission of the Agency's operating plan. Further, not later than 45 days after the end of each quarter, the Agency shall submit data on the number of FTE employed by the Agency in the same format as the fiscal year 2022 FTE target data was submitted. The Committee expects quarterly briefings on the Agency's progress in achieving its staff- ing targets." (please see page 77 of https://www.congress.gov/117/crpt/hrpt83/CRPT-117hrpt83.pdf) The joint explanatory statement of Division E of the Consolidated Appropriations Act, 2024, Public Law No: 118-42, states "the language set forth in House Report 118-155 and Senate Report 118-83 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement." (please see page 1 of https://docs.house.gov/billsthisweek/20240304/FY24%20INT%20Conference%20JES%20scan%203.1.24.pdf). | 2025-EPA-03634 | Bogardus, Kevin | E&E News | I request the workforce plan submitted not later than 45 days after the end of the quarter for the fiscal year 2025 first quarter, or FY2025 Q1, which should be the latest quarter that ended on Jan. 1, 2025, as described in the following excerpt from Senate Report 118-83: "Workforce.—EPA staff include scientists, engineers, analysts, community coordinators, and program managers who help protect public health and the environment in communities across the coun- try. EPA staff numbers remain more than 2,000 below historic lev- els despite the growing workload to support clean air, clean water, and a stable climate. The Committee expects the Agency to submit as part of its operating plan, staffing targets by National Program Management area, in line with the Agency's enacted appropriation. The Committee expects the Agency to continue to develop work- force and staffing plans. Further, not later than 45 days after the end of each quarter, the Agency shall submit data on the number of full time equivalent employees employed by the Agency in the same format as the fiscal year 2020 employment target data was submitted." Please see page 81 of Senate Report 118-83 (https://www.congress.gov/118/crpt/srpt83/CRPT-118srpt83.pdf). | 2025-EPA-03049 | Perryman, Skye | Democracy Forward Foundation | Democracy Forward Foundation ("DFF") requests that your agency produce the following within twenty (20) business days: All SF-52 Requests for Personnel Action which were issued, sent, or signed from January 20, 2025 to January 24, 2025. DFF expects that this request for readily identifiable form documents issued over the course of a short period of time can be assigned to the Simple processing track and produced expeditiously, in addition to receiving expedited processing. DFF recognizes that the above request seeks personnel records, however most privacy interests implicated by this narrow subset of records are significantly outweighed by the public interest in disclosure. First, the requested information would inform the public about who the incoming administration has put in positions of power to lead vital government agencies in its first days in office. Second, there is a substantial public interest in understanding the Trump Administration's actions in seeking to remove civil service protections from career civil servants, and the responsive records will indicate the extent to which the administration has initially taken–or not taken–personnel actions affecting career civil servants. Consequently, DFF expects that your agency will produce the requested records with few or no exemption claims, though DFF would not object to the redaction of sensitive personal information like social security numbers or dates of birth. Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following from the Environmental Protection Agency ('EPA'): From the timeframe of January 1, 2001 through January 31, 2022, excluding four months not requested: August 2009, June 2012, November 2017, and December 2018. [Each original FOIA request sought one month each in consecutive order] All of the following records: Copies of all document productions made during the month (interim or final document productions) in response to legal cases ('litigation'), irregardless of litigation type (FOIA, regulatory, personal injury, etc). Search Instructions: Please conduct a thorough search of all components known to hold litigation productions, however, broadly, please search the Office of General Counsel. I am amicable to a rolling production as records are available. I request all responsive documents be delivered electronically, via email. To further narrow down the scope of the request, requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread. Please comply fully with 5 U.S.C. § 552(b). Please limit all searches to the ttimeframe of January 1, 2001 through January 31, 2022, excluding four months not requested: August 2009, June 2012, November 2017, and December 2018. | 02/19/2025 |

| 2025-EPA-03446 | May, Beatrice | - | To Whom It May Concern: My name is Beatrice May and I am writing to request records I believe are public. Specifically, I would like to request the EPA memo cited in this February 5, 2025 Politico article. According to the article, the memo "directed agency officials to allow the disbursement of funds from at least some programs under the bipartisan infrastructure law and Inflation Reduction Act." According to press reports, the memo was also cited in a temporary restraining order issued by US District Judge Loren AliKhan. I understand there may be a cost associated with this request. Please contact me with a price estimate when it becomes available. Additionally, I would prefer to receive responsive records electronically if possible. | 2025-EPA-03493 | Wu, Jerry | - | To Whom It May Concern: Pursuant to the Freedom of Information Act., I hereby request the following records: Any and all records, including reports, memos, emails, email attachments, investigative documents, intelligence documents, descriptions of chemical compounds, air and water monitoring documents, photos, studies and any other records that relate to the EPA's 2015 investigation into the Pan Am Railways violating the Clean Water Act at two of its rail yards operating in Waterville, Maine, and East Deerfield, Mass. I am a national security reporter for the Medill News Service. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filed electronically, by email attachment if available Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Best regards, Jerry Wu | 02/19/2025 |
| 2025-EPA-03581 | Norris, Davon | - | Dear EPA FOIA team, I am requesting project level data for every loan made through both the Clean Water (CWSRF) and Drinking Water (DWSRF) State Revolving Funds since program inception to present. Specifically, I am requesting a spreadsheet file where each row corresponds to a loan funded through the CWSRF and DWSRF, rather than aggregated summaries. This would include all available information on the projects and associated loans and effectively be all the information currently presented in the EPA's SRF Project Map (https://sdwis.epa.gov/ords/sfdw_pub/r/sfdw/owsrf_public/srf-map) but for all years the two programs have been in operation. I also want to note that my request is similar to several previous requests (2023-OW-05525 and EPA-HQ2019- 006779). The key distinction being that I would like all available information for both Clean Water and Drinking Water revolving funds. If my request does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved, or generated. If it is necessary to modify my request and a phone call is preferred, I can be reached at (b) (6) [redacted]. Additionally, if there is an associated cost for retrieving and compiling these data, please let me know how much and how to send payment. I would prefer these data be sent in electronic form to Davon Norris, dnnorris@umich.edu. Thank you for your assistance. I appreciate your help. | 2025-EPA-03593 | Middendorp, Steven | - | Dear FOIA Officer, Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I, Steven Middendorp, Independent Journalist, hereby request access to the following records held by the U.S. Environmental Protection Agency (EPA) related to the East Palestine, Ohio, train derailment on February 3, 2023: All EPA-generated testing data, including but not limited to raw results, sampling locations, dates, methodologies, detection limits, and quality assurance/quality control documentation, for air, soil, water, and indoor samples collected in response to the derailment. This request covers the period from February 3, 2023, to February 19, 2025, and includes all data related to dioxins, vinyl chloride, phosgene, and other hazardous substances identified at the site. All correspondence, internal memoranda, or notes discussing, evaluating, or rejecting independent testing data submitted by Scott Smith, an independent scientist, regarding the derailment's environmental impact, including any comparisons to EPA-collected data. This request is made in the public interest to ensure transparency and accountability regarding the EPA's response to the East Palestine disaster. Residents continue to report health concerns potentially linked to chemical exposure, and whistleblower Scott Smith, alongside the Government Accountability Project (GAP), has alleged that the EPA has suppressed or ignored evidence of elevated dioxin levels. GAP's prior FOIA efforts (e.g., September 2023 lawsuit) and Smith's discovery of buried Arcadis data (February 2024) suggest the EPA possesses unreleased testing results that contradict public assurances of safety. Full disclosure of this data is critical to validating or refuting these claims, informing affected communities, and upholding public trust. To facilitate processing, I request that responsive records be provided in electronic format (e.g., PDF or Excel) via email to (b) (6) Should you require further explanation regarding my fee waiver eligibility, please contact me. If fees cannot be waived, I am willing to pay up to $25 but request advance notification if costs exceed this amount. Please contact me at (b) (6) with any questions or to discuss narrowing the scope if needed. If portions of this request are denied, please provide a detailed explanation, including the specific exemptions applied, per 5 U.S.C. § 552(b). Thank you for your attention to this request. I look forward to your response within the statutory 20 working days. Specifically, I seek information regarding: 1. Any EPA-supervised environmental cleanup efforts linked to former military installations, research facilities, or weapons storage sites active between 1945 and 1991. 2. Records of Superfund sites, hazardous waste storage, or chemical contamination at locations previously used for military or defense-related operations. 3. Information on radioactive materials, chemical weapons, or other hazardous substances that required remediation. 4. Reports on underground storage tanks, chemical spills, or hazardous materials disposal at sites linked to Cold War military activity. 5. Any EPA correspondence with the Department of Defense or Army Corps of Engineers related to environmental contamination in this region. If any portions of the requested records are exempt from disclosure, please provide the non-exempt portions. I request that, if possible, the documents be provided in electronic format (PDFs via email or digital download). As this request is made in the interest of historical research and public knowledge, I respectfully request a waiver of any applicable fees. However, please inform me if the estimated cost exceeds $25 before processing. Thank you for your time and assistance. I look forward to your response. | 2025-EPA-04064 | Hunt, Abigail | Southern Environmental Law Center | Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 and 40 C.F.R. §§ 2.100-2.108, the Southern Environmental Law Center ("SELC") respectfully requests copies of all records and communications in the possession or control of the Environmental Protection Agency ("EPA") on or after January 20, 2025: 1. Copies of any reports submitted to the Office of Management and Budget ("OMB") assessing the EPA's "enforcement discretion of authorities and regulations" as referenced in Executive Order 14154, "Unleashing American Energy." See 90 Fed. Reg. 8353, 8357 (Jan. 29, 2025) ("Executive Order 14154"). For the purposes of this request, the term "records" includes all written, printed, recorded, or electronic materials, communications, correspondence, calendar invitations, memoranda, notes, copies, diagrams, charts, books, papers, maps, photographs, data, tables, spreadsheets, formulas, directives, observations, impressions, contracts, letters, messages, and mail in the possession, custody, or control of EPA. The term "communications" includes any written or oral communication of all kinds including, but not limited to, letters, e-mails, attachments to letters or e-mails, text messages, electronic messages including, but not limited to, social media postings, Microsoft Teams messages, faxes, exchanges of written or recorded information, reports, memoranda, face to face meetings, presentations, seminars, workshops, and telephone conversations. We request access to each and every version of a record or communication, whether it is a draft, has been electronically deleted, has attachments, bears annotations, etc. Please include all responsive materials generated up to the date of the agency's search in response to this request. If you take the position that any of the above-described public records or portions thereof are not open to public inspection under FOIA, please explain the basis for your position and justify any withholdings or redactions by reference to specific FOIA exemptions, identifying any reasonably foreseeable harm that would be caused by disclosure of each document withheld with specific supporting facts. To reduce the administrative burden on the Department and minimize costs of printing and copying, we request that the requested materials be produced electronically if possible. Please provide any electronic records in native file format. Please ensure that electronic files preserve all associated "metadata" such as tracked edits, spreadsheet formulas, document title or description, authorship, date of creation or edits, "tags," or filename and path. Electronic documents may be produced on external hard drives, external USB "thumb drives" or "flash drives," or by other means compatible with commonly available technology. We are happy to arrange transmission of documents over web-based document sharing services such as Sharefile. | 2025-EPA-04108 | May, Beatrice | - | I am writing to request information I believe is public. The Executive Order (EO), "Unleashing American Energy," includes a directive to: "Review all existing regulations, orders, guidance documents, policies, settlements, consent orders, and any other agency actions (collectively, agency actions) to identify those agency actions that impose an undue burden on the identification, development, or use of domestic energy resources — with particular attention to oil, natural gas, coal, hydropower, biofuels, critical mineral, and nuclear energy resources — or that are otherwise inconsistent with the policy set forth in section 2 of this order, including restrictions on consumer choice of vehicles and appliances." I would like to request a copy of that review in full. I am also requesting copies of the following in full: 1)Action Plans: The EO directs for the implementation of "action plans to suspend, revise, or rescind all agency actions identified as unduly burdensome under subsection (a) of this section, as expeditiously as possible and consistent with applicable law." 2) Written Statement: The EO directs "the head of any agency who determines that such agency does not have agency actions described in subsection (a) of this section shall submit to the Director of OMB a written statement to that effect..." 3)Guidance: The EO directs that "within 30 days of the date of this order, the Chairman of the Council on Environmental Quality (CEQ) shall provide guidance on implementing the National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., and propose rescinding CEQ's NEPA regulations found at 40 CFR 1500 et seq." 4)Guidance: The EO says the EPA Administrator "shall issue guidance to address these harmful and detrimental inadequacies, including consideration of eliminating the 'social cost of carbon' calculation from any Federal permitting or regulatory decision." 5) Recommendations: The EO directs the EPA Administrator, "in collaboration with the heads of any other relevant agencies" to "submit joint recommendations to the Director of OMB on the legality and continuing applicability of the Administrator's findings, 'Endangerment and Cause or Contribute Findings for Greenhouse Gases Under Section 202(a) of the Clean Air Act,' Final Rule, 74 FR 66496." 6) Report: The EO directs the agency to "submit a report to the Director of OMB identifying...whether enforcement discretion of authorities and regulations can be utilized to advance the policy outlined in section 2 of this order." 7) Determination: The EO directs the Administrator of MARAD to make a "determination...whether any refinements to the project proposed subsequent to the ROD are likely to result in adverse environmental consequences that substantially differ from those associated with the originally-evaluated project so as to present a seriously different picture of the foreseeable adverse environmental consequences (seriously different consequences)." | 2025-EPA-04101 | Carmouche, Cole | - | Dear EPA Representative, I hope this message finds you well. I am currently conducting research on the EPA's interpretations regarding the "point of generation" under the Resource Conservation and Recovery Act (RCRA), specifically related to hazardous waste generated by offshore oil platforms. I understand that the EPA issued interpretations in 2013 in a Question and Answer format, which were subsequently superseded by a May 2017 memorandum. I kindly request access to these 2013 interpretations, as they are essential for a thorough comparative analysis in my research. If these documents are publicly available, I would greatly appreciate guidance on how to access them. Alternatively, if a formal request through the Freedom of Information Act (FOIA) is required, please advise on the appropriate procedure. Thank you very much for your assistance and guidance. I look forward to your response. Best regards, Cole Carmouche (b) (6) J.D. Candidate, (b) (6) (Date Range for Record Search: From 01/01/2013 To 01/01/2014) | 02/28/2025 |

| 2025-EPA-04165 | Peake, Anthony | - | Updated FOIA Request to EPA Anthony Peake (b) (6) [redacted] Date: [Insert Date] National FOIA Office U.S. Environmental Protection Agency 1200 Pennsylvania Avenue NW (2310A) Washington, DC 20460 Subject: FOIA Request for Documents Related to Camp Lejeune Water Contamination and Radiological Investigations Dear FOIA Officer, Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I respectfully request access to records regarding Camp Lejeune water contamination and the Environmental Protection Agency's (EPA) involvement in monitoring, testing, or addressing contamination issues at the base. Specifically, I seek: 1. EPA reports, studies, and correspondence related to Camp Lejeune water contamination from [insert date range, e.g., 1950-present]. 2. Documents concerning the EPA's findings on toxic substances (e.g., volatile organic compounds (VOCs), benzene, trichloroethylene (TCE), perchloroethylene (PCE)) in Camp Lejeune's water supply. 3. Communications between the EPA and other federal agencies (e.g., Department of Defense (DOD), Agency for Toxic Substances and Disease Registry (ATSDR), and the Navy) concerning contamination. 4. EPA involvement in radiological contamination investigations at Camp Lejeune, including testing and findings related to: Installation Restoration (IR) Sites 19, 20, and 69, where radiological material (e.g., Strontium-90 "beta buttons") was buried or removed. The 2007-2008 investigations into radiological hazards, including documents from the Radiological Affairs Support Office (RASO) and the Navy's Internal Restoration Program. 5. Records related to vapor intrusion concerns at Tarawa Terrace, including: The 2007-2008 investigation into VOC migration from ABC Cleaners. Indoor air quality testing results for Tarawa Terrace Elementary School and base housing. Communications regarding the potential exposure risks for residents and students. 6. EPA analysis and oversight of remediation efforts at Camp Lejeune, including: The effectiveness of groundwater treatment and vapor intrusion mitigation. Remediation studies and reports assessing the safety of drinking water. I request that the search include all records maintained in electronic or hard copy format, including emails, reports, meeting minutes, scientific assessments, and data sets. If any portion of the requested information is exempt from disclosure, please provide the non-exempt portions. If possible, I would appreciate receiving the records in an electronic format (PDF or similar) via email or through an online portal. If there are any fees associated with this request, please inform me before processing. Thank you for your time and assistance. Please confirm receipt of this request and let me know if you require any additional information. | 2025-EPA-04419 | Scacchi, John | Pacific Legal Foundation | Hello, I am requesting the disclosure of all notices of intent to sue submitted to the EPA under three statutes: Clean Air Act, 42 U.S. § 7604; CERCLA, 42 U.S. § 9659; and the Resource Conversation and Recovery Act, 42 U.S. § 6972. I would like records from January 1, 2024, to the present (as of whichever date the Agency collects and/or responds) in an electronic format please. If possible, I would like the information to include the NCS number (if available), the name of the party who submitted the NOI, and the NOI type (i.e., title of the anticipated action). I am requesting an electronic list of such notices of intent, not copies of the notices themselves, similar to what I received for the Clean Water Act on March 5, 2025 (see attached). I am conducting research on citizen suit provisions and how frequently they are used, so expanding my scope beyond the Clean Water Act to these other statutes would be very helpful and valuable. Thank you, and I would be happy to answer any questions related to this request. - Mitchell Scacchi (Date Range for Record Search: From 01/01/2024 To 03/10/2025) | 03/10/2025 |
| 2025-EPA-04422 | May, Beatrice | - | To Whom It May Concern: Under the Freedom of Information Act, I am writing to request the following records: I would like to request the list mentioned in the EPA Memo from February 4, 2025, titled "Inflation Reduction Act and Infrastructure Investment and Jobs Act Funding Action Pause." I would also like to request all documents and communications referencing that or related to that list. The memo was signed by Acting Chief Financial Officer Gregg Treml. Lek Kadeli, Meshell Jones-Peeler, Paige Hanson, OCFO Senior Managers, Vonda Jennette, Greg Luebbering, Senior Resource Officials, Senior Budget Officers, Regional Comptrollers, and Funds Control Officers were CC'd. The memo states, "Consistent with the Order, the agency's financial system will now enable the obligation of financial assistance. This includes programs within the Infrastructure Investment and Jobs Act and the Inflation Reduction Act, including federal financial assistance in the State and Tribal Assistance Grants, Brownfields, and Superfund. The Office of Budget will follow-up with a detailed list. Additionally, the disbursement of funds connected to this notice will continue." Thank you for your cooperation in this request, and please don't hesitate to contact me directly should you have any questions pertaining to it. I look forward to receiving your response within 20 business days, as required by statute. Beatrice May | 03/10/2025 |
| 2025-EPA-04293 | abassi, andre | Society for the Protection of Insects | I am submitting this Freedom of Information Act (FOIA) request to the U.S. Environmental Protection Agency (EPA) for records related to the Innovafeed insect protein farm located in Decatur, Illinois. Specifically, I seek all documents, correspondence, reports, permits, grant applications and awards, environmental assessments, inspections, compliance records, and any other materials in the possession of the EPA pertaining to the construction, operation, and environmental impact of the Innovafeed North American Insect Innovation Center (NAIIC) and its planned large-scale manufacturing facility in Decatur, IL. This request includes, but is not limited to, records related to the facility's use of black soldier flies (Hermetia illucens), its utilization of agricultural byproducts from Archer Daniels Midland (ADM), its waste management practices, its carbon footprint, and any EPA oversight or regulatory actions concerning potential environmental effects on air, water, soil, or local ecosystems. I specifically request records related to any permits issued under the Clean Water Act (CWA) (e.g., National Pollutant Discharge Elimination System (NPDES) permits), the Clean Air Act (CAA) (e.g., air emissions permits), or the Resource Conservation and Recovery Act (RCRA) (e.g., hazardous waste management permits or compliance documentation). Additionally, I seek any EPA correspondence, reviews, or approvals related to federal grants or funding provided to Innovafeed or its partners for this project. | 2025-EPA-04407 | May, Houston | - | Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I am requesting access to and copies of all records, reports, studies, and correspondence related to water quality in the canals of Fort Lauderdale, Florida. Specifically, I seek: Requested Records: 1. Water Quality Testing & Monitoring Reports • All available data on water contamination levels, including bacteria (E. coli, fecal coliform), heavy metals, pesticides, and industrial pollutants in Fort Lauderdale's canals. • Testing results related to sewage spills, stormwater runoff, and algal blooms in the past five years. • Reports on the presence of toxic chemicals (e.g., PFAS, mercury, lead, arsenic) in these waterways. 2. EPA & State Correspondence • Any internal EPA communications, emails, and memos discussing water pollution issues in Fort Lauderdale's canals. • Communications between the EPA and the Florida Department of Environmental Protection (FDEP) or the City of Fort Lauderdale regarding water quality concerns, policy decisions, or enforcement actions. 3. Regulatory Actions & Violations • Records on permits issued to industries, businesses, and wastewater treatment facilities that discharge into Fort Lauderdale's waterways. • Documentation of environmental violations, fines, enforcement actions, or lawsuits related to water pollution in the canals. 4. Public Health & Environmental Impact Assessments • Studies or assessments on human health risks associated with exposure to contaminated canal water. • Reports on the impact of poor water quality on marine life and ecosystems, including fish kill events and seagrass die-offs. I request that these records be provided in an electronic format (PDF, CSV, or other machine-readable formats) where possible. If any fees are associated with this request, please notify me before processing. Additionally, I am requesting a fee waiver, as this information is in the public interest and will contribute to public awareness of water safety and environmental concerns. If this request is denied in whole or in part, please provide a detailed explanation citing the specific exemption(s) under FOIA. If certain portions of the records are exempt, I request that non-exempt portions be released. Please confirm receipt of this request and provide an estimated timeline for completion. | 2025-EPA-04505 | Choi, Dahyun | Princeton University | I hope you are doing well. I am currently reviewing the final Integrated Science Assessment (ISA) for Ozone and had a few questions regarding the roles of individuals involved in the ISA process. The document includes a list of participants categorized under multiple roles, such as authors, reviewers, contributors, technical scientific staff, and members of the Clean Air Scientific Advisory Committee. I would greatly appreciate it if you could provide clarification on the responsibilities associated with each of these roles and how the division of labor is structured among them. Additionally, any information on the nomination or selection process for these roles would be very helpful. Thank you in advance for your time and assistance. I would be grateful for any insights you can share, and I appreciate any guidance on where I might find further details. Best regards, Dahyun Choi | 03/13/2025 |

| 2025-EPA-04550 | Lavelle, Marianne | - | This is a request under the Freedom of Information Act (5 U.S.C. § 552). I request the following information for each of the more than 400 grants and contracts that EPA Administrator Lee Zeldin announced that the agency had cancelled in five separate announcements in early 2025: on Feb. 14, Feb. 25, March 4, March 10 and March 12: 1. Name of the Recipient and Location 2. Federal Award Identification Number (FAIN) or Prime Award ID (as listed in USA Spending.gov), including any Sub-Award IDs 3. Description of the award 4. Funding Status prior to cancellation (whether the grant was obligated) 5. Amount of the Award 6. Amount Cancelled (if different than full award amount) Please provide this information in electronic/digital format, and if possible, as a CSV or other delimited text file or an XLSX spreadsheet. Because of the limited scope and nature of this search request, this should hopefully constitute a simple electronic search. Please let me know if there's anything I can do to clarify this request or expedite release of the records. Since I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by email.. I can be reached at 703-677-6835. If you decide to withhold or exempt a portion of any record, please release all other segregable parts. If you withhold any record or portion of a record, please specify which statutory exemptions are claimed for each withholding. Please describe each record withheld, including its date and size (e.g., number of contracts/grants and of what type). I request a waiver of all fees for this request. The disclosure is likely to significantly contribute to the broad public's understanding of the government operations and activities that the requested documents concern. This is an issue of importance as demonstrated by the EPA administrator's focus and series of announcements on the contract cancellations in his first weeks in office. Without this information, the general public lacks clarity on public policy as expressed in exactly which grants have been cancelled. Thank you for your assistance in providing this information, and I look forward to your response within the 20 working days, as required by the statute. | | | | in CA, OR or WA (those are the states that I have checked). Please note that my brother has drug leaning labels (420 as example) which we do not approve of. See labels with fertilizers, in WA for example a few years back he claimed EB Stone account, yet my brother falsely claims a EB Stone GreenAll is payee. GreenAll is a sub of EB Stone, and it was used to take labels off of ProGuard and other investments apparently into the EB Stone epa number. How can we be registered at the EPA yet, my brother under his linked in account and description of EB Stone claims to be Lawn and Garden 10,000 employees. There is no information in our corporate book for assets taken off book by my brother, yet going through EB Stone and ProGuard epa numbers. I oversaw enforcement while managing director for listed and new business at NYSE, it just seems illogical this is allowed. FIFRA and fertilizers with labels still require an epa approved site, so cancel the drug leaning labels please as well. Is what my brother, Brad Crandall Jr at EB Stone considered legal under EB Stone guidelines. Could we know when EB Stone was last a registrant with the EPA and states? There is a ProGuard out of Texas that is not ProGuard, Inc. epa 58866, and a Bio-Lab dba ProGuard that landed in GA, also not ProGuard, Inc. epa 58866 but falsely did work under the ProGuard, Inc. epa 58866 and my father's name Brad Crandall (Sr), my brother falsely not using Jr. ProGuard has no agents, yet Lewis & Harrison caught again this year taking our mail. Can we stop this runaway train please? Also for the request pending, I am happy to pay fees if needed. We need to recover our corporate history, expose this fraud on my parents and me. | 2025-EPA-03402 | Ivanov, Valerii | Impulse Storm ltd | I request access to documents and information that outline the specific carbon monoxide (CO) emission thresholds that the Environmental Protection Agency (EPA) considers acceptable when approving aerosol fire suppression systems under NFPA 2010 and UL 2775 standards. Specific Request: 1. Any internal EPA guidelines, policies, or criteria that specify acceptable CO emission limits for aerosol fire suppression systems. Clarification on whether the EPA has set a formal limit for CO emissions. 2. Any justification or rationale used by the EPA in approving aerosol fire suppression systems that emit CO levels exceeding 2,200–11,600 ppm, as documented in official tests of FirePro systems. Background for Request: I am submitting this FOIA request due to concerns regarding the safety of aerosol fire suppression systems approved by the EPA. Official test results have shown that FirePro systems emit between 2,200 and 11,600 ppm of CO, levels that far exceed the lethal threshold of 1,200 ppm. These findings raise concerns about the EPA's approval process and the potential health risks posed by such systems when deployed in occupied spaces. Understanding the criteria EPA applies when evaluating CO emissions is critical to ensuring compliance with regulatory standards and developing safer fire suppression alternatives. | 03/14/2025 |

However, I request a waiver of all fees as this information is in the public interest and will contribute to greater public understanding of environmental conditions at these sites. I would appreciate an electronic copy of the requested records sent via email. If this is not possible, please send physical copies to my mailing address provided above. If my request is denied in whole or in part, please provide a written explanation, citing the specific FOIA exemption(s) that justify withholding the information. If you require any further clarification, feel free to contact me at (b) (6) [redacted] Thank you for your time and assistance. I look forward to your response within the statutory timeframe of 20 business days. (Date Range for Record Search: From 01/01/2020 To 01/01/2025) | 03/14/2025 |

| 2025-EPA-04571 | Bogardus, Kevin | E&E News | I request EPA's Phase 1 Agency RIF and Reorganization Plans, or ARRPs. These plans were to be submitted to the Office of Management and Budget and the Office of Personnel Management no later than March 13, 2025, according to Feb. 26, 2025 guidance by OMB and OPM sent to heads of executive departments and agencies (please see page 3 of https://chcoc.gov/sites/default/files/OPM_OMB%20-%20guidance%20on%20DOGE%20workforce%20EO%202.26.25%20FINAL.pdf). These plans are described in the following excerpt of that guidance: "IV. Phase 1 ARRPs Each agency will submit a Phase 1 ARRPs to | 03/17/2025 |

| | | | OMB and OPM for review and approval no later than March 13, 2025. Phase 1 ARRPs shall focus on initial agency cuts and reductions. Each Phase 1 ARRP should identify: 1. A list of agency subcomponents or offices that provide direct services to citizens. Such subcomponents or offices should be included in ARRPs to improve services to citizens while eliminating costs and reducing the size of the federal government. But for service delivery subcomponents or offices, implementation shall not begin until certified by OMB and OPM as resulting in a positive effect on the delivery of such services. 2. Any statutes that establish the agency, or subcomponents of the agency, as statutorily required entities. Agency leadership must confirm statutes have not been interpreted in a way that expands requirements beyond what the statute actually requires. Instead, statutes should be interpreted to cover only what functions they explicitly require. 3. All agency components and employees performing functions not mandated by statute or regulation who are not typically designated as essential during a lapse in appropriations (because the functions performed by such employees do not fall under an exception to the ADA) using the Agency Contingency Plans submitted to OMB in 2019 referenced above. 4. Whether the agency or any of its subcomponents should be eliminated or consolidated; and which specific subcomponents or functions, if any, should be expanded to deliver on the President's priorities. 5. The specific tools the agency intends to use to achieve efficiencies, including, as to each, the number of FTEs reduced and any potential savings or costs associated with such actions in Fiscal Years 2025, 2026 and 2027: a. Continuation of the current hiring freeze; b. Regular attrition (e.g., retirement, movement between agencies and the private sector); c. Attrition through enhanced policies governing employee performance and conduct; d. Attrition through the termination or non-renewal of term or limited positions or reemployed annuitants; e. Attrition achieved by RIFs. Please refer to Appendix 1 for specific steps and timing. For purposes of the Phase 1 ARRP, the agency should include the following information: ..." | |

| 2025-EPA-04587 | Keller, Michael | The New York Times | Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 ("FOIA"), I request electronic (if possible) copies of (or access to) the following documents: All transcripts of chats between Cole Killian — who, according to news reports, is a recent employee, appointee or detailee at your agency from the Department of Government Efficiency — and any generative artificial intelligence (AI) system, including but not limited to: Grok by xAI, Gemini by Google, Llama by Meta, Deepseek, Qwen, Claude by Anthropic, ChatGPT by OpenAI, Perplexity and any other large language models by these companies. The records should detail the full conversation including questions and answers. Some AI systems are accessed via the internet whereas others are able to run solely on the user’s computer without internet access – so-called “local models.” This request applies to records in either scenario. I am a reporter for The New York Times, an accredited and recognized newsgathering organization. I request the Records to inform the public about matters of public concern. RESPONSE TIME FOIA requires that your agency respond to this request within 20 business days. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. ESTIMATED DATE OF COMPLETION I respectfully request that you provide me with a reasonably estimated date of completion. See 5 U.S.C. § 552(a)(7)(B)(ii). If the estimated date of completion is being significantly delayed because a portion of the request needs to be processed by another agency, please inform me which agency that is and whether it has provided you with an estimated date of completion. Please produce records on a rolling basis, as they become available. FORMAT OF REQUESTED RECORDS I am further requesting that the Records be provided to me on computer files in the same format as they are currently maintained at the agency, pursuant to Burka v. Dept. of Health & Human Svcs., 87 F.3d 508 (D.C. Cir. 1996). As you know, providing documents electronically is cheaper than mailing hard copies. Please contact me if I may assist in your office's response to this request. Sincerely, Michael Keller The New York Times mhkeller@nytimes.com | 03/17/2025 |

| 2025-EPA-04588 | Sutton, Skye | - | My late father, Barney Lee Sutton, was visited at our home (138 quail run, Longview, Tx) in what would have been 1993 or early 1994 regarding alleged violations at his then-employer, Gibraltar Chemical Resources, in Winona, Tx where he was a lab supervisor. I remember he cooperated with the agents (I was only 6 or 7 so forgive me on specifics) and was found to not only be absolved of the violation he was initially approached about but also worked with agents for a time, providing records and information. I was even given an EPA patch by one of the agents when he visited our home (138 quail Run, Longview TX). My dad passed away last month, and I am very interested in learning anything I can - though specifically am requesting information about the initial contact made with him by the agents at our home, they’d followed him after work. In the event you’re able to share more information or even point me in the right direction to look, I’d be incredibly grateful. | 2025-EPA-04633 | Schaupp, Christopher Schaupp | Minnesota Department of Health | Requesting data evaluation records (DERs) related to the herbicide pyroxasulfone; specifically, 18 studies evaluating subchronic and chronic toxicity in rats, mice, and dogs from years 2003-2009, as noted in the 2018 Human Health Risk Assessment (EPA-HQ-OPP-2015-0787-0027). We were unable to locate the relevant DERs for the master record identifiers (MRIDs) listed below. 47701689 (2003) 47889320 (2004) 47701692 (2005) 47701693 (2005) 47701694 (2005) 47701695 (2005) 47701696 (2004) 47701697 (2006) 47701701 (2004) 47701702 (2007) 47701703 (2004) 47701704 (2007) 47701705 (2006) 47701706 (2008) 47701707 (2008) 47701708 (2008) 47701709 (2009) 47701710 (2009) From another agency review, it appears the toxicology assessment of pyroxasulfone was conducted as part of a Global Joint Review by scientists from the United States Environmental Protection Agency (US EPA), Health Canada Pest Management Regulatory Agency (PMRA) and the Australia Office of Chemical Safety (OCS). There was specific note of a core toxicological monograph prepared between the agency partners which included the studies being requested here. If you are able to provide the relevant DERs or studies corresponding to the MRIDs listed above, and the core toxicological monograph, it would be much appreciated. Thank you. | 03/19/2025 |

| 2025-EPA-03471 | Frey, Henry | Henry C Frey | [Clarification 3/13/25: "The specific records I am seeking are documents ( including Technical Documentation for EJSCREEN), data (A basic user guide, extensive technical documentation, and data files), and software (EJScreen tool) for EJScreen Version 2.3 that were publicly available on July 2024 but that are no longer publicly available. These materials were available at a website https://www.epa.gov/ejscreen/ that no longer exists. The former webpage itself is an example of a record that EPA can provide in partial response to this FOIA request."] Recently, without notice, explanation, or justification, EPA removed the scientific web-based tool "EJ Screen" from its website. This tool is widely used by the scientific community, and was developed by taxpayer funds over many years spanning multiple administrations. It is generally not legal for the U.S. government to take down a scientific website developed with taxpayer dollars under the Freedom of Information Act (FOIA) - doing so is a violation of the public's right to access government information. Thus, this request is that EPA restore public access to EJ Screen including all of its online capabilities and features as well as documentation and instructions on use. An example of one of the related missing websites is "https://www.epa.gov/ejscreen/what-ejscreen" but since EJ Screen may have existed on multiple web pages this request pertains not only to this landing page but all other pages that would be associated with this landing page, including those linked from this landing page that provide the EJ Screen tool, access to its online graphical user interface, ability to select and display data, ability to obtain documentation and user instructions, and all other pertinent and relevant material for a web-based tool. The response to this request must be restoration of all of the websites and the underlying data and software for those websites, pertaining to a fully operational and functional public access to “EJ Screen”. | 2025-EPA-04643 | Moore, Alan | - | If possible can someone from the EPA email me confirming if we are allowed to use 911 for illegal garbage fires here in Montgomery County's non-attainment neighborhoods. TCEQ is telling us we can't use 911, our firemen tell us to use the Fire Marshall, the county environmental detectives say we can't use the fire Marshall or 911, most of my chronic garbage fire complaints are taking over 2 years to educate these citizens & often the warnings don't last 6 months. After getting poisoned nightly for 2 weeks the county charged me with harassment. I also can't figure out how to get our OSSF Director to incorporate 'Drainage Controls' for our lands under 2% slope. It is totally corrupt here. I honestly think our complaint process is just telling people to put up privacy fences & to hide the illegal smoke in the darkness of night. I have 0% trust in this Government here in Galveston-Harris-&-Montgomery Texas, they are not here to help any of us. I think the EPA site suggests we call 911 on the illegal fire first but our Sheriff must think we can only do that if we need an ambulance. https://www.mctx.org/departments/departments_d_-_f/fire_marshal/outdoor_burning.php If someone understands my stress I'd appreciate the clarification. They want us dead here in Montgomery County. | 03/20/2025 |

| 2025-EPA-04653 | Cress, Caroline | Southern Environmental Law Center | Under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, as amended, the Southern Environmental Law Center ("SELC") respectfully requests the following records in possession or control of the U.S. Environmental Protection Agency ("EPA"). Specifically, SELC requests records pertaining to EPA Region 4's receipt of notifications provided by operators of air curtain incinerators used to manage debris caused by Hurricane Helene in North Carolina. On November 21, 2024, EPA issued a "No Action Assurance (NAA)" letter approving the State of North Carolina's request for regulatory flexibility related to Title V permitting requirements for air curtain incinerators that process 35 or more tons of hurricane-related debris per day. See Attachment 1. As a condition of this approval, EPA imposed a requirement for the owner/operator of such an air curtain incinerator to provide notification to EPA Region 4 prior to beginning operation of the unit. See id. at 2. On March 12, 2025, EPA issued a letter approving North Carolina's request for an extension of EPA's commitment to exercise enforcement discretion through September 1, 2025. See Attachment 2. This letter reiterated the requirement for an owner/operator to provide notification to EPA Region 4 prior to beginning operation of an air curtain incinerator subject to the No Action Assurance letter. See id. at 2. SELC respectfully requests the following records related to the notification requirement described above and memorialized in Attachments 1 and 2, which are dated between November 21, 2024, and the date of EPA's search for responsive records: • All written notifications provided to EPA Region 4, including any notifications sent via email to dressler.jason@epa.gov; and • All other records related to notifications provided to EPA Region 4, including any transcriptions, notes, and correspondence related to notifications provided by phone (including voicemail) at (404) 562-9208. | 2025-EPA-04748 | Hilbert, Timothy | University of Kentucky | The University of Kentucky is conducting a pilot study of Paden City, WV residents related to PCE exposure. Paden City is an EPA superfund site due to PCE in the groundwater. In order to better understand the collected data, an accurate understand of the resident's potential exposure is needed. At a public meeting in Paden City , the EPA presented an update on remediation related to the superfund site. The attached powerpoint presentation was used. On slide 22 of the powerpoint (PCE in Groundwater - April 2024) a figure shows a partial plume map of groundwater concentrations. We would like to request the raster file of the full plume map that was used to create that figure. The plume map in the file would extend beyond the portion shown in the slide. This would allow us to interpret our collected health data in light of actual resident exposure. | 03/25/2025 |

| 2025-EPA-04755 | Choi, Dahyun | Princeton University | Dear FOIA Officer, Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I respectfully request access to records related to the EPA's grantmaking process, including administrative data on EPA research grant applications and peer review activities conducted under the auspices of the EPA's competitive grants programs. I am seeking information similar in nature to that available through the NIH IMPAC II database, which contains linked administrative records on grant applications and peer review panel activities. As described on the EPA's official website (epa.gov/grants), the EPA awards over $4 billion annually in grants to support scientific research and environmental initiatives. Applications are submitted through Grants.gov and evaluated through a multi-step process involving both internal screening and external peer review by technical experts. The review process aims to ensure the scientific rigor and policy relevance of proposed projects, with guidance available through the EPA's Peer Review Handbook and Grants Management Training resources. Accordingly, I request access to the following information for EPA-funded research grant applications submitted within the past twenty years: The full name and academic degrees of the applicant The title or subject area of the grant project The review panel or study section assigned to evaluate the application The score, rating, or rank assigned during peer review The final funding status of the application In addition, I request access to peer review meeting attendance records, including: The full names | 03/31/2025 |

| | | | | |
|---|---|---|---|---|
| | | | of all reviewers involved in the peer review process Whether each reviewer served in a permanent or ad hoc (temporary) capacity The meeting date and identifier, if available If possible, I would appreciate that the data be linkable via meeting-level identifiers so that each grant application can be matched to the composition and actions of its corresponding peer review panel. This request supports an academic research project examining the production and evaluation of scientific information in the context of U.S. environmental policymaking. If portions of the requested records are exempt from disclosure, I request that any reasonably segregable non-exempt portions be released. Please inform me if there are any associated fees prior to processing. I am also submitting a request for a fee waiver, consistent with 5 U.S.C. § 552(a)(4)(A)(iii). Thank you for your time and consideration. I look forward to your response. (Date Range for Record Search: From 01/01/2000 To 03/25/2025) | |
| 2025-EPA-03678 | Lahiff, Chris | McDermott Will & Emery LLP | I respectfully request the Generic Data Call-Ins (GDCIs) and any Product-Specific Data Call-Ins (PDCIs) EPA issued for Endothall after release of the Endothall Reregistration Eligibility Decision for Endothall. I believe EPA issued the GDCIs in or about March 2007. Those GDCIs may bear ID numbers: GDCI-038901-26120; GDCI-038904-##### and GDCI-038905-#####. PC Code 38901 refers to Endothall (acid); PC Code 38904 refers to Endothall-dipotassium salt and PC Code 38905 refers to Endothall, mono(N,N,-dimethyl alkyl amine) salt. I am not requesting the GDCIs issued in January 2017. Finally, I do not have any information about any Product Specific DCI and do not know whether EPA issued any Product Specific DCI. Thank you for your assistance. Respectfully submitted. | 03/31/2025 |
| 2025-EPA-04763 | Kula, Sarah | Environmental Integrity Project | Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, the Environmental Integrity Project (EIP), Center for Biological Diversity (the "Center"), and Food & Water Watch ("FWW") request the following records in the possession, control, or custody of the U.S. Environmental Protection Agency (EPA): All records of meetings between EPA and third parties related to EPA's proposed rule on "Clean Water Act Effluent Limitations Guidelines and Standards for the Meat and Poultry Products Point Source Category," 89 Fed. Reg. 4474 (Jan. 23. 2024) ("Proposed Rule") from March 26, 2024, to present. For the purposes of this request, the following definitions apply: • "Records" means information of any kind. This includes but is not limited to writings (handwritten, typed, electronic or otherwise produced, reproduced or stored), letters, inspection reports, memoranda, correspondence, notes, field notes, telephone conversations, telephone logs, telefaxes, e-mails, chats, documents of any kind, databases, drawings, graphs, charts, photographs, videos, meeting notes or minutes, electronic and magnetic recordings of meetings, maps, reports, papers, messages, voice mails, CDs, and any other compilations of data from which information can be obtained. All of the foregoing is included in this request if it is in the possession of or otherwise under the control of the EPA. If such records are no longer under the control of the EPA but were at any time, records shall include any information of any kind, including, but not limited to, those types of information listed above, regarding the current location of such records. • "Third party" means any person who is not an employee of the federal government. • "Related to" means constituting, reflecting, respecting, supporting, contradicting, referring to, stating, describing, recording, noting, embodying, containing, mentioning, studying, analyzing, discussing, evaluating, or relevant to. | 2025-EPA-03679 | Ivanov, Valerii | Impulse Storm ltd | I am formally submitting this urgent Freedom of Information Act (FOIA) request regarding the concealed data on carbon monoxide (CO) emissions from aerosol fire suppression systems. The most recent document provided by the EPA contains redacted information specifically related to CO emissions after FirePro activation, despite previous responses not containing such redactions. The removal of this critical data is unjustified, lacks transparency, and raises serious ethical and legal concerns. Key Issues: Unjustified and Potentially Illegal Redaction of CO Emissions Data The EPA has failed to provide any legal justification for the redaction of CO emissions data. FOIA (5 U.S.C. § 552) strictly prohibits the withholding of information unless a valid exemption is cited, and none has been provided. Given the life-threatening nature of the concealed information, this redaction appears to be a deliberate attempt to obscure critical public safety data. Manipulated Scientific Justifications and Regulatory Failures The 2016 German test used to justify FirePro's approval is fundamentally flawed. This test was conducted in an open combustion environment, artificially minimizing CO emissions, rather than in a realistic sealed system scenario where CO buildup is exponentially greater. The Marine Accident Investigation Branch (MAIB) conducted an independent review and concluded that FirePro systems generate dangerously high CO levels, which directly contributed to a fatal poisoning incident. Despite this evidence, the EPA continues to allow FirePro's distribution, knowingly approving a system with lethal CO emissions. Public Health and Safety Emergency: Independent tests and real-world incidents confirm that FirePro releases CO at levels between 2,200 and 11,600 ppm. The established lethal threshold for CO poisoning is 1,200 ppm. This means that FirePro systems, when deployed, create an environment where death is all but certain in enclosed spaces. The continued approval and sale of this system, with the EPA's knowledge of its dangers, constitutes gross negligence and may already be responsible for multiple unrecognized deaths. Legal and Ethical Violations: Failure to Uphold Public Health Protection: The EPA's core mission is to protect human health and the environment. By allowing a fire suppression system with lethal CO emissions to remain approved, the agency is directly endangering lives. The EPA's role is not to shield manufacturers from accountability but to enforce safety regulations transparently and without bias. Potential Regulatory Capture and Data | 03/31/2025 |

| | | | | |
|---|---|---|---|---|
| | | | Suppression: The deliberate redaction of CO data strongly suggests undue corporate influence or regulatory capture. If the EPA knowingly approved a hazardous product and is suppressing evidence to cover up its mistake, this constitutes serious regulatory misconduct that warrants federal investigation. Formal FOIA Request: Under FOIA (5 U.S.C. § 552), I demand the immediate release of the full, unredacted version of the document containing CO emissions data for FirePro aerosol fire suppression systems. If the EPA refuses to provide this information, the agency must: Cite the specific legal exemption used to justify the redaction. Explain why data critical to public safety is being concealed. Clarify how approving a system that releases CO at lethal levels ali . . . The description has exceeded the character limit. | |
