MEMORANDUM

SUBJECT: Final Allotments for the FY 2025 Public Water System Supervision (PWSS) State and Tribal Support Program Grants

FROM: Marietta Echeverria, Director
Drinking Water Capacity and Compliance Assistance Division

TO: Regional Drinking Water Program Managers
Regions 1-10

Attached for your information are the final fiscal year (FY) 2025 Public Water System Supervision (PWSS) Grant Allotments. This updated memo corrects and supersedes the memo previously signed on August 21, 2025, that had switched the allocations for Nevada and Navajo Nation; all other allocations remain unchanged. The final amount available for funding the FY 2025 PWSS Grant Program is \$115,833,000, a decrease of \$157,000 from FY 2024. This year's allotments include \$12,000,000 to support activities addressing per- and polyfluoroalkyl substances (PFAS) and other contaminants of emerging concern. The State and Tribal support formula allotments were calculated utilizing final FY 2025 funding levels, and the funds have been directed to the Regions' accounts.

Attached are the state-by-state allotments, and the total amount available to each Region for its tribal support program. For each allotment, the attachment includes the total amount, the funding for the general PWSS program, and the funding for PFAS and other contaminants of emerging concern.

The EPA is committed to a productive partnership with states, tribes, and territories to maximize the impact the funds have in addressing urgent water challenges facing communities. For decades, the PWSS program has been integral to the operations of the nation's public water systems. It will continue to support the implementation of health protection standards for drinking water systems that serve the public.

If you have any questions about the allotment calculations, please contact Ed Moriarty at (202) 564-3864 or moriarty.edwardj@epa.gov.
