RE: NPDES Dewatering General Permit
The Residences at Stevens Corner, North Andover, MA

Dear Ms. Vergara:

On behalf of Stevens Corner Limited Partnership, we are submitting for your approval a Notice of Intent (NOI) for coverage under the National Pollutant Discharge Elimination System (NPDES) Dewatering General Permit (DGP) for the Residences at Stevens Corner Comprehensive Permit residential housing project.

The Residences at Stevens Corner project consists of the renovation of an existing structure into a 42 unit multifamily building. This permit is requested in anticipation of temporary dewatering that maybe required during the installation of site utilities and foundation construction. Any uncontaminated groundwater encountered will be discharged to the municipal drainage system after passing through a bag filter, dewatering basin, and the on-site drainage system. The out fall from this municipal system is a headwall located along the Cochichewick River. The outfall location and route of the municipal system is shown on the attached USGS Locus Plan.

The NOI application package and transmittal form has also been submitted to Mass. DEP Division of Watershed Management. Should you have any questions or require any further information, please feel free to contact me at (781) 438-6121.

Very truly yours,
Marchionda & Associates, L.P.
