A. Instructions

Submission of this Notice of Intent constitutes notice that the entity named at item B1. of this form intends to be authorized by the DEP General Permit issued jointly with EPA for stormwater discharges from the small municipal separate storm sewer system (MS4), in the location identified at item B2. of this form. Submission of the Notice of Intent also constitutes notice that the party identified at item B1. has read, understands and meets the eligibility conditions of Part I.B. of the NPDES Small MS4 General Permit, agrees to comply with all applicable terms and conditions of the NPDES Small MS4 General Permit, and understands that continued authorization to discharge is contingent on maintaining eligibility for coverage. **In order to be granted coverage, all information required on BRP WM 08A, including the Stormwater Management Program Summary and Time Frames form, must be completed. Please read the permit and make sure you comply with all requirements, including the requirement to develop and implement a stormwater management program.**

5. Based on the instructions provided in Part I of the NPDES Small MS4 General Permit, have the eligibility criteria for "listed species" and critical habitat been met?

☒ yes

☐ pending

☐ no

B. Applicant Information (cont.)

Criteria D:

We have conferred in detail with both the Massachusetts Audubon Society and the U.S. Fish and Wildlife Department regarding the habitat of known endangered species in Bristol County, Massachusetts.

The Federal listing for Bristol County includes:

- a). Roseate Tern
- b). Piping Plover
- c). Bald Eagle

According to Ms. Purtell of the Massachusetts Audubon Society and Mr. Paul Nickerson, Chief of the Division of Threatened and Endangered Species, U.S. Fish and Wildlife – N.E. Region; none of the above listed species are to be found in any area of the Town Of Acushnet, Massachusetts. Therefore, based on those evaluations a determination has been made by the Town Of Acushnet that the storm water discharges, allowable non-storm water discharges, and discharge related activities will not affect any Federally Threatened and Endangered Species or designated critical habitat per Criteria D of the General Permit for Storm Water Discharges for MS4's.
