

## Hand-enter Your Transmittal Number

MAR 04 2014 SP-3

W 041198

Transmittal Number

Your unique Transmittal Number can be accessed online: <http://www.state.ma.us/scripts/dep/trasmfrm.stm> or call DEP's InfoLine at 617-338-2255 or 800-462-0444 (from 508, 781, and 978 area codes).

### Massachusetts Department of Environmental Protection

## Transmittal Form for Permit Application and Payment

1. Please type or print. A separate Transmittal Form must be completed for each permit application.

2. Make your check payable to the Commonwealth of Massachusetts and mail it with a copy of this form to: DEP, P.O. Box 4062, Boston, MA 02211.

3. Three copies of this form will be needed.

Copy 1 - the original must accompany your permit application.  
Copy 2 must accompany your fee payment.  
Copy 3 should be retained for your records

4. Both fee-paying and exempt applicants must mail a copy of this transmittal form to DEP, P.O. Box 4062, Boston, MA 02211

For DEP Use Only

### A. Permit Information

BRP WM 08A

Permit Code: 7 or 8 character code from permit instructions

5 Year Permit

Type of Project or Activity

Stormwater Phase II

Name of Permit Category

### B. Applicant Information - Firm or Individual

Department of Correction

Name of Firm - Or, if party needing this approval is an individual enter name below:

Last Name of Individual

50 Maple Street

Street Address

Milford

City/Town

Jeffrey J. Quick, A.I.A.

Contact Person

First Name of Individual

MI

MA

State

01757

Zip Code

508 422-3368

Telephone # and extension

e-mail address (optional)

### C. Facility, Site or Individual Requiring Approval

Boston Pre-Release

Name of Facility, Site or Individual

Canterbury Street

Street Address

Boston

City/Town

DEP Facility Number (if Known)

Federal I.D. Number (if Known)

e-mail address (optional)

MA

State

Zip Code

Telephone # and extension

### D. Application Prepared by (if different from Section B)

Name of Firm Or Individual

Address

City/Town

State

Zip Code

Telephone # and extension

Contact Person

LSP Number (21E only)

### E. Permit - Project Coordination

Is this project subject to MEPA review? ☐ yes ☒ no If yes, enter the project's EOE file number - assigned when an Environmental Notification Form is submitted to the MEPA unit: EOE file number \_\_\_\_\_

Is an Environmental Impact Report Required? ☐ yes ☒ no

Is this application part of a larger project for which two or more DEP permits are being or will be sought? ☐ yes ☒ no

AUG 04 2003

List any other DEP permits that apply to this project:

Permit Category

Date of Submission (tentative or actual)

Transmittal # \_\_\_\_\_ MUNICIPAL ASSISTANCE UNIT

### F. Amount Due

#### Special Provisions:

- ☒ Fee Exempt\* (city, town or municipal housing authority) (state agency if fee is \$100 or less)  
☐ Hardship Request - payment extensions according to 310 CMR 4.04(3)(c)  
☐ Alternative Schedule Project (according to 310 CMR 4.05 and 4.10)

\*There are no fee exemptions for 21E, regardless of applicant status

Transmittal Number

**BRP WM 08A NPDES Stormwater General Permit**

**Notice of Intent for Discharges from Small Municipal Separate  
Storm Sewer Systems (MS4s)**

Facility ID (if known)

**A. Instructions**

**Important:**  
When filling out  
forms on the  
computer, use  
only the tab key  
to move your  
cursor - do not  
use the return  
key.

Submission of this Notice of Intent constitutes notice that the entity named at item B1. of this form intends to be authorized by the DEP General Permit issued jointly with EPA for stormwater discharges from the small municipal separate storm sewer system (MS4), in the location identified at item B2. of this form. Submission of the Notice of Intent also constitutes notice that the party identified at item B1. has read, understands and meets the eligibility conditions of Part I.B. of the NPDES Small MS4 General Permit, agrees to comply with all applicable terms and conditions of the NPDES Small MS4 General Permit, and understands that continued authorization to discharge is contingent on maintaining eligibility for coverage. **In order to be granted coverage, all information required on BRP WM 08A, including the Stormwater Management Program Summary and Time Frames form, must be completed. Please read the permit and make sure you comply with all requirements, including the requirement to develop and implement a stormwater management program.**

**B. Applicant Information**

1. Small MS4 Operator/Owner Information:

Department of Correction

Name

50 Maple Street

Mailing Address

Milford

City/Town

508 422-3300

Telephone Number

## **NPDES Stormwater Phase II – Guidance for Meeting Endangered Species Eligibility**

Verified United States Fish and Wildlife Service (US FWS) and/or National Marine Fisheries

Both of these sources identified both the short –nose sturgeon and dwarf wedge mussels as being specifically identified as needing protection. These two species are specifically found in a marine habitat.

None of the prisons managed by the Department of Correction have discharges which directly enter coastal waters, or enter fresh water wetlands or water bodies that directly discharge into coastal water.

According to the USFWS the entire list of protected (listed as threatened or endangered) are listed below.

Massachusetts -- 24 listings Status E – Endangered T Threatened

### **Animals -- 21**

Status E – Endangered T Threatened

E Beetle, American burying (*Nicrophorus americanus*)  
T Eagle, bald (lower 48 States) (*Haliaeetus leucocephalus*)  
T Plover, piping (except Great Lakes watershed) (*Charadrius melodus*)  
E Puma (=cougar), eastern (*Puma* (=Felis) concolor cougar)  
E Sea turtle, hawksbill (*Eretmochelys imbricata*)  
E Sea turtle, Kemp's ridley (*Lepidochelys kempii*)  
E Sea turtle, leatherback (*Dermochelys coriacea*)  
T Sea turtle, loggerhead (*Caretta caretta*)  
E Sturgeon, shortnose (*Acipenser brevirostrum*)  
E Tern, roseate (northeast U.S. nesting pop.) (*Sterna dougallii dougallii*)  
T Tiger beetle, northeastern beach (*Cicindela dorsalis dorsalis*)  
T Tiger beetle, Puritan (*Cicindela puritana*)  
T Turtle, bog (=Muhlenberg) (northern) (*Clemmys muhlenbergii*)  
E Turtle, Plymouth redbelly (*Pseudemys rubriventris bangsi*)  
E Wedgemussel, dwarf (*Alasmidonta heterodon*)  
E Whale, blue (*Balaenoptera musculus*)  
E Whale, finback (*Balaenoptera physalus*)  
E Whale, humpback (*Megaptera novaeangliae*)  
E Whale, right (*Balaena glacialis* (incl. australis))  
E Whale, Sei (*Balaenoptera borealis*)  
T Wolf, gray Eastern Distinct Population Segment (*Canis lupus*)

### **Plants -- 3**

E Gerardia, sandplain (*Agalinis acuta*)  
T Pogonia, small whorled (*Isotria medeoloides*)  
E Bulrush, Northeastern (*Scirpus ancistrochaetus*)

| BMP ID                                             | BMP                                | Responsible Dept./Person        | Measurable Goal                                                                                                                                                                                                                                                             |
|----------------------------------------------------|------------------------------------|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Minimum Control Measure 1: Public Education</b> |                                    |                                 |                                                                                                                                                                                                                                                                             |
| 1                                                  | Publicize the Stormwater Program   | Division of Resource Management | Present to the management and staff (including administrative, maintenance and correctional staff) at various meetings the DOC's Comprehensive Stormwater Management Program. Goal - Present program, track attendees, meetings, information covered, and solicit feedback. |
| 2                                                  | Distribute printed materials       | Division of Resource Management | Distribute EPA and other relevant educational brochures to targeted audiences (DOC staff). Distribution points include staff rooms, meeting rooms and other common places. Goal - prepare and distribute brochures, conduct awareness training and solicit feedback.        |
| 3                                                  | Create Intranet Materials and Post | Division of Resource Management | Post links to DOC's Stormwater Management program, stormwater BMPs and other water quality education resources, including the EPA and DEP informational links on its Intranet Website. Goal - Post on Intranet and periodically update.                                     |
| 4                                                  | Storm drain stenciling             | Division of Resource Management | Stenciling will be completed at all catch basins except where in conflict with security. Goal - Annually identify 20% of the catch basins and complete stenciling. Conduct periodic inspections and provide information on stenciling program as required.                  |

# STORM WATER MANAGEMENT PROGRAM SUMMARY

MA Transmittal No. W041198 Name: Boston PreRelease  
 EPA No.                      Date: 07/28/03

| BMP ID                                                                        | BMP                                         | Responsible Dept./Person        | Measurable Goal                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------|---------------------------------------------|---------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Minimum Control Measure 2: Public Participation</b>                        |                                             |                                 |                                                                                                                                                                                                                                                                                       |
| 5                                                                             | Form a Stormwater Committee / Work Group    | Division of Resource Management | Form a Department-wide committee for input to this program. Goal : Form Committee and meet every six months.                                                                                                                                                                          |
| 6                                                                             | Provide opportunity for staff input.        | Division of Resource Management | Include announcements on Intranet, solicit ideas by way of a "suggestion box," include notices with paychecks and post notices in meeting rooms. Goal- Create multiple means of soliciting feedback from DOC staff. Discuss ideas in Stormwater Committee and implement as necessary. |
| BMP ID                                                                        | BMP                                         | Responsible Dept./Person        | Measurable Goal                                                                                                                                                                                                                                                                       |
| <b>Minimum Control Measure 3: Illicit Discharge Detection and Elimination</b> |                                             |                                 |                                                                                                                                                                                                                                                                                       |
| 7                                                                             | Complete Mapping                            | Division of Resource Management | Map all outfalls and receiving bodies of water. Goal - Complete mapping of all DOC facilities and prepare plans of drainage infrastructure. Complete mapping within first year of permit.                                                                                             |
| 8                                                                             | Conduct Dry Weather and Wet Weather Surveys | Division of Resource Management | Conduct Survey of illicit discharges. Goal - To be conducted in years 2 and 3 of permit.                                                                                                                                                                                              |
| 9                                                                             | Correct Problem                             | Division of Resource Management | Procure funding and make necessary repairs within 1 year of finding deficiency. Goal - Remedy within one year.                                                                                                                                                                        |
| 10                                                                            | Develop Policy for Enforcement              | Division of Resource Management | Prepare internal policy for enforcement of illicit discharges. Goal - Prepare policy. To be reviewed and amended as needed annually after first year of permit.                                                                                                                       |

# STORM WATER MANAGEMENT PROGRAM SUMMARY

| <b>Minimum Control Measure 5: Post Construction Runoff Control</b> |                                                                                                                          |                                 |                                                                                                                                                                                                                                                                                                                                                                                    |
| 12                                                                 | Require post-construction run-off controls. Review existing storm drainage infrastructure.                               | Division of Resource Management | Formalize a program to inspect existing catch basins and other drainage infrastructure. The program will include a systematic review of drains, prioritization of repairs and improvements as required. Goal - Conduct inspections of existing catch basins and drainage structures on an annual basis. Make repairs in a timely manner.                                           |
| <b>Minimum Control Measure 6: Municipal Good Housekeeping</b>      |                                                                                                                          |                                 |                                                                                                                                                                                                                                                                                                                                                                                    |
| 13                                                                 | Develop an Operations and Maintenance Plan                                                                               | Division of Resource Management | Using guidelines, regulations and recommendations from DEP and EPA sources. Develop an operations and maintenance plan to include proper disposal of street sweepings, catch basin cleanout, snow disposal, roadway de-icing procedures, vehicle washing, and outside storage of materials. Goal - To be completed in first year of program. Periodic review and update as needed. |
| 14                                                                 | Execution of Operations and Maintenance Plan                                                                             | Division of Resource Management | Execute O & M Plan. Goal - Start implementing in year 2 of Permit                                                                                                                                                                                                                                                                                                                  |
| 15                                                                 | Identify applicable, structural and non-structural long-term run-off control strategies BMPs                             | Division of Resource Management | Facility will review and implement necessary recommendations to maintain compliance with the Stormwater Management Plan. Goal - Conduct reviews in years four and five and implement changes as necessary.                                                                                                                                                                         |
