Part II. Self-Assessment

In November of 2003, the Town of Hooksett contracted with Dufresne Henry to assist the Town in developing a Stormwater Management Plan. Over the years, the Town has tried very hard to put forth items in the budget that are later defeated at the voting polls. As a result of this, the Town tries to use current funds if they are available, but this has proved problematic. The Town is currently in the process of working with Stantec Engineers to move the process forward.
