FROM: Mary Elizabeth Burgess, Town Planner 

RE: Town of Eastham
Phase II Annual Report – Permit Year 2
EPA NPDES#: MAR041110
DEP Transmittal #: W040891

Pursuant to the requirements under the National Pollution Discharge Elimination System (NPDES) Stormwater General Permit to meet the United States Environmental Protection Agency's (EPA) Final Phase II Stormwater Rule, attached please find a certification in accordance with 40 CFR 122.22 and an Annual Report (with attachments) for Permit Year 2 for the Town of Eastham. Please do not hesitate to contact me at 508.240.5906 x202 if you have any questions or require any additional information.

Municipality/Organization: Town of Eastham

EPA NPDES Permit Number: MAR041110

MaDEP Transmittal Number: W-040891

**Annual Report Number
& Reporting Period:** No. 2: March 2004-March 2005,

NPDES PII Small MS4 General Permit Annual Report

Part I. General Information

Contact Person: Mary Elizabeth Burgess

Title: Town Planner

Telephone #: 508.240.5906 x202

Email: meburgess@eastham-ma.gov

Certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Part II. Self-Assessment

The Town of Eastham has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions.

Part III. Summary of Minimum Control Measures**1. Public Education and Outreach**

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
1.1	Educational Brochures	NR, DPW	Development of Brochures	Updated Brochures from Year 1. Continued to coordinate with Local Regional Planning Agency on Informational Campaign	Continue to update educational brochures as new information arises.
Revised					
1.2	Educational Mailing	Planning	Mailing	Program was discontinued	No proposed resurrection
Revised					
1.3	Storm Water Video	Planning	Airing on Cable TV	Program proposed for Permit Year 3	Program start
Revised					
1.4	Coastal/Pond Cleanup	ConCom, DPW	Conducting Cleanup	Coastal Cleanup conducted as part of MCZM's "Coastsweep" Program completed bi annually	Cleanup completed twice yearly in the Spring and Fall. Includes local aquaculturalists, cub scouts and Regional School students
Revised					
1.5	Office Brochure	NR, DPW, Planning	Availability of Brochures	Brochures with local contact info corresponding with 1.1 displayed in NR/DPW Building and Building Dept in Town Hall.	Continue to update brochures. Informational Posters to be added for Permit year 3.

7b. WLA Assessment

NOT APPLICABLE

Part IV. Summary of Information Collected and Analyzed

FRESHWATER SAMPLING: The Cape Cod Pond and Lake Stewardship (PALS) are continually sampling the Eastham ponds in an effort to identify possible pollutants and recommend the best management practices for containing and eliminating possible pollutants.

BEACH SAMPLING: Sixteen Eastham Beaches (eleven salt water and five freshwater) were sampled in the summer of 2004 by the Barnstable County's Department of Health and Environment. Four Beaches had samples above the sampling limit (see attached summary data). However, those samples exceeding the limits only resulted in the posting of swimming advisory notices. While a definitive cause was never determined for the need to post the swimming advisory, speculation was that it was related to natural geological conditions (peat deposits) and not related to a direct stormwater discharge (No outfall pipe exists).

GROUND WATER SAMPLING: The Town continued its voluntary sampling project to evaluate levels of nitrate in residential wells. Eastham is in its third year of a three year program. Each year 1/3 of the Town is sampled. The sampling will rotate back to the first 1/3 sample area next year and continually sample the town allowing for a three year sampling rotation schedule.

SHELLFISH SAMPLING: The Natural Resources Office continued to test for Red Tide and participate in shellfish sampling in coordination with Massachusetts Division of Marine Fisheries on a weekly basis throughout the Spring, Summer and Fall.

--	-----------------------------	---	-----------------------------	--------------

Eastham Public Bathing Beach Water Quality Report

Beaches are tested weekly during the summer bathing season (June to August). In the event of a failure, the beach in question will be resampled daily thereafter until results permit re-opening. Most recent weeks of sample results will be included in this chart. Green indicates good water quality and red indicates bacteria levels above the acceptable standard.

Pass	Fail
------	------
