Title: CITY ENGINEER

Date: 4-11-05

Part II. Self-Assessment

The City of Everett has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions. In addition, a brief synopsis of progress to date on implementation of minimum control measures is provided below.

Positive: Portions of the SWMP tie in nicely with on-going programs and desired results in other efforts of the city. Outreach to local business community through Chamber of Commerce has allowed for funding of events that serve a dual purpose (River Festival combined with Chamber Business Festival allows for Chamber to fund event allowing city to educate both citizens and businesses through introduction of environmental NGOs and their programs to festival). Creation of "Friends of Everett Waterfront with support from Mystic River Watershed Association serving multiple purposes through creating sense of stewardship and responsibility, creating volunteer base for clean-up and other events, providing means of capacity building through direct personal contact (word of mouth).

Negative: Various issues, not the least of which is funding, has contributed to a less than full completion of goals. Educating city department heads to these new requirements and obligations serves as an example of the need to create a new mindset with in municipal government. Then there is the need to educate taskforce members ... BPMs cannot be evaluated until they are understood. While the desire is there, pressing daily duties in the era of decreased financial aid to cities often relegate portions of Everett SWMP to second tier.

City website in need of update but funding not there to allow for update which would allow for introduction of materials through Internet.

Overall: Everett should get a passing grade for efforts made in Year 1 of permit. Everett's history is one where only industry knew of waterfront and so Everett Officials face the onerous task of not only informing it's people of the steps needed to clean their water but that they, in fact, have a waterfront to protect! This re-discovery of the waterfront has been a huge success in Year 1 and puts us on the path to getting back up to speed on the goals of our SWMP.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 2
1-1.1	Develop and distribute educational material to residential property owners; and post on City web site for municipal employees. Include information on the hazards associated with illicit discharges and improper disposal of waste and steps the public can take to minimize pollution from stormwater runoff	CONCOMM	Year 1: Procure, develop or adapt one brochure/fact sheet on stormwater issues; post stormwater information on City web site Years 2 through 5: Distribute information quarterly; utility customers, both residential and commercial, and distribute at City Hall, the library and Waterfront Fairs. Also during Years 2 through 5, post information on the City web site and update the web site semi-annually, and air information on cable television annually.	-Establishment of Everett Waterfront Speaker Series. Free talks open to the public and advertised in local newspaper and TV. Talks have included "Mystic Edison Plant and it's Effects on the Mystic River", "Low Impact Development for Stormwater Management", "Porpoises in the Mystic River, A Research Project of the New England Aquarium" -Creation and/or broadcasting of waterways related cable TV shows including "Virtual Tour of Everett Waterfront", "River Festival Highlights" and "Nonpoint Source Pollution, It's Causes and Effects on the Mystic River Watershed." -Establishment of the "Friends of the Everett Waterfront" (FEW) group. This volunteer organization originally started under auspices of city and MyRWA with goal of FEW becoming independent citizens group responsible for cleanups and public outreach/education. 4 meetings held at this time including Mass Riverways Adopt-a-Stream kick-off meeting, waterfront familiarization and boat tour of Everett waterfront.	-Continue to seek funding for program. -Continue procurement and development of printed materials. -Continue programs outlined in Year 1. -Meet measurable goals as outlined.
Revised					

1-1.2	Revise dog licensing materials to include information on stormwater issues related to pet waste management, and use revised materials. Conduct limited visual survey of City-owned parklands to determine where additional signs, pooper scooper stations or repairs to same may be needed. Install/repair signage and pooper scooper stations in selected locations.	CONCOMM	Year 1: Revise dog licensing materials. Years 2 through 5: Use revised materials. Years 2 and 4: Conduct limited visual survey of City-owned parklands. Years 3 and 5: Install/repair signage and pooper scooper stations based on survey results.	-Dog licensing materials under revision. -Animal Control Officer scheduled for survey.	- Meet measurable goals as outlined.
Revised					

1-1.3	Develop and distribute educational material to business property owners; and post on City web site for municipal employees. Include information on the hazards associated with illicit discharges and improper disposal of waste.	CONCOMM	Year 1: Procure, develop or adapt one brochure/fact sheet on stormwater issues; post stormwater information on City web site. Years 2 through 5: Distribute information quarterly, via either mailing a brochure/fact sheet to business property owners based on tax assessor records; airing information on the City's community television station; distributing a brochure/fact sheet at a community event; or making a brochure/fact sheet available at City Hall, libraries or other municipal facilities open to the public. Update the web site semi-annually.	-Procurement and development of materials still on going. -Meetings with business community to discuss privately owned waste systems in 2 IE sites and the start of planning upgrades to these systems. - Establishment of Everett Waterfront Speaker Series. Free talks open to the public and advertised in local newspaper and TV. Talks have included "Mystic Edison Plant and it's Effects on the Mystic River", "Low Impact Development for Stormwater Management", "Porpoises in the Mystic River. A Research Project of the New England Aquarium."	-Continue to seek funding for this program. - Meet measurable goals as outlined.
Revised					

1-1.4	Develop and distribute educational material to owners of properties on which land uses with higher potential pollutant loads have been identified; and post on City web site for municipal employees. Include information on the hazards associated with illicit discharges and improper disposal of waste	CONCOMM	Year 2: Procure, develop or adapt one brochure/fact sheet on stormwater issues; post stormwater information on City web site. Years 3 through 5: Distribute information bi-annually, via either mailing a brochure/fact sheet to property owners based on tax assessor or DEP RCRA generator or other records; airing information on the City's community television station; distributing a brochure/fact sheet at a community event. Update the web site semi-annually.	-Not applicable under Year 1 requirements.	- Meet measurable goals as outlined.
Revised					
1-1.5	Conduct Waterfront Fairs to provide outreach to residents and businesses.	CONCOMM	Conduct one Waterfront Fair in 2003 and two Waterfront Fairs per year during Years 2 through 5.	Establishment of the Everett "Take Me to the River" Festival. The first festival took place September 6, 2003 and 7500 people were estimated to have attended.	-Next festival date August 28, 2004. -Discussions on partnering with other communities and NGO are ongoing for regional events. If interest and means are indicated, the City will consider a regional fair in addition to the local waterfront fair as a possible goal for future years.
Revised			Resource limitations in time and money dictate that City can only support one fair per year through first permit term.		

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 2
3-1	Conduct hydraulic study of drainage system.	City Engineer/DPW	Complete hydraulic modeling by the end of Year 2.	-Not applicable under Year 1 requirements.	- Meet measurable goals as outlined.
Revised					

3-2	Conduct dry weather outfall screening.	City Engineer/DPW	Year 1: Conduct dry weather screening of up to 25 outfalls. Evaluate those that are observed to have dry weather flow with field screening procedures. Sample outfalls for fecal coliform on two separate occasions. If warranted based upon field screening, conduct additional screening and analysis for some or all of the pollutants in the proposed 2002 "Massachusetts Integrated List of Waters" on up to five outfalls over the permit term beginning in Year 3. Year 5: Conduct dry weather screening of all City-owned outfalls.	The majority of outfalls were sampled in Fall 2003. Sampling will be completed in Spring 2004.	-Meet measurable goals as outlined.
Revised					
3-3	Map stormwater outfalls and show names of receiving waters.	City Engineer/DPW	Year 1: Locate all known City-owned outfalls using GPS and develop a GIS data layer showing those outfalls.	Preliminary mapping based on documentary records (as-builts and City records) has been completed. Field verification of mapping is scheduled for Spring 2004 and estimated date of final GIS data layer completion is September 2004.	- Complete mapping as described.
Revised					

3-4	Map the stormwater collection system in a GIS.	City Engineer/DPW	Year 2: Create a GIS of stormwater system showing locations of known City-owned pipes, manholes, catch basins, outfalls. Attribute information such as pipe size, construction material, age, etc., will be entered into the system where available.	-Not applicable under Year 1 requirements.	- Meet measurable goals as outlined.
Revised					
3-5	Develop and implement a plan to identify and remove non-stormwater discharges to the MS4.	City Engineer/DPW	Year 1: Prioritize outfalls, evaluate funding sources for identifying and removing illicit connections, and develop a system for maintaining electronic records of the program. Conduct field investigations of prioritized area to locate and remove illicit connections within two years of dry weather field screening subject to funding constraints.	Since mapping and dry weather discharge sampling was delayed, the prioritization of outfalls and investigations relative to illicit connections has been similarly postponed. When the GIS data layer is available, and database up to date, these resources will be used in the initial planning for illicit discharge detection and elimination, and findings as well as corrective actions will be entered into the database for purposes of maintaining a current record.	- Much of the work proposed for Year 1 under this BMP will be undertaken in Year 2.
Revised					

3-6	Develop an ordinance to make it illegal to improperly connect a sanitary sewer to the storm drain system or to dump pollutants into the system (i.e. Non-Stormwater Discharge Prohibition).	City Engineer/DPW	Year 1: Draft ordinance and present to the Mayor/Common Council/Board of Aldermen. If ordinance is adopted, develop and adopt regulations. If not, repeat in Years 2 through 5.	-Model Ordinance under review and draft underway.	- Meet measurable goals as outlined.
Revised					

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 2
----------	-----------------	-------------------------------	--------------------	--	------------------------------------

4-1	Revise Site Plan Review Ordinance/Regulations/Procedures.	MOCCED	Year 1: Develop draft changes to the ordinance. Year 2: Present proposed changes to Mayor/Common Council/Board of Aldermen. If not approved, revise if necessary and present in Years 3 through 5 until approved. Develop and present to Planning Board revised Site Plan Review regulations and/or procedures within six months of adoption of ordinance.	-Model Ordinance under review and draft underway.	- Meet measurable goals as outlined.
Revised					
4-2	Develop site inspection and enforcement of construction control measures program.	CONCOMM	Year 2: Develop program. Years 3 through 5: implement program.	-Not applicable under Year 1 requirements.	- Meet measurable goals as outlined.
Revised					
4-3	Identify Preferred Standard Construction Site Runoff Controls	CONCOMM	Year 1: Identify preferred best management practices. Year 3: Complete a draft "Preferred Standard Construction Site Runoff Controls" document. Year 4: Distribute to contractors.	-Identified need to educate task force members. -Education of Stormwater Task Force Members ongoing. (3 members attended Stormwater Symposium).	- Meet measurable goals as outlined.

5-1	Develop post-construction runoff control ordinance, regulations, procedures and guidance.	Planning Board	Year 2: Draft the post-construction runoff ordinance and hold a public meeting. Year 3: present the final ordinance to the Mayor / Common Council / Board of Aldermen. Present in Years 4 and 5 if necessary. Present the regulations, procedures and guidance to the appropriate board and conduct a public hearing thereon within six months of ordinance adoption.	-Not applicable under Year 1 requirements.	- Meet measurable goals as outlined.
Revised					
5-2.1	Require DPW review of selected structural BMPs.	City Engineer/DPW	Year 1: Develop draft procedures for evaluation of BMPs for operation and maintenance issues. Year 2: Develop final procedure. Years 3-5 implement procedure	-Identified need to educate task force members. -Education of Stormwater Task Force Members ongoing. (3 members attended Stormwater Symposium).	- After additional informational meetings with responsible officials, draft procedures will be developed. We propose to address Year 1 goals in Year 2 of the program and meet measurable goals as outlined thereafter.
Revised					

5-2.2	Establish a mechanism to fund operation and maintenance of structural BMPs	City Engineer/DPW	Year 1: Investigate potential funding mechanisms, develop a draft funding mechanism, and hold a public meeting to solicit input from the community. Year 2: revise draft and present to Mayor / Common Council / Board of Aldermen. If not adopted, revise and present in Years 3 through 5.	Stormwater Task Force has established that additional education of municipal officials is required in order to complete this task. This task will be undertaken after necessary ordinances have been developed and finalized, during which opportunities for funding mechanisms will be discussed. A public meeting will be held during ordinance development process.	- Continue to work on educating municipal officials and coordinating development of ordinances with exploration of funding opportunities.
Revised					

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 2
6-1	Develop and Implement a Plan to Prevent and Reduce Pollutant Runoff from Municipal Operations.	City Engineer/DPW	By the end of Year 2, develop and adopt a plan. Implement plan beginning in Year 3.	-Not applicable under Year 1 requirements.	- Meet measurable goals as outlined.
Revised					

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA)
NOT APPLICIBLE AS NO TMDL ESTABLISHED FOR EVERETT RECEIVING WATERS

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Watershed Management

W035930

Transmittal Number

BRP WM 08A NPDES Stormwater General Permit

Notice of Intent for Discharges from Small Municipal Separate Storm Sewer Systems (MS4s)

Facility ID (if known)

A. Instructions

Important:
When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Submission of this Notice of Intent constitutes notice that the entity named at item B1. of this form intends to be authorized by the DEP General Permit issued jointly with EPA for stormwater discharges from the small municipal separate storm sewer system (MS4), in the location identified at item B2. of this form. Submission of the Notice of Intent also constitutes notice that the party identified at item B1. has read, understands and meets the eligibility conditions of Part I.B. of the NPDES Small MS4 General Permit, agrees to comply with all applicable terms and conditions of the NPDES Small MS4 General Permit, and understands that continued authorization to discharge is contingent on maintaining eligibility for coverage. **In order to be granted coverage, all information required on BRP WM 08A, including the Stormwater Management Program Summary and Time Frames form, must be completed. Please read the permit and make sure you comply with all requirements, including the requirement to develop and implement a stormwater management program.**

B. Applicant Information

1. Small MS4 Operator/Owner Information:

City of Everett

Name

484 Broadway

Mailing Address

Everett

City/Town

(617) 394-2251

Telephone Number

MA

State

Julius.Ofurie@ci.everett.ma.us

Email (if available)

2. Municipality Name

Everett

City/Town

3. Legal Status:

☐ Federal

☒ City/Town

☐ State

☐ Tribal

☐ Private

☐ Other public entity:

Specify Public Entity

4. Other regulated MS4(s) within municipal boundaries:

State highway

5. Based on the instructions provided in Part I of the NPDES Small MS4 General Permit, have the eligibility criteria for "listed species" and critical habitat been met?

☒ yes ☐ pending ☐ no

The U.S. Fish and Wildlife Service has confirmed that there are no federally-listed threatened or endangered species nor any critical habitat in Everett.

D. Stormwater Management Program Summary

1. Public Education:

1-1.1

BMP ID #

Develop and distribute educational material to residential property owners; and post on City web site for municipal employees. Include information on the hazards associated with illicit discharges and improper disposal of waste and steps the public can take to minimize pollution from stormwater runoff

Specify Best Management Practice

Conservation Commission

Responsible Dept./Person Name

Year 1: Procure, develop or adapt one brochure/fact sheet on stormwater issues; post stormwater information on City web site

Years 2 through 5: Distribute information quarterly, utility customers, both residential and commercial, and distribute at City Hall, the library and Waterfront Fairs. Also during Years 2 through 5, post information on the City web site and update the web site semi-annually, and air information on cable television annually.

Specify Measurable Goal

1-1.2

BMP ID #

Revise dog licensing materials to include information on stormwater issues related to pet waste management, and use revised materials. Conduct limited visual survey of City-owned parklands to determine where additional signs, pooper scooper stations or repairs to same may be needed. Install/repair signage and pooper scooper stations in selected locations.

Specify Best Management Practice

Conservation Commission

Responsible Dept./Person Name

Year 1: Revise dog licensing materials.

Years 2 through 5: Use revised materials.

Years 2 and 4: Conduct limited visual survey of City-owned parklands.

Years 3 and 5: Install/repair signage and pooper scooper stations based on survey results.

Specify Measurable Goal

D. Stormwater Management Program Summary (Cont.)

1-2

BMP ID #

Develop and implement an
educational program for
Everett public school children.
Specify Best Management Practice

Director, Mayor's Office of
Community and Economic
Development

Responsible Dept./Person Name

Conceptual and final program
development will occur in
Years 1 and 2, respectively.
The program will be conducted
once annually during Years 3
through 5.

Specify Measurable Goal

2. Public Participation:

2-1

BMP ID #

Establish Stormwater Task
Force
Specify Best Management Practice

Director, Mayor's Office of
Community and Economic
Development

Responsible Dept./Person Name

Identify individuals to serve on
the Task Force within the first
eight months of the permit
period. The task force will
hold at least four meetings per
year. It will prepare and
submit the required annual
reports.

Specify Measurable Goal

2-2

BMP ID #

Implement Catch Basin
Stenciling Program
Specify Best Management Practice

Director, Mayor's Office of
Community and Economic
Development

Responsible Dept./Person Name

Year 1: Contact Mystic River
Watershed Association and/or
other organization and
develop phased stenciling
plan. Years 2 through 5:
Implement phased plan.
Stencil 30% of all City-owned
catch basins over five year
permit term.

Specify Measurable Goal

2-3

BMP ID #

Conduct River Clean-up Day
Specify Best Management Practice

Director, Mayor's Office of
Community and Economic
Development

Responsible Dept./Person Name

Year 1: Develop program and
invite participation of other
organizations. Years 2
through 5: Conduct one clean-
up day annually.

Specify Measurable Goal

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Watershed Management

W035930

Transmittal Number

BRP WM 08A NPDES Stormwater General Permit

Notice of Intent for Discharges from Small Municipal Separate
Storm Sewer Systems (MS4s)

Facility ID (if known)

D. Stormwater Management Program Summary (Cont.)

2-4

BMP ID #

Establish Stormwater Hotline

Specify Best Management Practice

Conservation Commission

Responsible Dept./Person Name

Year 1: Create database of stormwater related issues, including operation and maintenance concerns, possible illicit connections and unusual outfall discharges. During Years 1 through 5, publicize hotline number, update database regularly, undertake follow-up action on 80% of the items. Share data with Engineering Department, DPW, Mayor's Office of Community and Economic Development, and Board of Health.

Specify Measurable Goal

2-5

BMP ID #

Seek easement to waterfront

Specify Best Management Practice

Director, Mayor's Office of
Community and Economic
Development

Responsible Dept./Person Name

Year 1: Propose easement to property owner by Year 2.

Specify Measurable Goal

3. Illicit Discharge Detection and Elimination:

3-1

BMP ID #

Conduct hydraulic study of
drainage system

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Complete hydraulic modeling
by the end of Year 2.

Specify Measurable Goal

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Watershed Management

D. Stormwater Management Program Summary (Cont.)

3-2

BMP ID #

Conduct dry weather outfall screening

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 1: Conduct dry weather screening of up to 25 outfalls. Evaluate those that are observed to have dry weather flow with field screening procedures. Sample outfalls for fecal coliform on two separate occasions. If warranted based upon field screening, conduct additional screening and analysis for some or all of the pollutants in the proposed 2002 "Massachusetts Integrated List of Waters" on up to five outfalls over the permit term beginning in Year 3. Year 5: Conduct dry weather screening of all City-owned outfalls.

Specify Measurable Goal

3-3

BMP ID #

Map stormwater outfalls and show names of receiving waters

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 1: Locate all known City-owned outfalls using GPS and develop a GIS data layer showing those outfalls.

Specify Measurable Goal

3-4

BMP ID #

Map the stormwater collection system in a GIS

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 2: Create a GIS of stormwater system showing locations of known City-owned pipes, manholes, catch basins, outfalls. Attribute information such as pipe size, construction material, age, etc., will be entered into the system where available.

D. Stormwater Management Program Summary (Cont.)

3-5

BMP ID #

Develop and implement a plan
to identify and remove non-
stormwater discharges to the
MS4

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 1: Prioritize outfalls,
evaluate funding sources for
identifying and removing illicit
connections, and develop a
system for maintaining
electronic records of the
program. Conduct field
investigations of prioritized
area to locate and remove
illicit connections within two
years of dry weather field
screening subject to funding
constraints.

Specify Measurable Goal

3-6

BMP ID #

Develop an ordinance to make
it illegal to improperly connect
a sanitary sewer to the storm
drain system or to dump
pollutants into the system

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 1: Draft ordinance and
present to the Mayor/Common
Council/Board of Aldermen. If
ordinance is adopted, develop
and adopt regulations. If not,
repeat in Years 2 through 5.

Specify Measurable Goal

4. Construction Site Runoff Control:

4-1

BMP ID #

Revise Site Plan Review
Ordinance/Regulations/
Procedures

Specify Best Management Practice

Director, Mayor's Office of
Community and Economic
Development

Responsible Dept./Person Name

Year 1: Develop draft changes
to the ordinance. Year 2:
Present proposed changes to
Mayor/Common Council/Board
of Aldermen. If not approved,
revise if necessary and
present in Years 3 through 5
until approved. Develop and
present to Planning Board
revised Site Plan Review
regulations and/or procedures
within six months of adoption
of ordinance.

Specify Measurable Goal

4-2

BMP ID #

Develop site inspection and
enforcement of construction
control measures program

Specify Best Management Practice

Conservation Commission

Responsible Dept./Person Name

Year 2: Develop program.

Years 3 through 5: implement
program.

Specify Measurable Goal

4-3

BMP ID #

Identify Preferred Standard
Construction Site Runoff
Controls

Specify Best Management Practice

Conservation Commission

Responsible Dept./Person Name

Year 1: Identify preferred best
management practices. Year
3: Complete a draft "Preferred
Standard Construction Site
Runoff Controls" document.
Year 4: Distribute to
contractors.

Specify Measurable Goal

4-4

BMP ID #

Develop procedures to receive
and consider information
submitted by the public
regarding stormwater issues
on construction sites

Specify Best Management Practice

Conservation Commission

Responsible Dept./Person Name

Year 1: Create database and
advertise hotline telephone
number. Years 2 through 5:
Accept and document
inquiries, convey information
to appropriate department for
follow-up, review database
monthly.

Specify Measurable Goal

4-5

BMP ID #

Develop site inspection and
enforcement of control
measures program

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 2: Develop program.

Years 3 through 5: Implement
program.

5. Post Construction Runoff Control:

5-1

BMP ID #

Develop post-construction
runoff control ordinance,
regulations, procedures and
guidance

Specify Best Management Practice

Planning Board

Responsible Dept./Person Name

Year 2: Draft the post-
construction runoff ordinance
and hold a public meeting.
Year 3: present the final
ordinance to the Mayor /
Common Council / Board of
Aldermen. Present in Years 4
and 5 if necessary. Present
the regulations, procedures
and guidance to the
appropriate board and conduct
a public hearing thereon within
six months of ordinance
adoption.

Specify Measurable Goal

5-2

BMP ID #

Ensure Adequate Long-Term Operation and Maintenance of BMPs

5-2.1

BMP ID #

Require DPW review of
selected structural BMPs

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 1: Develop draft
procedures for evaluation of
BMPs for operation and
maintenance issues. Year 2:
Develop final procedure.
Years 3-5 implement
procedure.

Specify Measurable Goal

5-2.2

BMP ID #

Establish a mechanism to fund
operation and maintenance of
structural BMPs

Specify Best Management Practice

City Engineer/DPW

Responsible Dept./Person Name

Year 1: Investigate potential
funding mechanisms, develop
a draft funding mechanism,
and hold a public meeting to
solicit input from the
community. Year 2: revise
draft and present to Mayor /
Common Council / Board of
Aldermen. If not adopted,
revise and present in Years 3
through 5.
