Part II. Self-Assessment

Overall, the Town has done a fair job addressing the goals of the Storm Water Pollution Prevention Plan. Back in September of 2002, I was called to active duty with my National Guard unit. In October of 2002, the Town hired Bryarly Lehmann to fill in as DPW Director while I was away. I returned from active duty and again assumed my duties as DPW Director in September of 2003. This sequence of events resulted in the original SWPPP being prepared by Bryarly and then implemented by me. A significant amount of time was devoted to the learning curve, on Bryarly's and my part.

The Town has done a very good job achieving some of the goals of the SWPPP. For example, the Town has made about 75% progress on a Town-wide drainage map detailing outfalls, pipes, catch basins, culverts, and manholes. On the other hand, the Town did a poor job meeting the Public Education and Outreach goals. To show that the Town intends to do much better in this area, I have filed this report a few weeks late so that I could make a significant effort to address these goals in May of 2004.

To summarize, I feel the Town is on track to meet the SWPPP goals for years 2 through 5. If there are questions or comments regarding this report, please contact me at (413) 247-0499 or at jreidy@townofhatfield.org.

Respectfully submitted,

Jim Reidy
Hatfield DPW Director

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 2
