PART II – SELF ASSESSMENT

The Town of Oxford has completed its second year of its stormwater permit and I feel that major steps have been taken to comply with the goals outlined in the five-year plan. The Town of Oxford is in compliance with the conditions of the permit, except for the following items:

BMP 1. (A-E) PUBLIC EDUCATION AND OUTREACH

The various boards and Highway Department have not done a good job in public education or outreach. Money, time and part-time boards have prevented these goals from being completed.

BMP 2. PUBLIC INVOLVEMENT AND PARTICIPATION

As a result of not reaching the goals as stated in BMP 1 A-E, little or no progress was done in meeting the goals in BMP 2 A-F. I feel that both these goals go hand in hand.

BMP 3. ELICIT DISCHARGE AND ELIMINATION

3C. Develop illicit discharge detection and elimination plan and implement activities. Although no formal plan has been implemented, the catch basin cleaning crew has reported all irregularities when they do their yearly cleaning. Examples of their inspections have resulted in an illegal hookup to a catch basin for a washing machine and cat waste being dumped into a catch basin. The Board of Health agent resolved both issues promptly.

PART V-ACCOMPLISHMENTS

BMP 3, 4 AND 5

I feel great strides have been taken in complying with B.M.P. 3, 4 and 5. A G.I.S. Technician has been hired to help in mapping the stormwater system and ultimately identifying the true number of out falls within the Town's stormwater system.

The Town of Oxford at the 2004 October Town Meeting passed the required Stormwater Regulations (see attached), which will enable its Town Departments to properly regulate and enforce the stormwater and erosion issues that occur from time to time within the Town. I also feel that the Town has and has always had a good handle on its housekeeping duties and stormwater runoff controls. The Town of Oxford through its various Boards has always been diligent in its responsibilities toward water quality.
