Part II. Self-Assessment

MARCH 2004-2005

PART II – SELF ASSESSMENT

It is now the third-year of the stormwater permit and BMP 1 (A-E) Public Education and Outreach; BMP 2 Public Involvement and Participation; and BMP 3 Elicit Discharge and Elimination are the three areas that still need to be addressed. Because the various boards are part-time and are continually changing personnel, little progress has been made in achieving the goals within BMP 1 & 2. Available funds are also a factor since the Board of Health and the Conservation Board run on a very limited budget. As I stated last year no formal plan has been implemented for the detection of elicited connections. The catch basin cleaning crew is now aware of what to look for when cleaning the catch basins through out the Town. Heavy emphasis to inspect the units is placed on the older stormwater system where elicited connections are usually discovered. There was one new discovery in 2005 that resulted in the elimination of an illegal discharge of grey water into the stormwater system. It was a washing machine discharge pipe, which was well hidden. The new owners were not aware of this connection. A plumber was called to re-connect the discharge pipe back into the owners septic system outlet pipe. The septic system was rebuilt under Title V when the home was sold. A review of the plan shows that the new system was properly rebuilt to handle the additional grey water. This elicited connection was made when the old system must have given the past owners problems. Better inspection and documentation still needs to be put in place to ensure that this type of elicited connection can be totally eliminated. But, I do feel good knowing that the catch basin cleaning crew is doing their job.

I feel that BMP's (4-6) are being properly met and that these BMP's are truly the heart of the stormwater permit and that they are making a difference since the permit went into effect.

Part III. Summary of Minimum Control Measures - 2004-2005

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) - Permit Year 13 (Reliance on non-municipal partners indicated, if any)	Planned Activities - Permit Year 14

MARCH 2004-2005

PART V-ACCOMPLISHMENTS

As a result of the Town's Stormwater Regulations being passed at the October 2004 Town Meeting, BMP (4, 5 & 6) are now being fully implemented. The various Boards and Departments have incorporated the Stormwater Regulations into their every day permitting process. Any plan near a wetland is reviewed by the Conservation Committee. Any plan coming before the Planning Board must also submit plans on how they are going to deal with onsite stormwater along with a maintenance plan. Any Building Permit application is reviewed for possible stormwater issues. All plans and/or permits that do require stormwater control measures are reviewed by an independent engineering firm (Peer Review) that has expertise in such matters. Department heads from the D. P. W. and Engineering/Planning offices meet once a week with the Conservation agent, Building Inspector and the Board of Health Agent to review any problems, including stormwater issues that maybe common to all departments. This meeting provides input from all members of what is going on within the Town. An onsite inspection from any department that witnesses a violation of any kind, including stormwater, can relay this violation to the proper department. It then will be brought up at the next weekly meeting as to what was the result of this violation. This allows each department to be informed so that all the departments can act as one authoritative body. An example of this overlapping inspection happened at a subdivision that was being constructed. After a heavy rainstorm the Building Inspector noticed major erosion and silt entering into the catch basin system. This resulted in the catch basins becoming full with silt and the detention pond at the end of the main stormwater outlet was slightly discolored. A cease and desist order was issued to the developer using the guidelines from the Stormwater Regulations By-Law. All permits were suspended until such time that the situation was resolved. No monetary penalty was needed to enforce a resolution to the problem.

The developer quickly responded and has since continued to monitor all other land disturbance areas within his subdivision.

From October 9, 2005 to October 16, 2005 the Town of Oxford received an excessive amount of rain. It rained approximately one inch of rain each day, culminating on October 14-15 when we received over five (5) inches of rain in a twelve (12) hour period. The total amount of rainfall placed the event into 250-year storm event. Although the Town faired relatively well overall. It showed the D. P. W. where the existing problems are within the Town's infrastructure, so that future planning can resolve these areas of concern.

Part IV. Summary of Information Collected and Analyzed

Part V. Program Outputs & Accomplishments (OPTIONAL)

Programmatic

Stormwater management position created/staffed	(y/n)	
Annual program budget/expenditures	(\$)	\$4000.00
		ONLY FROM EXISTING BUDGET

Education, Involvement, and Training

Estimated number of residents reached by education program(s)	(# or %)	NONE
Stormwater management committee established	(y/n)	NO
Stream teams established or supported	(# or y/n)	NO
Shoreline clean-up participation or quantity of shoreline miles cleaned	(y/n or mi.)	NO
Household Hazardous Waste Collection Days		
▪ days sponsored	(#)	0
▪ community participation	(%)	0
▪ material collected	(tons or gal)	0
School curricula implemented	(y/n)	YES
		ELEMENTARY SCHOOLS HAVE A EARTH DAY EVENT

TOWN OF OXFORD EMPLOYMENT OPPORTUNITY LAND MANAGEMENT/Planning Assistant

The Town of Oxford is currently accepting applications/resumes for the position of Planning Assistant in the Land Management Department. The successful applicant should have: experience in office work, including familiarity with common word processing and data management software such as Word, Excel, and Access; a basic knowledge of local government procedures such as Town Meeting, Board meetings, and the open meeting law; a working knowledge of Land Use Law or equivalent experience.

This position is part-time with benefits (20 to 30 hours per week) and is classified at Level 9 with a starting hourly pay rate of \$13.68 to \$14.71.

Please send resume with cover letter to Town Manager's Office, 325 Main Street, Oxford, MA 01540, by 10 March 2006. Job description available upon request or at the Positions Available page of the Town's website (www.town.oxford.ma.us).

An Equal Opportunity/Affirmative Action Employer
