

## REGION 6

DALLAS, TX 75270

April 1, 2025

Tom Wynn  
Phillips 66 Remediation Management Program Manager  
Phillips 66 Company  
1708-02 Phillips Building  
420 South Keeler Ave.  
Bartlesville, Oklahoma 74006

Dear Mr. Wynn:

The United States Environmental Protection Agency (EPA) has reviewed the Revised Polychlorinated Biphenyl (PCB) Clean-Up Plan submitted in November 2024. Phillips 66 Company requested approval of the cleanup plan under a risk-based (761.61(c)) cleanup and disposal. The EPA implements the Toxic Substance Control Act (TSCA) PCB program and coordinates with states when reviewing applications for risk-based approvals under 40 CFR 761.61(c) to determine whether the proposed cleanup will not pose an unreasonable risk of injury to health or the environment. After reviewing your application, in conjunction with all applicable regulatory factors, and coordinating with the Texas Commission on Environmental Quality (TCEQ), the EPA approves your workplan dated November 2024.

To assist your cleanup, please refer to the technical resource manual for controlling fugitive dust releases at the PCB cleanup site (<https://www.epa.gov/pcbs/policy-and-guidance-polychlorinated-biphenyls#Fugitive%20Dust>). Please keep the EPA informed on progress of the cleanup and submit a PCB Cleanup Completion Report to this Office following the completion of this cleanup.

If Phillips 66 Company enters into an agreement to sell or transfer the property to a new owner, Phillips 66 Company shall advise the new owner in writing of this EPA risk-based PCB remediation approval and must notify the EPA and TCEQ 30 days prior to any change in ownership of the property. The conditions of this approval will apply to any successive owners of the property.

The EPA Region 6 will publish a public notice in the local newspaper to enhance the awareness and outreach of the cleanup to the impacted communities. If you have any questions regarding this matter, please contact Courtney Allen of my staff at [allen.courtney@epa.gov](mailto:allen.courtney@epa.gov) or (214) 665-6630.

Sincerely,

Helena Healy  
Director  
Land, Chemicals and Redevelopment Division
