Part II. Self-Assessment

Plainville had hoped to have made more progress toward its stormwater goals. However, unlike most communities in Massachusetts, the board having jurisdiction over drainage in Plainville is the Board of Health. That has been done deliberately in that the Board of Health has the authority to draft and implement regulations without the requirement of going to Town Meeting for approval. The end result has been that our regulations dealing with drainage are among the most comprehensive in the Commonwealth.

Additionally, as a small community of under 8,000 Plainville has obvious limitations on staff. Those limitations notwithstanding, we have made a concerted effort to add to our “environmental staff”. We now have a full time Planner, and during this reporting period, funded a full time Health Agent for the ensuing year. Each of these positions will take on a much more significant part in forwarding progress on our Stormwater goals.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 3 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 4
Revised					
2	Design and distribute brochures	S/W Manager	Raise Public awareness	Brochures converted to electronic format for editing and subsequent distribution	Brochures made available to the public at various locations
Revised					
3	Stencil Storm Drains	Highway Dept	Identify MS4	Stencils have been acquired	Stencil all storm drains
Revised					
4	Educate Students	S/W Educators & Teachers	Classroom Presentations	Geosyntec Consultants is creating an educational presentation	Do educational presentations in classrooms
Revised					
Revised					
Revised					

1a. Additions

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 3 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 4
5 Revised	Form Technical Committee (T.C.)	S/W Manager	T.C. provides technical assistance	The Town has added to its “environmental staff” and has incorporated them into our stormwater management efforts going forward.	Additional staff will now be part of our Technical Committee
6 Revised	T.C. Reviews General Permit	T.C.	S/W Goals Identified	In house staff now charged with reviewing appropriate aspects of the Permit	Staff is now the Technical Committee to carry out goal
7 Revised	T.C. Develops Strategy	S/W Manager	Changes Made to Local Regulations	Board of health incorporated BMP’s into applicable drainage regulations for subdivisions and commercial development	Continuance of regulation review for efficacy and potential regulation changes
8 Revised	Residents Help Enforce Illicit Discharge Regulations	Health Agent	Residents Report Violations	All reports are logged and investigated for action by Health Agent	Continue current process and outreach to community to encourage additional citizen reporting
Revised					
Revised					

2a. Additions

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 3 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 4
9 Revised	Map Outfalls and MS4	Highway Superintendent	Map MS4	Norfolk County Engineering Department has located all outfalls in urbanized area	Development and Acquisition of actual map by Norfolk County Engineering Department
11 Revised	Draft Illicit Discharge By-law	Highway Supt and Environmental Staff	Town Meeting adopts bylaw	Review of existing regulations (Local, State, and Federal) reveals usable tools to regulate and enforce stormwater management through authority of Board of Health	Continuance of enforcement of existing regulations.
12 Revised	Enforcement of Bylaw	Board of Health and Health Agent	Discourage Violations	Board of Health and new Health Agent adopt and implement ticketing system to fine violators	Continuance of enforcement of existing regulations
Revised					
Revised

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 3 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 4
21 Revised	Clean catch basins regularly	Highway Dept	Prevent debris from entering MS4	All catch basins were cleaned	Continue to clean catch basins
22 Revised	Sweep Streets regularly	Highway Department	Prevent sand and debris from entering MS4	All streets were swept after snow season	Continue to sweep streets
23 Revised	Use E&S controls for road repairs	Highway Dept	Prevent Erosion into MS4	Erosion controls are used as necessary by Highway Department and required of private contractors as necessary	Continue to enforce erosion controls and establishment of road opening bylaw which further defines requirements
24 Revised	Cover outside drums and salt	Highway Dept	Prevent leachate from entering MS4	All salt piles are now stored under cover	Continue storage
Revised					
Revised					

6a. Additions

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA) <<if applicable>>

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 3 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 4
25 Revised	Does MS4 discharge into impaired body?	Highway Supt	Show MS4 outfalls into Category 5's on map	All outfalls potentially effecting Category 5's have been located by Norfolk County Engineers	Delineate outfalls on Map
26 Revised	Identify pollutants discharging from MS4 into Category 5's	Highway Supt	Isolate pollutants	Identification ongoing with Norfolk County Engineers	Finish identification, if any, and draft applicable requirements and regulations to prevent discharge
27 Revised	Search for source of Pollutant	Highway Supt	Assign responsibility for correction	Search and monitoring ongoing	Assign responsibility for correction once identified
28 Revised	Reduce Pollutants discharging from MS4 into Category 5's	Health Supt	Enforce illicit discharge bylaw	Progress limited	Find more effective enforcement methodology
