Part II. Self-Assessment

The Town of Rutland has successfully implemented all the measurable goals, or modified measurable goals noted in the Notice of Intent with the exception of items 3e, 4e, and 5e. These items are related to adopting the Illicit Discharge Detection & Elimination, Construction Site Runoff Control and Post Construction Runoff Control Bylaws, respectively. While the draft bylaws have been developed and reviewed by the Board of Selectmen and Town Counsel, they have not yet been formally adopted. The town has determined that the most effective way to adopt these regulations is to assimilate them into the existing Planning Board Regulations. The town is currently working on this and they will be formally adopted upon completion of this task.
