Re: Small MS4 Annual Report; **Permit Number MA041223/MaDEP**

Dear Mr. Gray,

Accompanying this memo is the required annual report for the Town of Stow's Stormwater Management Program under NPDES Phase II.

Respectfully,

Michael Clayton

Part II. Self-Assessment

The Town of Stow has completed the required self-assessment for Year 5, and it has been determined that the Town is in compliance with the Permit, with the exception of the following variations from the Stormwater Management Program Summary that was issued as part of the Notice of Intent:

Section D-2. Public Participation: The materials submitted to us by SuAsCo for Year 1 (traveling stormwater display) has been displayed each year since Year 1 at Stow's annual Spring Festival held each May and is continually on display at the Stow Town Building. This display creates opportunities for the public to ask questions and to receive, hear, participate, and learn about stormwater and its effects. Members of the Planning Board Subcommittee and Spring Festival Committee helped to answer questions and explain traveling display about stormwater. We believe the Town was able to meet the minimum requirements for public participation and outreach through events such as the Spring Festival.

All of the other BMPs have been completed and many of the measurable goals were attained well in advance of the timetable that is set forth in the program summary. These are noted in the "Progress" columns on the following pages.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach
