Part II. Self-Assessment

The Town of Swansea, Massachusetts has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions, except for the following provisions:

Part I.B.2(e): The Town's permit eligibility with regard to the Endangered Species Act was pending at the time of our NOI submission. The US department of the Interior Fish and Wildlife Service has since provided written determination (letter dated 8/28/03) that no federally-listed or proposed, threatened or endangered species or critical habitat under the jurisdiction of the U.S. Fish and Wildlife Service are known to occur in the project area.

Part I.B.2(g): The Town's permit eligibility with regard to the National Historic Preservation Act was pending at the time of our NOI submission. During Year 1, a letter was sent to the local Historic Commission requesting assistance in determining if any historic properties are known to be within the path or immediate area of any of the City's existing stormwater discharges and if so, whether or not the stormwater discharge has the potential to adversely impact the historic property. As of this date, this remains a pending issue.

Part II. F: The annual report for Year 1 was due to EPA-NE and MADEP on May 1, 2004. The Town was not able to meet this deadline due to recent issues with staffing and funding.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) -- Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities -- Permit Year 2
