Subject: Request for Termination of Minor NSR Permit T-0007-CA.

Dear Sir or Madam:

The Bureau of Reclamation is requesting termination of Minor NSR Permit T-0007-CA.

Booster pumps were never installed or used at the Laguna Reservoir Restoration Project. Review of the project, and discussion with the Project Manager has now determined that booster pumps will not be needed on this project. Therefore, Reclamation is requesting termination of this permit.

Reclamation previously requested a revision to the permit, dated March 02, 2018; we are asking for that request to be disregarded and the permit terminated.

For questions regarding this agreement, please contact Mr. Bryon Green at 928-343-8201, 928-246-2315, or bhgreen@usbr.gov.

Sincerely,
JULIAN DESANTIGAO
