Subject: URGENT: ACTIVE SPOILIATION, TITLE VI VIOLATIONS, & THE MANUFACTURED DECAY OF (b) (6) Privacy, (b) (7)(C) Enf. Privacy

Attorney Watson,

1. ACCUSATION OF CONSTRUCTIVE SPOILIATION (The "Shell Game") (b) (6) Privacy, (b) (7)(C) Enf. Privacy has documented a sudden, frantic mobilization of salvage vehicles initiating from (b) (6) Privacy, (b) (7)(C) Enf. Privacy and being relocated to the adjacent horizontal tracts at (b) (6) Privacy, (b) (7)(C) Enf. Privacy

The Timeline of the Cover-Up: Our surveillance confirms this mobilization began during the holiday window of **December 23, 2025 – January 8, 2026**, and accelerated immediately after our Notice of Default.

- **The Charge:** We allege that Georgetown County ("George") officials, utilizing the cover of the holiday season, instructed residents to shuffle this toxic inventory to sanitize the 'visuals' before a Federal inspection.
- **The Consequence:** We are immediately filing **FOIA requests for all Metadata, Call Logs, and Emails** between "George" Code Enforcement and the property owners of (b) (6) Privacy, (b) (7)(C) Enf. Privacy dating back to **January 1, 2024**. We will prove that for 24 months "George" did nothing, and only acted to conceal evidence once the Audit began.

2. TITLE VI & THE "MANUFACTURED SLUM" (b) (6) Privacy, (b) (7)(C) Enf. Privacy will explicitly document how "George" has willfully allowed a historic Gullah/Geechee community—settled 150 years ago by freedmen—to be desecrated and morphed into an **Environmental Sacrifice Zone** and a **State-Sanctioned Blight**.

- **The Comparison:** We reject the excuse of 'Tax Base.' We need only look at the neighboring communities of **DeBordieu** and **Prince George**—areas that thrive and sparkle with County support—to see that "George" knows how to maintain a neighborhood when it chooses to.
- **The Violation:** By providing world-class infrastructure to wealthy enclaves while allowing (b) (6) Privacy, (b) (7)(C) Enf. Privacy to drown in toxins and trash, "George" is in direct violation of **Title VI of the Civil Rights Act**, which strictly prohibits providing inferior services based on race or socio-economic status.
- **The Mandate:** No more excuses. You **WILL** spend HUD-granted monies in this neighborhood. You **WILL** honor these residents with dignity. We are done allowing "George" to strip these historical boundaries as unimportant.

3. PRESERVATION ORDER: (b) (6) Privacy, (b) (7)(C) Enf. Privacy While the shell game occurs at (b) (6) Privacy, (b) (7)(C) Enf. Privacy, (b) (6) Privacy, (b) (7)(C) Enf. Privacy **must remain explicitly untouched**. The vegetation and sinking tires prove a 25-year timeline of negligence. Any attempt to disturb this site will be viewed as **Destruction of Evidence**.

4. THE AQUIFER THREAT (The "Ticking Clock") While "George" plays games, the water table is at risk. A single gallon of leaked petroleum can contaminate **1,000,000 gallons of groundwater**. Every day you delay proper testing to 'hide' the cars, you are potentially poisoning the water supply for thousands of residents.

5. NATIONAL MEDIA ESCALATION Be advised: We are preparing briefs for **National Correspondents**.

- The narrative of '**A Southern County poisoning a Historic Gullah/Geechee Community to protect the property values of wealthy neighbors**' is a story the world will be interested in.
- We will place "George" on the front page of the national news cycle. Do not test our resolve.

STOP THE MOVEMENT. TEST THE SOIL. WE DEMAND A WORLD-CLASS NEIGHBORHOOD.
