Title: Town Manager

Date: April 27, 2017

Part II. Self-Assessment

The Town of Chatham has completed the required self-assessment and has determined that our municipality is working toward full compliance as submitted to EPA and approved as Chatham's NOI to the General Permit issued to Massachusetts under Phase II of the Regulations. This annual report demonstrates and documents our efforts toward full compliance.

The Town of Chatham continues to work aggressively to address stormwater problems identified through past shoreline sanitary surveys and other water quality programs. Stormwater evaluation and BMP designs are now routinely incorporated into road and sewer collection system expansion projects to reduce or eliminate stormwater discharge(s) into sensitive resource areas. New municipal facilities are incorporating stormwater BMPs into facility design.

Since the beginning of the Phase II Program in Chatham 13 stormwater discharges have been mitigated through installation of stormwater BMPs. In most cases the direct discharge of stormwater has been eliminated through the installation of infiltration BMPs, in several cases the stormwater has been directed to treatment BMPs prior to discharge.

The Town continues engineering, permitting, and implementation of projects involving stormwater mitigation. The Muddy Creek Restoration Bridge Project, a cooperative project of Chatham, Harwich, MA Division of Ecological Restoration, and US Fish & Wildlife Service, was completed in April 2016. As a result of Project completion the direct discharge of stormwater to Muddy Creek has been eliminated (former site CHA-22). The new bridge incorporates treatment BMP's for solids removal and infiltration prior to overflow discharge to vegetated shoulders eliminating discharge to Muddy Creek. The site is very space constrained due to the proximity of wetlands and open water and thus the use of nutrient specific BMP's was not feasible. Water quality monitoring has been underway since Project completion to document improvements.

The Mitchell River Bridge Project, a MassDOT-Highway project was completed in June 2016. This project incorporates stormwater BMPs for the approach road sections providing treatment and infiltration prior to any overflow being discharged to the Mitchell River (CHA-8).

The Town continues dialogue with MassDOT - Highway to address stormwater runoff from state road Route 28 as part of planned upgrades of the roadway. State funding limitations continue to stymie actual progress on remediation.

Stormwater mitigation improvements in the area of the Little Mill Pond Landing (CHA-15) were completed during the previous reporting period as part of sanitary sewer extensions installed as part of Phase 1C of the town's Comprehensive Wastewater

Management Plan. Additional stormwater mitigation at this location has been incorporated into the final designs for upgrade of the adjacent sewer pump station, this project is expected to go out to bid in later 2017. Stormwater improvements continue to be incorporated into other phases of the wastewater project.

In January 2015 the Town was selected to participate in an EPA stormwater BMP demonstration project targeting nitrogen removal as part of the Southeast New England Coastal Watershed Restoration program. This project is designed to demonstrate the feasibility and efficacy of an innovative surface gravel wetland design for the removal of nitrogen as an “add-on” to existing stormwater infrastructure. Construction of the project was completed and the system brought on-line during the previous reporting period. EPA continues to finalize monitoring protocols, SOPs, etc. with the expectation of monitoring beginning in mid-2017 following system acclimation/stabilization and EPA funding availability. Monitoring will continue for several years and the project used as an educational/demonstration resource for other Cape and SE Massachusetts communities.

The Town believes that these actions, as well as others completed prior to the Phase II Permit, demonstrate Chatham’s ongoing commitment to addressing stormwater issues.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
1.1	Educational Flyer	Department of Natural Resources (DNR) (formerly Health & Environment (DHE))	Distributed Annually	Goal met. Continued distribution of educational materials at municipal office locations, during public events, and during public information presentations. Continued cooperation in the development and distribution of materials with the Pleasant Bay Alliance. Cape Cod as a	Preparation and distribution of educational materials on irrigation and its impact on stormwater. Continued participation in development efforts for a Cape Cod stormwater collaborative to develop and implement a coordinated, unified educational program.

Revised				region has been engaged in multiple discussions regarding formation of a “stormwater collaborative” in response to the new MS4. A goal of a collaborative would be work toward development of a coordinated educational program.	
1.2	Web Page	DNR	Develop & Maintain	Goal met. Storm water information/education web page maintained on Town’s web site. Has information from and links to EPA, MADEP and regional storm water web sites. IT Dept. indicates 152 views for reporting period.	Maintain and update web page as needed.
Revised					
1.3	Annual Program Review	DNR, DPW, Board of Selectmen	Meeting held per schedule	Goal met. Progress/update meeting held annually as part of yearly budget process.	Same as year 14. Program, budget discussions will be enhanced in response to new MS4 Permit.
Revised					
1.4	Pet Waste Control	DNR, Animal Control	Expand/document Mutt Mitt program	Goal met. Mutt Mitt program continues to be a	Same as Year 14.

Revised				success. The program has expanded as neighborhoods have joined the core program funded and maintained by the Town. The total number of Mutt Mitt dispenser locations in Chatham is now over 23. In excess of 40,000 Mutt Mitts distributed in calendar year 2016.	
Revised					

1a. Additions

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
2.1	Citizen Water Quality Monitoring	DNR	Program goals met/annual meeting held	Goal met. Summer water quality nutrient monitoring completed as per program goals. Continued coordination with Chatham Water Watchers and Pleasant Bay Alliance to meet program goals.	Same as Year 14.
Revised					
2.2	Storm Drain Marking	DNR	Document number marked/year	Effort postponed to Year 15 for re-evaluation of program effectiveness.	Evaluate effectiveness of storm drain marking programs.
Revised					

2.3	Annual Program Review	DNR, DPW, Board of Selectmen	Meeting held per schedule	Goal met. Progress/update meeting held annually as part of yearly budget process.	Same as Year 14.
Revised					Program, budget discussions will be enhanced in response to new MS4 Permit.
2.4	Household Hazardous Waste Collections	DNR	Document participation	Goal met. Six household hazardous waste collections were held May through October 2016, jointly with 2 adjoining towns, in cooperation with Cape Cod Cooperative Extension. In 2016 260 Chatham households participated, compared to 223 in 2015; generating approximately 240,000 lbs of material, up from the 20,000 lbs collected in 2015.	Same as Year 14.
Revised					
2.5	Web Page	DNR	Documents hits	Goal met. Storm water information/education web page maintained on Town's web site. Has information from and links to EPA, MADEP and regional storm water web sites. IT Dept. indicates 152 views for reporting period.	Maintain and update web page as needed.
Revised					
Revised					

2a. Additions

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
3.1	Stormwater System Mapping	DNR, DPW, GIS	Complete mapping by year 4 of program	Integration into GIS system and QA/QC is ongoing as resources allow.	Consultant being hired to complete integration into GIS system.
Revised					
3.2	Identify and Document Illicit Connections	DPW, DNR	Document illicit connections	Progress limited to due staff time limitations. Past monitoring of discharges during DMF Sanitary Surveys have not documented the presence of illicit discharges.	Staff training in the detection of illicit discharges. Continued monitoring of discharges during DMF Sanitary Surveys.
Revised					
3.3	Eliminate Illicit Connections	DPW, DNR	Quantify illicit connections corrected	Discharges are being corrected as part of overall efforts to mitigate stormwater discharges.	Continue monitoring.
Revised					
3.4	Review Existing Regulatory Mechanisms	DNR	Complete review by December 2004	No progress, due to staff time limitations.	Complete review and recommend necessary additions/changes.
Revised					
3.5	Educational Flyer	DNR, DPW	Distributed annually	No progress, due to staff time limitations.	Continued participation in development efforts for a Cape Cod stormwater collaborative to develop and implement a coordinated, unified educational program.
Revised					
Revised					

3a. Additions

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
4.1	Conservation Bylaw/Regulation Review	Conservation Commission/DNR	Necessary regulatory changes implemented	Goal met.	Continue review and recommend additions/changes as new information becomes available.
Revised					
4.2	Subdivision Control review	Planning Board, Community Development Dept.(CDD), DNR	Necessary regulatory changes implemented	Goal met.	Continue review and recommend additions/changes as new information becomes available.
Revised					
4.3	Site Plan Review	Planning Board, CDD, DNR	Necessary regulatory changes implemented	Planning Board and CDD undertaking a complete re-write of the town's zoning bylaw. Proposed changes include revisions to site plan review; expected completion date TBD.	Re-program to year 15. Planning Board initiated review of needed changes late in Year 10 will continue into Year 15. Review as proposed bylaw changes are promulgated for comment.
Revised					
Revised					
Revised					

4a. Additions

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
5.1	Conservation Bylaw/Regulation Review	Conservation Commission/DNR	Necessary regulatory changes implemented	Goal met.	Continue review and recommend additions/changes as new information becomes available.
Revised					
5.2	Subdivision Control Review	Planning Board, CDD, DNR	Necessary regulatory changes implemented	Goal met.	Continue review and recommend additions/changes as new information becomes available.
Revised					
5.3	Site Plan Review	Planning Board, CDD, DNR	Necessary regulatory changes implemented	Planning Board and CDD undertaking a complete re-write of the town's zoning bylaw. Proposed changes include revisions to site plan review; expected completion date TBD. Goal is dependent on community consensus on proposed zoning changes; this has been illusive so far.	Re-program to year 15. Planning Board initiated review of needed changes late in Year 10 will continue into Year 1. Review as propose bylaw changes are promulgated for comment.

5a. Additions

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
6.1	Catch Basin Cleaning	DPW	Clean/document 1/3 of town basins per year	Goal met.	Same as Year 14.
Revised					
6.2	Street Sweeping	DPW	Sweep/document roads once per year	Goal met.	Same as Year 14.
Revised					

6.3	Utilize Appropriate BMP's for All Municipal Projects	DHE, DPW, Building Maintenance	Document implementation	Goal met, ongoing. Mitchell River Bridge replacement project completed incorporating stormwater BMPs (CHA-8). Muddy Creek Restoration Bridge Project, a cooperative project of the towns of Chatham and Harwich working cooperatively with MassDOT-Highway, USDA NRCS, and MA Div. of Ecological Restoration, completed incorporating stormwater BMPs (CHA-24). EPA grant funded nutrient removal stormwater BMP retrofit construction completed and system put on-line. EPA funded monitoring to begin in next reporting period.	Continue implementation of BMP's and initiate design for new projects.
Revised					
6.4	Pet Waste Control	DNR, Animal Control	Expand/document Mutt Mitt program	Mutt Mitt program continues to be a success. The program has expanded as neighborhoods have joined the core program funded and maintained by the Town. The total number of Mutt Mitt dispenser locations in Chatham is now over 23. In excess of 40,000 Mutt Mitts distributed in calendar year 2016.	Same as Year 14.

Revised					
6.5	Annual Training	DPW, DNR	Held annually/participation documented.	Staff attends training provided by third party organizations, MassDOT, professional organizations, etc. Staff attended multiple trainings provided by EPA, MA DEP, and other organizations on the new MS4 Permit.	Continued utilization of outside opportunities.
Revised					
Revised					

6a. Additions

6.6	Stormwater staff Education/Training	DPW, DNR	Document participation.	DNR Director Chaired meetings of Cape Cod town staff on the creation of a regional stormwater collaborative. Grant proposals have been written to support development of stormwater collaborative to 319 Program and local Land-use Planning Agency for Direct Local Technical Assistance (DLTA) funding. Notice was received at the end of reporting period that the latter request was funded.	Continue professional education as opportunities arise. Continued participation in development efforts for a Cape Cod stormwater collaborative.
6.7	DPW Permit Filing	DPW	File for applicable Conservation Permits	Goal Met. DPW routinely files for applicable permits.	Continue to file as applicable.

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA) <<if applicable>>

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 14 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 15
7.1	No Discharge Area (NDA)	DHE	NDA enacted	Goal met. All Chatham near-shore and coastal waters now covered by No Discharge Area designation.	Ongoing public education. Operate and maintain vessel pump-out facilities.
Revised					
7.2	Comprehensive Wastewater Management Plan (CWMP)	DNR, Water & Sewer Advisory Committee, Water & Sewer Commissioners	CWMP completed. Town Meeting action to fund implementation.	Phase 1A of sewer expansion completed and new Enhanced Nutrient Removal (ENR) treatment facility operational. Sewer expansion Phase 1B completed. Sewer Expansion Phase 1C-1 completed during reporting period. Design of sewer expansion contracts 1C-2 to 1C-5 continued.	Complete engineering design for Phase 1C-2 to 1C-5 contracts, bid and begin construction.
Revised					
7.3	Muddy Creek Restoration Bridge Project	DNR, DPW, MassDOT, Town of Harwich and other partners	Stormwater improvements implemented.	Project completed, including stormwater improvements that eliminate pre-existing direct discharge to waterway.	Continue water quality monitoring.
Revised					
Revised					
Revised					
Revised					

7a. Additions

7.3			Completed		
7.4	Fertilizer Management	DHE	Implement fertilizer management BMPs	Implement Board of Health fertilizer regulation. Distribute educational flyer on fertilizer regulation. Work with Cape Cod Cooperative Extension on implementation of fertilizer applicator certification program.	Same as Year 143.

7b. WLA Assessment

Part IV. Summary of Information Collected and Analyzed

The Town of Chatham was the first Massachusetts community to have nitrogen-loading thresholds (TMDLs) completed as part of the MADEP's Massachusetts Estuaries Project. The thresholds were incorporated into the town-wide Comprehensive Wastewater and Nutrient Management Planning Program. Final CWMP/Final EIR completed and approved; Phase 1A, 1B & 1C-1 sewer expansions completed and new Enhanced Nutrient Removal (ENR) wastewater treatment facility completed and operational. Engineering design underway for Phase 1C-2 to 1C-5 contract sewer expansions, SRF and local funding appropriation obtained. Stormwater improvements are incorporated into all contracts as necessary.

Part V. Program Outputs & Accomplishments (OPTIONAL)

Programmatic

Stormwater management position created/staffed	(y/n)	1, collateral duty
Annual program budget/expenditures	(\$)	\$20,000*

* Specific funding for Phase II implementation, in addition to DPW funding for routine drainage maintenance/improvements.

Education, Involvement, and Training

Estimated number of residents reached by education program(s)	(# or %)	
---	----------	--

Stormwater management committee established	(y/n)	
Stream teams established or supported	(# or y/n)	
Shoreline clean-up participation or quantity of shoreline miles cleaned	(y/n or mi.)	Yes
Household Hazardous Waste Collection Days		Yes
▪ days sponsored	(#)	6
▪ community participation	(%)	260 households.
▪ material collected	(tons or gal)	Est. 24,000 pounds.
School curricula implemented	(y/n)	

Legal/Regulatory

	In Place Prior to Phase II	Under Review	Drafted	Adopted
Regulatory Mechanism Status (indicate with “X”)				
▪ Illicit Discharge Detection & Elimination		X		
▪ Erosion & Sediment Control		X		
▪ Post-Development Stormwater Management		X		
Accompanying Regulation Status (indicate with “X”)				
▪ Illicit Discharge Detection & Elimination		X		
▪ Erosion & Sediment Control		X		
▪ Post-Development Stormwater Management		X		

Mapping and Illicit Discharges

Outfall mapping complete	(%)	100
--------------------------	-----	-----

Estimated or actual number of outfalls	(#)	30
System-Wide mapping complete	(%)	100
Mapping method(s)		
▪ Paper/Mylar	(%)	
▪ CADD	(%)	
▪ GIS	(%)	60
Outfalls inspected/screened	(# or %)	All As part of shoreline sanitary surveys
Illicit discharges identified	(#)	
Illicit connections removed	(#) (est. gpd)	
% of population on sewer	(%)	Approx. 12
% of population on septic systems	(%)	88

Construction

Number of construction starts (>1-acre)	(#)	
Estimated percentage of construction starts adequately regulated for erosion and sediment control	(%)	
Site inspections completed	(# or %)	
Tickets/Stop work orders issued	(# or %)	
Fines collected	(# and \$)	
Complaints/concerns received from public	(#)	

Post-Development Stormwater Management

Estimated percentage of development/redevelopment projects adequately regulated for post-construction stormwater control	(%)	
Site inspections completed	(# or %)	
Estimated volume of stormwater recharged	(gpy)	

Operations and Maintenance

Average frequency of catch basin cleaning (non-commercial/non-arterial streets)	(times/yr)	1/3 OF TOWN PER YEAR
Average frequency of catch basin cleaning (commercial/arterial or other critical streets)	(times/yr)	1/3 OF TOWN PER YEAR
Total number of structures cleaned	(#)	400±
Storm drain cleaned	(LF or mi.)	600 L.F.
Qty. of screenings/debris removed from storm sewer infrastructure	(lbs. or tons)	10 tons
Disposal or use of sweepings (landfill, POTW, compost, recycle for sand, beneficial use, etc.)		COMPOST.
Cost of screenings disposal	(\$)	

Average frequency of street sweeping (non-commercial/non-arterial streets)	(times/yr)	1
Average frequency of street sweeping (commercial/arterial or other critical streets)	(times/yr)	3
Qty. of sand/debris collected by sweeping	(lbs. or tons)	40 tons
Disposal of sweepings (landfill, POTW, compost, beneficial use, etc.)	(location)	COMPOST

Cost of sweepings disposal	(\$)	
Vacuum street sweepers purchased/leased	(#)	1
Vacuum street sweepers specified in contracts	(y/n)	

Reduction in application on public land of: (“N/A” = never used; “100%” = elimination)		
▪ Fertilizers	(lbs. or %)	
▪ Herbicides	(lbs. or %)	
▪ Pesticides	(lbs. or %)	

Anti-/De-Icing products and ratios	% NaCl % CaCl ₂ % MgCl ₂ % CMA % Kac % KCl % Sand	50 50
Pre-wetting techniques utilized	(y/n)	No, available but not used last winter
Manual control spreaders used	(y/n)	
Automatic or Zero-velocity spreaders used	(y/n)	Yes
Estimated net reduction in typical year salt application	(lbs. or %)	
Salt pile(s) covered in storage shed(s)	(y/n)	Yes
Storage shed(s) in design or under construction	(y/n)
