

Addendum to the PM_{2.5} Chemical Speciation Network (CSN) Field Sampling Quality Assurance Project Plan (QAPP) Template

NOTE: This addendum does not alter the original approval date or period of applicability of the QAPP.

Prepared Date: February 23, 2026

Due to the reorganization within EPA, the following reflect the updates to the offices, divisions, and groups referenced in the QAPP:

- The Office of Air Quality Planning and Standards (OAQPS) is now the Office of State Air Partnerships (OSAP).
- The Ambient Air Monitoring Group (AAMG) is now the Ambient Air Monitoring Branch (AAMB). The CSN Program Lead role is filled by AAMB staff and is responsible for the execution of the CSN.
- The Quality Assurance (QA) Lead role for CSN is now filled by staff in the Air Monitoring Technology Branch (AMTB) and is responsible for ensuring the quality of the CSN data.
- The EPA Office of Research and Development has been dissolved.
