Part II. Self-Assessment

The Town of Raynham, MA has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions except for the following provisions:

Section 2.2 –Illicit Discharge Detection & Elimination By-law has not been accepted as a Town by-law as of this date. Budget cuts have eliminated the Town’s conservation agent position hampering efforts to move it forward. Also, our Town Planner retired in early December and has not been replaced. However, the Town has continued to enforce health regulations preventing most illegal discharges to the Town’s stormwater system. 80% of the town is sewerred (and it’s headed toward 90% with the current phase).

Part IV. Summary of Information collected and Analyzed

Town is now approximately 80% sewerred and many illegal connections that may have existed have been eliminated. No illegal connections were detected during this reporting period.

100% of catch basins have been stenciled; some have been re-stenciled.

All streets were swept of sand and salt at least once. Some of the Town's major arteries were swept twice.

Highway Department checked and maintained all (100%) of the detention/retention basins in Town thanks to a fund established in 1988. Developers pay a \$500 per lot fee into a perpetual maintenance account established for the purpose of maintaining stormwater structures in subdivisions. Approximately \$18,000 was spent on maintenance from this fund during this reporting period.

All catch basins were cleaned during reporting period (1664 of them). These were checked for dry weather flows at the time of cleaning.

All construction sites were inspected for adequate erosion and sediment control, although the number of construction sites was greatly diminished due to the depression in housing construction and building generally. Only two large project (greater than 1 acre) was constructed during time period

Annual Household Hazardous Waste Day was held at the Town's recycling and transfer station as usual. About 120 residents brought household hazardous waste to this event in June of 2012

There were no reports of illegal dumping/disposal into the Town's MS4 system.
