Request ID	Requester Name	Organization		Received Date
2026-EPA-02038	Bogardus, Kevin	E&E News	I request all records concerning all logs of correspondence that record letters from members of Congress to EPA from Dec. 1. 2025 to Jan. 1, 2026. The logs should detail the correspondence's control number, the date it was received, what congressional office sent it and its subject. Please redact constituents' names and other personal information detailed in these logs in order to expedite this request. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02039	Bogardus, Kevin	E&E News	I request all records concerning Freedom of Information Act request logs maintained by EPA from Dec. 1, 2025 to Jan. 1, 2026. The FOIA request logs should detail the request's control number, the date it was received, who made the request, what company or organization they were from and the request's subject. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02040	Bogardus, Kevin	E&E News	I request all records related to EPA Administrator Lee Zeldin's schedule from Dec. 1. 2025 to Jan. 1, 2026. Please include all records that document Zeldin's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02041	Bogardus, Kevin	E&E News	I request all records related to EPA Deputy Administrator David Fotouhi's schedule from Dec. 1, 2025 to Jan. 1, 2026. Please include all records that document Fotouhi's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02042	Bogardus, Kevin	E&E News	I request a list of "special government employees" (SGEs) employed by EPA during the pay periods that ended between Dec. 1, 2025 to Jan. 1, 2026. A SGE is an agency employee that performs temporary duties, with or without compensation, for not more than 130 days during any period of 365 consecutive days, as defined in 18 U.S.C § 202. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02043	Bogardus, Kevin	E&E News	I request all records concerning logs documenting who has visited EPA's headquarters -- the William Jefferson Clinton North, South, East and West Buildings as well as the Ronald Reagan Building at 1200 Pennsylvania Avenue NW -- from Dec. 1, 2025 to Jan. 1, 2026. Please include all records that document EPA's visitors, including but not limited to database queries, online registration forms, sign-in sheets, visitor badges, lapel stickers and passes. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02044	Bogardus, Kevin	E&E News	I request records of all responses to Questions for the Record provided to Congress from EPA from Dec. 1, 2025 to Jan. 1, 2026. These records are responses to formal questions posed by lawmakers in association with witness testimony at congressional committee hearings. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02045	Bogardus, Kevin	E&E News	I request records of all approval of outside activity forms; certifications of qualified trusts; certificates of divestiture; impartiality determinations; notices of disqualification; recusals; screening arrangements; waivers, including those resolving financial conflicts of interest; and all other ethics-related records filed by and/or given to EPA's political appointees – either classified as Administratively Determined, Schedule C, Non-career Senior Executive Service, Presidential Appointment without Senate Confirmation or Presidential Appointment with Senate Confirmation – from Dec. 1, 2025 to Jan. 1, 2026. These documents would likely be prepared under 18 U.S.C. § 207; 18 U.S.C. § 208; 5 C.F.R. Part 2634; 5 C.F.R. Part 2635; and 5 C.F.R. Part 2641 as well as be in the care of the Designated Agency Ethics Official. Please do not consider these individuals' OGE Form 278 public financial disclosure reports as responsive records to this request. (Date Range for Record Search: From 12/01/2025 To 01/01/2026)	01/02/2026

2026-EPA-02046	Bogardus, Kevin	E&E News	I request any and all notification statements regarding negotiations for and agreements of post-government, non-federal employment and/or compensation as required under Section 17 of the STOCK Act filed by and/or given to EPA's political appointees — either classified as Administratively Determined, Schedule C, Non-career Senior Executive Service, Presidential Appointment without Senate Confirmation or Presidential Appointment with Senate Confirmation — from Oct. 1, 2025 to Jan. 1, 2026. Please click on this link for more detail on Section 17 of the STOCK Act (https://www.oge.gov/web/oge.nsf/All%20Advisories/9ACFEF2B2C153CD485257E96005FBEEC/$FILE/LA-12-01.pdf). Also, please consider any notices of disqualification; recusals; screening arrangements; waivers; and all other ethics-related records filed by and/or given to this individual related to negotiations for and agreements of his post-government, non-federal employment and/or compensation as responsive records to my request. (Date Range for Record Search: From 10/01/2025 To 01/01/2026)	01/02/2026
2026-EPA-02048	Bogardus, Kevin	E&E News	I request all records held by EPA created in preparation for, distributed or received during and/or as the result of the "Remarks: Data Center Coalition Board Meeting" on Nov. 18, 2025 in Washington, D.C. as listed on EPA Administrator Lee Zeldin's public calendar. Please click on this link for more detail on Zeldin's calendar, which lists this meeting (https://www.epa.gov/senior-leaders-calendars/calendar-lee-zeldin-epa-administrator). Please consider any calendar entries, emails, invitations electronic or otherwise, handwritten notes, letters, memorandums, text messages, voice and video recordings as well as other documented forms of communication as responsive records to my request. 2026-EPA-02051	Bogardus, Kevin	E&E News	In responses to previous Freedom of Information Act requests, I have received logs of FOIA requests from EPA identifying specific FOIA requests by control number. We are now requesting one of those FOIA requests and its response by its control number as listed in those logs. Please include the original FOIA request letter from the requester. In addition, please include the response to said FOIA request from your agency, including all letters, attachments, enclosures or any other documents that were provided with the response to said FOIA request. The FOIA request and its response that I am requesting is listed below by its control number: 2025-EPA-08049	01/02/2026

2026-EPA-02052	Bogardus, Kevin	E&E News	I request all photos and images of President Donald Trump dressed in a Santa Claus suit used to decorate EPA Administrator Lee Zeldin's office at EPA headquarters in Washington, D.C. This image of President Trump in a Santa Claus suit was likely visible to guests attending the holiday party held in Zeldin's office on Dec. 9, 2025. Responsive records to my request will likely be found in the Office of the Administrator. Please see the following excerpt from the attached story for more detail on this image of President Trump in a Santa Claus suit: "REPORTER'S NOTEBOOK – EPA HOLIDAY PARTY EDITION: EPA Administrator Lee Zeldin's office was decked out with Christmas and Hanukkah decorations (including with a bizarre image of the President in a Santa suit) when he hosted much of the D.C. press corps in his office Tuesday evening for a holiday gathering."	01/02/2026

2026-EPA-02072	Bogardus, Kevin	E&E News	I request records identifying individuals who are Schedule G excepted service appointments under 5 C.F.R. § 6.3(a) appointed to EPA from Jan. 20 to Dec. 31, 2025. These records include but are not limited to all copies of their Standard Form 50 and Standard Form 52, notifications of personnel actions, records of duty stations and/or requests to change duty stations, records of employee adverse actions, records of retirement, termination and/or separation from [your agency], letters of resignation and/or protest regarding termination and/or separation from [your agency] as well as temporary details and/or reassignments, resumes, statements of work, salary, job titles and position descriptions. This process of appointing individuals as Schedule G is described in the July 29, 2025 guidance by the Office of Personnel Management sent to heads of executive departments and agencies (please see https://chcoc.gov/sites/default/files/OPM%20Memo%20Guidance%20on%20Executive%20Order%20Creating%20Schedule%20G%20in%20the%20Excepted%20Service%207-29-2025.pdf). This process is described in the following excerpt of that guidance: "Schedule G is available to all agencies with the authority to make excepted service appointments under 5 C.F.R. § 6.3(a). Agencies should document Schedule G appointments using table 11-A, rules 52-55 of Chapter 11 of the Guide to Processing Personnel Actions (GPPA). The authority will be the Executive Order number "14317" and the authority code will be "ZLM". The U.S. Office of Personnel Management (OPM) is in the process of updating the GPPA and will provide unique coding for the Schedule G. Agencies should also note that, as a	01/05/2026

			matter of process, use of the Schedule G appointing authority requires coordination with OPM's White House Liaison, through OPM's Executive and Schedule C System (ESCS). ESCS serves as the central intake and approval mechanism for the Schedule G appointing authority at the agency level. In addition, approval or withdrawal of the Schedule G appointing authority requires review from the White House Office of Presidential Personnel, through the employing agency's White House Liaison. As a matter of practice, no Schedule G appointment(s) should be advanced without coordinating with the employing agency's White House Liaison." 2026-EPA-02082	Scacchi, John	Pacific Legal Foundation	Hello. I am requesting the disclosure of all notices of intent to sue submitted to the EPA under four statutes: Clean Water Act, Clean Air Act, Comprehensive Environmental Response, Compensation, and Liability Act, and the Resource Conservation and Recovery Act. Specifically, I am seeking notices of intent where private parties plan to	01/05/2026

			sue private defendants under 33 U.S.C. 1365(a)(1), 42 U.S.C. 7604(a)(1), 42 U.S.C. 9659(a)(1), and 42 U.S.C. 6972(a)(1)(A)-(B). I would like records dated December 1, 2025, to December 31, 2025. If logs are available, I would like the information to include the name of the party who submitted the NOI, the complainant, the party receiving the NOI, and the NOI type (i.e., title of the anticipated action) in an electronic format please. I would prefer both a list of the notices as well as copies of the notices themselves, but I am happy to accept just copies of the NOIs if logs are unavailable. This is a monthly request in accordance with prior conversations with Royan Teter and Kevin Hill. I am happy to clarify anything about this request. Thank you very much! - Mitchell Scacchi (Date Range for Record Search: From 12/01/2025 To 12/31/2025)

2026-EPA-02157	Rutecki, Jared	WTTW News	Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the agency’s FOIA regulations (including, for the Department of Energy, 10 C.F.R. Part 1004), I request all records in the possession of the United States Environmental Protection Agency's Region 5 office related to a contamination event at the Argonne National Laboratory (ANL) 211 Linac facility in Lemont, Illinois during calendar year 2024, as well as records concerning ANL’s subsequent resumption of operations following that event. The event is referenced on page 31 of the 2025 Performance Evaluation Report. [Clarification received 1.6.26 via email: "The most recent one – published in December. Title is: U.S. Department of Energy Office of Laboratory Policy Fiscal Year 2025 Performance Evaluation Report of the UChicago Argonne, LLC for Management and Operations of Science and Technology at the Argonne National Laboratory"]. Please construe “contamination event” broadly to include any incident, release, spill, exposure, exceedance, or environmental or radiological/chemical/biological contamination or safety occurrence at or associated with ANL in 2024, whether confirmed or alleged, regardless of whether it was classified as an “occurrence,” “incident,” “near miss,” “non-compliance,” “unusual event,” or similar term. Timeframe: January 1, 2024 through October 31, 2025 for the incident and immediate aftermath; and all records thereafter that relate to restart, re-authorization, or resumption of affected operations (including readiness reviews and approvals) through the date of this response. Scope: This request covers all record formats (emails, letters, text messages, meeting	01/06/2026

			notes, memoranda, reports, occurrence and incident records, after-action and root-cause analyses, corrective-action plans, readiness/restart assessments, authorizations, permits, monitoring and sampling data, lab notebooks where responsive, logs, photos, video, call-down sheets, ICS forms, briefing decks, media statements, public notices, and interagency communications). It includes records originated by contractors or site offices when those records are in the United States Environmental Protection Agency's Region 5 office's possession or control. Custodians and offices likely to hold responsive records include—without limitation—your regional and headquarters offices responsible for oversight of ANL; environmental, health and safety (EHS/ES&H); radiation protection; emergency management; public affairs; and any FOIA or legal units that handled matters about the incident. Third-party and interagency communications: Please include communications to/from the Department of Energy (Office of Science, Argonne Site Office), UChicago Argonne, LLC, relevant contractors, U.S. EPA Region 5, OSHA, CDC/NIOSH (if any), and Illinois state agencies (e.g., IEPA, IEMA-OHS, IDPH), as well as local authorities. Delivery & format: I request electronic production via email or secure download in native formats wherever feasible (e.g., PST/MSG for emails, XLSX/CSV for data), with original metadata and attachments preserved. If you apply redactions, please identify the specific FOIA exemption for each redaction and release all reasonably segregable portions. (Date Range for Record Search: From 1/1/2024 To 10/31/2025)

2026-EPA-02140	Nylund, Erik	madaboutmontana.com	I request documentation related to EPA Grant FAIN 00134500, Butte Community Resilience HUB. Specifically, the recipient disclosed at a public meeting on 6/20/2025 that the Brownfield certification requirements were waived for this project by EPA regarding contaminated groundwater in an operable unit of a Superfund site. The recipient is also a settling defendant on the site and the statutory partner is a recipient of a revolving Brownfield loan program funded by a federal grant, Headwaters RC&D. Specifically, Butte-Silver Bow Reclamation Director Eric Hassler responded to a question on 6/19/25 regarding the need to remove contaminated groundwater on the site of this project there was no need as EPA had determined the contaminated groundwater was not an impediment to Brownfield eligibility. This was during a discussion of cleaning up remaining contamination of the Operable Unit to address the most contaminated groundwater on the site with ample documentation of its existence and would be a completely new interpretation of statute. EPA requested certification from the entity still cleaning the site and it would be inconsistent with either CERCLA or settlements on the used of Natural Resource Damage claims and expenditures of public money. EPA is well aware of the contamination, as such I request any supporting documents from state agencies declaring the site remediated and EPA approvals regarding the determination. 2026-EPA-02164	Puchalsky, Richard	PERI	On behalf of the Political Economy Research Institute (PERI), an independent unit of the University of Massachusetts Amherst, I request an electronic copy of information that EPA supplied to its contractor(s) about chemical toxicity weights and other chemical-specific information in connection with its Risk Screening Environmental Indicators (RSEI) proposed version 2.3.13 with last data year 2023. This information is usually included within the RSEI Public Data Release as the "chemical" table and as a spreadsheet toxicity_data_rsei_v###.xlsx. The Public Data Release version has not yet been released to the public, but the chemical-specific information it includes must have been	01/08/2026

			made into a database table by EPA because this chemical-specific information generally comes from EPA, not from the contractor. This information should specifically include for each TRI chemical: the chemical name, the CAS number, the RSEI chemical number, and the RSEI oral and inhalation toxicity weights (OTW and ITW). If any values for PFAS remain the subject of internal agency deliberation, these values for PFAS may be omitted from the file. The updated data are critical for timely analysis of corporate environmental performance: PERI releases free web-based analysis and search pages called the Toxic 100 Air Polluters and Toxic 100 Water Polluters to the public every year that are based on the EPA data, and this year the EPA data are late. (They are usually published in Feb-Mar). PERI can produce a somewhat reduced but still valuable to the public analysis of the data based on Toxics Release Inventory release amounts together with RSEI chemical-specific toxicity weightings. 2026-EPA-02165	Puchalsky, Richard	PERI	On behalf of the Political Economy Research Institute (PERI), an independent unit of the University of Massachusetts Amherst, I request an electronic copy of information that EPA may have in connection with its Risk Screening Environmental Indicators (RSEI) proposed version 2.3.13 with last data year 2023. This information is specifically a database table with 1 record per Toxic Release Inventory (TRI) facility that shows which RSEI Facility Number has a one-to-one relationship with which TRI Facility ID (TRIFID). This table could be used to link TRI data, which PERI already has, with some v2.3.13 RSEI information that has already been released to the public. This information is usually included within the RSEI "facility" data table. I understand that the RSEI Public Data Release version has not been released to the public, but the "facility" table information which has this link seems likely to have been prepared by EPA's contractor(s) and sent back to EPA. It consists of a simple one-to-one link between ID numbers and should not be the subject of internal agency deliberation. The updated data are critical for timely analysis of corporate environmental performance: PERI releases free web-based analysis and search pages called the Toxic 100 Air Polluters and Toxic 100 Water Polluters to the public every year that are based on the EPA data, and this year the EPA data are late. (They are usually published in Feb-Mar). PERI can produce a somewhat reduced but still valuable to the public analysis of the data based on TRI data together with these facility-specific ID relationships. 2026-EPA-02230	Rutherford, Suzannah	-	I request copies of all records in EPA's possession related to NPDES (or precursor) permits and industrial wastewater discharges from the former Narragansett Brewing Company and Falstaff Brewing Corporation brewery in Cranston, Rhode Island, with particular focus on discharges to Tongue Pond and Spectacle Pond. Please include, for all relevant facility names and NPDES permit numbers associated with this brewery, approximately from 1970 through 1985: 1. All issued and draft NPDES permits (and any predecessor permits) for the brewery, including any permits specifically covering discharges to Tongue Pond and/or Spectacle Pond.2. All permit applications, engineering reports, and supporting technical documents submitted by the facility. 3. All outfall location maps and descriptions identifying discharge points to Tongue Pond and Spectacle Pond. 4. All Discharge Monitoring Reports (DMRs) and any other routine effluent monitoring data for those outfalls, including but not limited to flow, total phosphorus, total Kjeldahl nitrogen,ammonia, BOD, COD, TSS, temperature and pH. 5.All EPA correspondence with the facility and with the Rhode Island Department of Environmental Management concerning these permits, discharges, or compliance issues, including any discussions of nutrients or eutrophication in Tongue Pond, Spectacle Pond, or the connected Roger Williams Park ponds. Please search under all relevant names, including "Narragansett Brewing Company," "Falstaff Brewing Corporation," "Cranston Brewery," and similar variants. I am a private individual who lives on Mashapaug Pond in Providence, and I am requesting these records for non-commercial purposes in order to better understand historic phosphorus loading to Tongue and Spectacle Ponds and to inform community comments on current state watershed permitting. I am also involved with a local volunteer group, the Mashapaug Watershed Coalition, which is working to understand and improve water quality in the Mashapaug watershed. Because this request is made solely for public-interest, non-commercial purposes, I request a waiver or reduction of all fees under 40 C.F.R. § 2.107(l}. If you anticipate that the fees will exceed $50, please contact me before proceeding so I can decide whether to narrow the request. I am willing to accept electronic copies (PDF or similar) sent to my email address above. If that is not feasible, paper copies mailed to my postal address are acceptable. If any portion of this	01/12/2026

			request is denied, please provide the specific FOIA exemption(s} relied upon and release all reasonably segregable portions of otherwise exempt records.

2026-EPA-02247	Nordstrom, Jennifer	-	- Was 12/2/2022 the first time that USEPA defined Catlin Salt Marsh as an ARNI?, and what instigated this? - Is USEPA aware of how long USACE had assumed jurisdiction over Catlin Salt Marsh as a WOUS? - Did Panno's research come to USEPA's attention when the 12/2/2022 comment letter was prepared, and did this research impact USEPA's decision to define Catlin Salt Marsh as an ARNI? - Has the USEPA made a geologically-based jurisdictional	01/15/2026

			argument that describes the autonomy and self-generating nature of the wetland? - I would like to know whether USEPA recognizes the salt marsh property as being in the floodplain. - Most experts / scientists acknowledge that the marshes are in the floodplain, but they are also an autonomous, self-generating wetland. - What does this mean in terms of USACE jurisdiction? - How does the presence of USACE's dam impact this question of jurisdiction through the floodplain argument considering they're supposed to have the waterway under control and / or that it wouldn't be if the river was wild as it used to be? - What is the status of this ?jurisdictional dispute / where are the two agencies in the process? - I would like copies of whatever jurisdictional arguments USACE has made in regard to the salt marshes, both Ernat's and Catlin. - Did the USEPA had an opportunity to comment on the NPDES Permit No. IL0001325, and is this issue separate from the USEPA's previous advice to clarify a mitigation plan. . . - Reclamation plans were included in MLCR-1a filings with the LaSalle County Clerk on 3/27/24 and 3/26/25 - Does USEPA have access to these documents? - I would like to see the original mitigation plan from the 1990s - Does USEPA have a copy of that? - Does USEPA understand the significance of this deed restriction in US Silica's compensatory mitigation process? - Has any information come to light since 12/2/2022 about impacts to the marshes? - 28 days after USEPA questioned USACE's jurisdiction, the two agencies announced the final Revised Definition of 'Waters of the United States' rule. Aside from the fact that ongoing litigation led to an usual split amongst the states in regard to federal definitions / regulation, Would USEPA characterize the timing of these two events as coincidental (years in the making) or is the issue of jurisdiction over these particular salt marshes symbolic or precedent-setting in some way? - Has this jurisdictional dispute halted the permitting or prospective mining process in any way for US Silica's West Ottawa Mine Expansion project? - Does USEPA have any information related to conversations that took place between Ottawa Silica Company / USACE and LaSalle County / Catlin Park. - (Date Range for Record Search: From 01/01/1970 To 01/09/2026)

2026-EPA-02393	Chelmowski, James	-	Provide all the EPA's communications and documents related to my December 10, 2025 request PA-2026-0007. These communications and documents must include everything related to this request from date of my request December 10, 2025, to the later of January 16, 2026 and the FOIA search date. The EPA system owner/manager will not provide his/her mandatory decision letter with would include a simple "yes" or "no" decision whether he/she will provide my rights to 464 documents in the EPA system of records or why exactly more time is needed for a simple "yes" or "no" decision on providing my rights to 464 documents within the mandatory 20-day deadline in 40 CFR § 16.6. EPA knows the EPA's regulations, policies, and procedures in processing Privacy Act requests including but not limited to 40 CFR § 16.6 Initial decision on request for access to, or correction or amendment of, records. Facts The EPA will not comply with my rights, and the EPA system owner/manager will not provide his/her mandatory 20-day duties pursuant to 40 CFR § 16.6. I have the right to know why the EPA system owner/manager will not provide their 20-day letter a simple "yes" or "no" decision on whether I will be provided my rights to the 464 documents in the EPA system of records RelativityOne Government from my December 10, 2025 request PA-2026-0007. 40 CFR § 16.6 includes the following. (a) Within 10 working days of receipt of a request, the Agency Privacy Act Officer will send a letter to the requester acknowledging receipt of the request and promptly forward it to the manager of the	01/20/2026

			system of records where the requested record is located with instructions to: (1) Make a determination whether to permit access to the record, or to make the requested correction or amendment; (2) Inform the requester of that determination and, if the determination is to deny access to the record, or to not correct or amend it, the reason for that decision and the procedures for appeal. (b) If the system manager is unable to decide whether to grant a request of access to, or amendment or correction of a record within 20 working days of the Agency's receipt of the request, he or she will inform the requester reasons for the delay, and an estimate of when a decision will be made. EPA Privacy Act Officer Lee Kelly provided a January 12, 2026 letter that does NOT comply with the EPA's FOIA regulations 40 CFR § 16.6, as the EPA's Privacy Act Officer he knew his letter had no legal authority. Lee Kelly is not the system owner/manager as required in 40 CFR § 16.6. His letter stated, "EPA estimates that it will be able to provide an initial decision on your requests on or before February 13, 2026." I & other interested parties have the right to know the facts behind why the EPA system owner/manager will not comply with his/her mandatory duties and needs 2 months to decide on simple "yes" or "no" decision on will he/she provide my rights to these 464 documents ...See attached

2026-EPA-02447	Perryman, Skye	Democracy Forward Foundation	Democracy Forward Foundation ("DFF") requests that the Environmental Protection Agency ("EPA") produce the following within twenty (20) business days: Records sufficient to identify the process by which a decision was made to limit and/or remove references to human activities as among the causes of climate change to pages on the EPA's website. Responsive records include, at a minimum, records sufficient to identify the individuals who (1) suggested the changes (2) approved the changes (3) implemented the changes (4) determined it permissible to limit and/or remove references to human activities as among the causes of climate change to pages on the EPA's website (5) classified the change as "excepted" activity during the federal government shutdown. Please provide responsive records from January 21, 2025, through the date the search is conducted.	01/21/2026
2026-EPA-02448	Perryman, Skye	Democracy Forward Foundation	Democracy Forward Foundation ("DFF") requests that the Environmental Protection Agency ("EPA") produce the following within twenty (20) business days: All electronic communications (including email messages, complete email chains, calendar invitations, or attachments thereto, as well as any text messages or messages sent on messaging platforms such as Microsoft Teams, Skype, WhatsApp, Signal, or GChat) sent by the listed agency officials containing the following key terms. Agency custodians: Administrator Lee Zeldin Deputy Administrator David Fotouhi Associate Deputy Administrator Travis Voyles Chief of Staff Eric Amidon Deputy Chief of Staff Wesley Carpenter Associate Administrator of the Office of Policy and Regulatory Management ("OPRM") Becky Keough Associate Administrator of the Office of External Affairs Michael Abboud Director of the Multimedia Division Jini Ryan Assistant Administrator for the Office of Air and Radiation Aaron Szabo Key terms: "Burning of fossil fuels" "Oil, gas, and coal" "Future of climate change" "Causes of climate change" "Climate change indicators" "Climate change impacts and analysis" "Climate causes" "Human activities" "Human influence" This item seeks to substantially limit the volume of responsive records by limiting the request to messages sent by a few agency officials. This functionally limits the search to those individuals' outbox, and to emails sent to non-governmental domains using a few key terms. Given these limitations, similar requests to other agencies have resulted in small volumes of records, generally of no more than a couple hundred pages. The request still seeks complete email chains, so an incoming message that was responded to is still sought here and should be produced along with the response sent by the relevant official in that email chain. This request seeks records from September 1, 2025 until the date of the search.	01/21/2026

2026-EPA-02530	Bogardus, Kevin	E&E News	I request records approving EPA employees' requests for telework, such as Situational Telework, Routine Telework, and/or Remote Work, from Jan. 20, 2025 to Jan. 20, 2026. I also request records denying EPA employees' requests for telework, such as Situational Telework, Routine Telework, and/or Remote Work, from Jan. 20, 2025 to Jan. 20, 2026. The following are excerpts from the Office of Personnel Management's Guide to Telework and Remote Work in the Federal Government, dated December 2025 (please see https://www.opm.gov/telework/documents-for-telework/2025-guide-to-telework-and-remote-work.pdf): "An agency may permit employees to perform situational telework, also known as unscheduled telework, that allows employees to telework on an occasional, episodic, or short-term basis. Situational telework is approved on a case-by-case basis and the hours worked are NOT a part of an ongoing and regular telework schedule (i.e., routine telework). … Routine telework is a type of telework characterized by a schedule that is regular and recurring, most often on an agreed-upon day or days during each bi-weekly pay period. The regularly scheduled telework day(s) are usually specified in a written telework agreement between the employee and employee's supervisor. … Remote work involves an employee performing his or her official duties at an approved alternative worksite away from the agency worksite, without regularly returning to the agency worksite during each bi-weekly pay period." Please consider information regarding the duty station, General Schedule grade, job title, office, program and annual salary of those employees as responsive to my request. Please do not consider Personally Identifiable Information, or PII, such as name, address, email address and/or Social Security number, for those employees as responsive to my request. Responsive records to my request are likely to be found in the EPA's Office of Finance and Administration.	01/26/2026

The following are excerpts from the Office of	01/26/2026

			Personnel Management memorandum titled "Reasonable Accommodations for Religious Purposes" and dated July 16, 2025 (please see https://www.opm.gov/chcoc/latest-memos/reasonable-accommodations-for-religious-purposes.pdf): "The purpose of this Memorandum is to provide guidance concerning the roles of leave and workforce flexibilities, including telework, as religious accommodations and the responsibilities of supervisors in facilitating these arrangements. Agencies are encouraged to adopt a generous approach to approving religious accommodations, prioritizing employee needs while maintaining operational efficiency. Further, Federal agencies must adhere to the requirements of Title VII and the Groff clarification of the "undue hardship" standard when addressing religious accommodation requests. II. Eligibility and Types of Accommodations This guidance is applicable to all employees in the Executive Branch who have personal religious beliefs requiring accommodations, such as abstaining from work during specific times or participating in religious observances or practices. In accordance with applicable law and the Groff clarification of the "undue hardship" standard, agencies are encouraged to adopt the use of various types of leave and workforce flexibilities as religious accommodations, including: telework, religious compensatory time off, flexible work schedules (including maxiflex work schedules), credit hours earned under flexible work schedules, annual leave, advanced annual leave, earned compensatory time off for overtime work and compensatory time off for travel, leave without pay, or other time off. Additional information is provided below on telework, religious compensatory time off, and maxiflex work schedule options." Please consider information regarding the religion and/or faith tradition as well as duty station, General Schedule grade, job title, office, program and annual salary of those employees as responsive to my request. Please do not consider Personally Identifiable Information, or PII, such as name, address, email address and/or Social Security number, for those employees as responsive to my request. 2026-EPA-02589	Edmondson, Jack	Ekotrope, Inc.	I would like to request a .csv OR excel file that shows the state-by-state breakdown, by month (if possible), of national ENERGY STAR submissions to the EPA's ENERGY STAR registry for new residential construction, broken down by the agency which accredited the ENERGY STAR certification. Specifically, I am looking for the breakdown by	01/27/2026

			agency like RESNET, Building Science Institute, etc.. If breaking it down by month is not feasible, a breakdown by state for the entire date range requested (Jan 1 2024 to Jan 31 2026 inclusive, including wider range is also ok) would also be acceptable. If any further breakdown such as type of certification, like version (e.g. USv3.2, USMFv1.1, etc.), exists, that would also be helpful, but it would not be required for this. Thank you! 2026-EPA-01841	Spring, Jacob	Washington Post	I am seeking 1) the records of any meetings (including calendar entries, any records of who attended and the contents of the meeting) with for-profit companies, industry groups, trade associations or lobbying groups regarding the Greenhouse Gas Reporting Program (GHGRP) and 2) any email or other correspondence with for-profit companies, industry groups, trade associations or lobbying groups regarding the Greenhouse Gas Reporting Program (GHGRP). I am seeking records for only the time period under President Trump from January 20 to present. [Clarification Received 1.21.26: The EPA custodians to search are: Aaron Szabo, Assistant Administrator (OAR); Abigale Tardif, Principal Deputy Assistant Administrator (OAR); Peter Tsirigotis, Director, Office of Clean Air Programs (OAR); David Fotouhi, Deputy Administrator (Office of the Administrator AO); Lee Zeldin, EPA Administrator (Office of the Administrator AO); Travis Voyles, Associate Deputy Administrator (AO); Eric Amidon, Chief of Staff (AO); Wesley J. Carpenter, Deputy Chief of Staff (AO); John Rich, White House Liaison (AO); Becky Keogh, Associate Administrator (OPRM); Michael Hardy, Deputy Associate Administrator for Management and Federal Preservation Officer (OPRM); Mallory Richardson, Senior Advisor (OPRM); Claire Mullican, Senior Advisor (OPRM). I am interested in any meetings, emails, communications involving the above custodians and Jeff Clark at OMB or Stephen Miller at the White House that involved discussion of the GHGRP. In addition, any meetings with the following groups or companies: American Petroleum Institute (API); American Clean Power Association (ACP); Independent Petroleum Association of America (IPAA); American Fuel & Petrochemical Manufacturers (AFPM); American Gas Association (AGA); Interstate Natural Gas Association of America (INGAA); U.S. Chamber of Commerce; National Mining Association (NMA); Western Energy Alliance (WEA); ExxonMobil; Chevron; Woodside Energy; BP (British Petroleum); Shell (Royal Dutch Shell); ConocoPhillips; Occidental Petroleum; Liberty Energy; Halliburton; Baker Hughes; Schlumberger (SLB); Chesapeake Energy; Anadarko; Devon Energy; Encana; ConocoPhillips; Southwestern Energy; Williams Energy] [Clarification Received 12.23.25: "Relevant search terms include "Greenhouse Gas Reporting Program," "GHGRP," "GHG reporting program" and similar variants and misspellings. I am only interested in discussions about the proposed rule change undoing the GHGRP (https://www.epa.gov/newsreleases/epa-releases-proposal-end-burdensome-costly-greenhouse-gas-reporting-program-saving-24 and do not need emails about the routine running of the program."] (Date Range for Record Search: From 1/20/2025 To 12/16/2025)	01/28/2026
2026-EPA-02028	Carey, Myles	US Embassy	<<Clarified Request, 1/28/2026>> 1. Date Range Clarification My primary interest is in records reflecting environmental conditions at Puget Sound Naval Shipyard during and prior to the early 1980s, specifically the period relevant to major shipyard operations occurring around 1980–1983. To clarify and narrow the scope, I request that the search focus on records dated January 1, 1975 through December 31, 1985. This range is intended to capture baseline conditions prior to 1982 as well as contemporaneous documentation from the early 1980s, without extending unnecessarily into later remediation phases. 2. Capacity of Requester This request is made in my personal capacity, not on behalf of the U.S. Embassy or any other organization. The organizational field appears to have been selected in error. 3. Additional Scope-Limiting Information To further limit scope and reduce search burden, I am primarily seeking final or summary-level EPA documents created or relied upon during the initial identification and assessment of environmental contamination at Puget Sound Naval Shipyard. This includes site inspection reports, preliminary assessments, summary memoranda, or correspondence that identify contaminants, affected media, or environmental concerns. I do not request raw sampling datasets, contractor field notes, billing records, or post-1985 remedial action documentation. Electronically available records are sufficient, and duplicative copies or purely administrative materials may be excluded. <<Original Request>> Subject FOIA Request – EPA Superfund Records for Puget Sound Naval Shipyard (Bremerton, WA) To Whom It May Concern, Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I respectfully request access to records maintained by the U.S. Environmental Protection Agency (EPA) related to environmental investigations, assessments, or remediation activities associated with Puget Sound Naval Shipyard (PSNS), Bremerton, Washington. Specifically, I am requesting records that relate to	01/28/2026

			environmental conditions, contamination, or hazardous substances associated with the shipyard during or prior to calendar year 1982, including any materials later used to support Superfund or CERCLA-related actions. This request includes, but is not limited to: Site inspection reports, preliminary assessments, or remedial investigation documents related to Puget Sound Naval Shipyard. Environmental sampling or monitoring data, including soil, groundwater, air, or sediment sampling results, particularly those reflecting conditions prior to or during the early 1980s. Records identifying hazardous substances or contaminants known to be present at the shipyard, including but not limited to solvents, fuels, metals, PCBs, asbestos, or other industrial contaminants. Risk assessments, health assessments, or environmental evaluations conducted by or for the EPA that reference conditions at Puget Sound Naval Shipyard. Correspondence or reports between the EPA and the U.S. Navy or other federal entities concerning environmental conditions, contamination, or remediation planning at the shipyard. This request is made to document historical environmental conditions associated with industrial and ship repair operations at Puget Sound Naval Shipyard during the early 1980s. It is not intended to assert fault or liability, but rather to obtain accurate historical information maintained by the Agency. [see original PAL request form] (Date Range for Record Search: From 1/1/1975 To 12/31/1985)	
2026-EPA-02414	Kumi, Dorcas	The University of Texas at Austin	I would like to request information related to water and chemical waste pollution identified in Travis County (Austin), Texas, associated with industrial and manufacturing companies for the period January 1, 2020, to January 1, 2022. Specifically, water-related violations by industrial and manufacturing chemical pollutants (water waste discharges and improper chemical waste disposal) that pose or have determined to pose a threat to human health. The records request should include enforcement actions, investigations, monitoring, and compliance reports conducted under EPA regulatory authorities, including the Clean Water Act and Resource Conservation and Recovery Act programs. 2026-EPA-02652	Hosier, Angie	Foia Professional Services	Dear EPA Office of Air and Radiation (OAR), Under the Freedom of Information Act, 5 U.S.C .§ 552, I am requesting to obtain information regarding the following record: Pursuant to the Freedom of Information Act, we request certified copies of records that identify who was notified, and when, regarding public notices and outreach efforts about ethylene oxide/ETO and the Sterigenics Willowbrook facility. This includes, but is not limited to: - Distribution lists, recipient lists, or logs for mailings, emails, or listservs; - Press releases and media advisories; - Website or social media posts, calendars, analytics, or other records showing the intended or actual audience; -Public meeting notices, sign-in sheets, attendance records (with names/affiliations and meeting dates), agendas, and attendee summaries; -Inter- or intra-agency memos regarding outreach to individuals or groups in or concerning Willowbrook. If personal addresses must be redacted, aggregate counts or redaction that preserves names and affiliations are acceptable. Duplicate records may be omitted, provided the distribution details (recipients, date/time, and method) are documented elsewhere. We prefer electronic production with native metadata (such as sent date/time and recipient fields). A rolling production is welcome. Please let us know if any additional information is needed or if you have any questions. Kind regards, Angie Hosier	02/02/2026

2026-EPA-02792	Rodas, Steven	NJ.com/The Star Ledger	To Whom It May Concern, I request the inspection report/track down study and public complaint related to the below discharge issue outlined by the EPA's Region 2 Office. I request documents, even if they are in the preliminary stage or labeled as ongoing (of course please identify if that is the case!) My aim is to learn more about what took place and connect to individuals involved in reporting and addressing this and what the EPA (even preliminarily) has learned about this issue as of now and what it is studying for going forward. Pasting press release here: EPA Stops Industrial Discharge and Launches Source Pollution Study in Elizabeth River Tributary Contact: Nikita Joshi, 934-210-9347, joshi.nikita@epa.gov Hillside, N.J. (February 5, 2026) - U.S. Environmental Protection Agency (EPA) is investigating industrial pollution in Hillside, New Jersey after receiving a public complaint about an odorous, slimy residue in an Elizabeth River tributary. "Challenges to our waterways demand immediate attention, and EPA is prepared to act decisively,"?said EPA Regional Administrator Michael Martucci. "This is a classic example of how a community tip and our partnership with the state can halt pollution in its tracks and help protect the environment."? In October 2025, after receiving the public complaint, EPA began a series of inspections to examine drainage systems in Hillside and, with support from New Jersey Department of Environmental Protection, launched a "track down study," a practice used to sample and track contamination back to its origin. Initial results from the study showed that one of the sources was a fruit and vegetable warehouse belonging to Gargiulo Produce. EPA inspected the facility and issued an order to the company under the Clean Water Act (CWA), requiring it to stop the discharges as well as to obtain and comply with permitting obligations. White, odorous residue flowing through an Elizabeth River tributary in Hillside, NJ. During one of its inspections, EPA observed improper drainage systems at Gargiulo Produce that allowed the discharge of food waste and other leachate from an on-site waste compactor into the Hillside municipal separate storm sewer system. EPA issued the administrative order on February 5, 2026, which requires Gargiulo Produce to stop the unauthorized discharge immediately, obtain appropriate permits for industrial stormwater discharges, and develop practices and control measures to ensure ongoing compliance with the CWA. As a result,?Gargiulo Produce stopped the discharge and is currently working on longer-term solutions to properly manage its operations and prevent discharges to the river.? 2026-EPA-02928	Fonville, Sidne	Blitz, Bardgett & Deutsch, L.C	Please re-release the documents under 2024-EPA-05429 with attestation and certification. Regarding certification, the applicable Missouri statute requires that official government records be accompanied by an affidavit, with a seal affixed (if the agency has one). See Section 490.220, RSMo. While I understand that the EPA no longer affixes physical seals in your certification process, we request that the EPA affix a digital seal to each document to ensure their admissibility under Section 490.220. We would also need the cover letter (identifying the documents according to Bates number and length) to bear the EPA's digital seal. Additionally, to meet the attestation requirement, we would like the custodian to complete the attached affidavit, provided by Section 490.692. In summary, we request the EPA to (1) affix a digital seal to each responsive document and the cover letter and (2) have the custodian complete the attached affidavit. 2026-EPA-02976	Bogardus, Kevin	E&E News	I request the quarterly workforce and staffing report, also known as the full-time equivalent, or FTE, report, for the fiscal year 2026 first quarter, or FY26 Q1, as described in the following excerpt from House Report 119-215: "The Committee directs the Agency to follow all guidance in House Report 117–83 under the headings titled 'Reprogramming', 'Congressional Budget Justification', 'Operating Plan', and 'Work-force and Staffing Plans'." (Please see page 57 of https://www.congress.gov/119/crpt/hrpt215/CRPT-119hrpt215.pdf). House Report 117-83 states, "Further, not later than 45 days after the end of each quarter, the Agency shall submit data on the number of FTE employed by the Agency in the same format as the fiscal year 2022 FTE target data was submitted. The Committee expects quarterly briefings on the Agency's progress in achieving its staff-ing targets." (please see page 77 of https://www.congress.gov/117/crpt/hrpt83/CRPT-117hrpt83.pdf) This report is also described in the following excerpt from Senate Report 119-46: "Further, not later than 45 days after the end of each quarter, the Agency shall submit data on the number of full time equivalent employees employed by the Agency in the same format as the fiscal year 2020 employment target data was submitted." (please see page 89 of https://www.congress.gov/119/crpt/srpt46/CRPT-119srpt46.pdf). The joint explanatory statement of Division C of the Commerce, Justice, Science; Energy and Water Development; and Interior and Environment Appropriations Act, 2026, Public Law No: 119-74, states "the language set forth in House Report 119-215 and Senate Report 119-46 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement." (please see page 1 of https://www.appropriations.senate.gov/imo/media/doc/fy26_int_jes.pdf). Please consider any final briefing materials accompanying this report for members of Congress and/or congressional staff that were provided to them and/or EPA participants who gave the briefing on this report as responsive records to my request.	02/19/2026
2026-EPA-03050	Wilkinson, Alexandria	Environmental Operations, Inc. (EOI)	Brewer Park, addressed at 3000 and 3008 Hypoint Boulevard in Rolla, Missouri, is listed on the US Brownfields database. According to available information, this site is the former location of sewage disposal ponds for the City of Rolla from at least 1976 to at least 1995. EOI contacted Mr. Jim Fels, Public Works, City of Rolla for more information about this site. According to Mr. Fels, these sewage disposal ponds received residential waste for the City of Rolla prior to the implementation of the current municipal system. The site was funded through the Brownfields program for a Phase I ESA, which according to Mr. Fels, was completed by Terracon. Mr. Fels stated that the results of the Phase I ESA indicated a recognized environmental condition for the sewage disposal pond property and recommended a Phase II Investigation, however, he was unsure if a Phase II was ever conducted. Please provide any and all documentation associated with this property and it's involvement with the US Brownfields Program. 2026-EPA-02946	Smith, Preston	Business Information Services, LLC	This is a request for records under the Freedom of Information Act, 5 U.S.C. § 552, and EPA's FOIA regulations at 40 C.F.R. Part 2, Subpart A. I respectfully request that EPA provide the following records in electronic format (PDF or similar), to the extent they exist in the Agency's possession, custody, or control: Any Environmental Impact Statements (EIS), Environmental Assessments (EA), Findings of No Significant Impact (FONSI), Records of Decision (ROD), or other NEPA-related documents prepared by or submitted to EPA concerning Nebius Data Center, in Independence, Missouri. Any EPA comment letters, reviews, or technical evaluations regarding NEPA or environmental impacts for this project or facility. Any permits, permit applications, or related supporting analyses reviewed by EPA for this facility (including, as applicable, Clean Air Act, Clean Water Act, RCRA, or other environmental permits), to the extent EPA retains copies. Any correspondence (including letters, emails, and memoranda) between EPA and: The project proponent or facility owner/operator; Federal, state, or local agencies; and Consultants working on behalf of the proponent or agencies; concerning the environmental impacts, NEPA review, or permitting of this project, for the period January 1, 2023 through February 12, 2026. For purposes of this request, the term "records" includes all forms of information, including correspondence, emails, reports, memoranda, notes, data, maps, attachments, and any other written, printed, or electronic materials. If it would help to identify responsive records more efficiently, I believe the most likely office(s) to hold these records are [e.g., EPA Region 7 NEPA staff / Air Program / Water Program], given the project's location in [state, e.g., Missouri]. If you determine that portions of this request are unclear or unreasonably broad, please contact me so I can narrow or clarify the scope. I am willing to discuss reasonable ways to focus the request on the most relevant records. I am willing to pay fees up to [dollar amount, e.g., $100]. If you estimate that fees will exceed this amount, please inform me before processing the request. Please also let me know if some records can be provided on a rolling basis as they are located and processed. If you withhold any records in whole or in part, please identify the specific FOIA exemption(s) you contend justify each withholding and release all reasonably segregable portions of otherwise exempt records. Please provide all correspondence about this request, including any notices of extension or need for clarification, by email at: [your email]. Thank you for your assistance. 2026-EPA-03072	Magriples, Joyce	-	1) My past W-2 forms for the period 1987-1997 when I was employed by EPA Region 2 in the NYC office. 2) A copy of my final Thrift Savings Plan record indicating the closing balance prior to its withdrawal around March 1997, including the portion of that balance that was identified as my lifetime contribution. Note: TSP office only has records back to 2003. As I understand it, my original records, which were with DFAS during my period of employment would have been transferred to the DOI FPPS in 2014. A Federal Register Notice dated June 5, 2014 indicates that these types of records may be within the categories of records covered by the system. This request is being made for tax filing purposes. I have made previous requests to National Personnel Records in Valmeyer, Illinois and OPM at 1900 E in Street NW (room 6500) in DC with no success. No fee waiver or expedited processing is requested. I have attached my last SF50 from EPA. The service comp date was my start date. I have my first SF50, if needed, but I couldn't attach it here due to file size limitations. My surname changed from Harney to Magriples in August 1993. (Date Range for Record Search: From 06/07/1987 To 02/28/1997)	02/20/2026

2026-EPA-03132	Sheahin, Marc	SciReg, Inc.	On behalf of our client, I would like to request the initial registration documents that supported Snipper (EPA Reg.# 64014-13). This product was registered on 7/7/2000. Since that time, many of the files have been lost. In order to proceed with state and federal submissions, our client needs the following documents: the most recent Confidential Statement of Formula and Data Matrix that EPA has on file. Additionally, our client needs the enforcement analytical methods study that support this registration. Since we do not have a data matrix, I do not have an MRID for the study. I will attach an agent letter to this request. Note: the agent letter is for CalPest as these documents are initially needed for state registration in California. Please do not hesitate to reach out if any additional information is needed.	02/25/2026

2026-EPA-02942	Blomquist, Donna	-	Dear FOIA Officer: Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, I respectfully request access to records related to the U.S. Environmental Protection Agency's ongoing review and evaluation of the Marquis Energy Class VI carbon dioxide injection well permit application (Permit No. IL-155-6A-0001), which is currently under consideration by EPA and has not yet been approved or denied. This request is submitted in the interest of understanding the technical and regulatory basis for EPA's decision-making under the Safe Drinking Water Act and the Underground Injection Control (UIC) Class VI program prior to issuance of a final permitting decision. In addition to requesting records, this letter serves as a request for documentation that reflects EPA's reasoning, analysis, and issue resolution regarding several key technical matters that appear either unresolved or only minimally addressed in the publicly released draft permit and fact sheet. This request seeks records that explain EPA's decision-making process while the permit remains under active review, not merely underlying data submissions. 1. J & L Injection Well (Legacy Well Within the Area of Review) Please provide all records reflecting EPA's evaluation and deliberations concerning the legacy J & L injection well, including but not limited to: Internal technical memoranda, review notes, or decision documents addressing whether the J & L well was evaluated as a potential artificial conduit under 40 CFR § 146.84. Records documenting EPA's reasoning for any preliminary or final determination that corrective action, re-entry, or re-plugging of the J & L well was not required as part of the permit review. Internal communications	02/25/2026

			discussing data gaps, uncertainty, assumptions, or limitations related to the construction, plugging, or long-term integrity of the J & L well. Documents explaining how EPA reconciled the presence of the J & L well within the modeled Area of Review with statements in the draft permit or fact sheet asserting that no potential conduits exist Any issue-resolution summaries, concurrence records, or internal determinations reflecting how this issue was addressed during permit evaluation. 2. Adjacent Nicor Gas Storage Fields and Pressure System Considerations Please provide all records reflecting EPA's consideration of underground natural gas storage fields operated by Nicor Gas located adjacent to or near the modeled Area of Review, including: Records explaining EPA's rationale for excluding these gas storage fields and associated legacy wells from Area of Review delineation, pressure modeling, or corrective action analysis. Internal discussions or analyses addressing whether cumulative or interacting pressure systems were considered during permit evaluation. Records reflecting EPA's assessment of boundary uncertainty at the edge of the Area of Review where adjacent pressure-managed systems exist. Any determinations explaining why additional modeling, sensitivity analysis, or discussion of these systems was not required prior to a permitting decision. 3. Geomechanical Effects, Uplift, and Deformation Please provide all records reflecting EPA's consideration of geomechanical effects associated with sustained Class VI injection pressure, including: Internal analyses or discussions regarding uplift, formation strain, or deform . . . The description has exceeded the character limit.

2026-EPA-03276	Sohier, Julie	POLLINIS	EPA’s evaluation of RNAi-based biopesticides. We have reviewed the public records available under docket EPA-HQ-OPP-2021-0271. Hence, we are requesting access to additional, non-public records and technical documentation regarding the authorization process for Ledprona Technical and Calantha (GS2 Formulation). We are submitting this request pursuant to the Freedom of Information Act (5 U.S.C. § 552). Our objective is to better understand the scientific reasoning underpinning the environmental assessment, particularly in regard to the specific nature of RNAi technology and its regulatory implementation. Consequently, we would appreciate receiving information on the following points: 1. Jurisdictional classification and reduced risk determination of Ledprona/Calantha GS2 Formulation: Biopesticide classification: we seek access to the administrative record regarding the initial screening and classification of Ledprona. Specifically, we request all documents, including internal memoranda and meeting minutes, that justify the Agency’s decision to classify this RNAi-based pesticide as a “Biochemical Pesticide” under 40 CFR § 158.2000 rather than a conventional pesticide. Reduced risk determination: we request the complete Reduced Risk Determination record issued under FIFRA Section 3(c)(10)(B), including the formal rationale and the Reduced Risk Committee decision. 2. Full ecological risk assessment Unredacted records: we seek the complete "Section 3 Registration Decision" and the full "Ecological Risk Assessment Memorandum" regarding pollinators and non-target organisms. Public consultation integration: we request documentation showing how the Agency addressed specific scientific concerns raised by independent scientists and NGOs such as Center for Food Safety, Pollinators Stewardship Council and Friend of the Earth…) during the public comment period. North American native species: we request records indicating whether toxicity tests (on bees or other non-target organisms) accounted for the biological and climatic specificities of North American Arthropods species. 3. Unpublished studies & raw toxicity data Targeted studies: we request full study reports and raw data: cited by the Center for Food Safety in their public contributions testing the effects of Ledprona and Calantha (GS2 Formulation) on a range of organisms including “daphnia, earthworm, honeybee (Ledprona only), green lacewing, ladybird beetle, parasitic wasp, predatory mite, and the soil-dwellin.	03/03/2026

2026-EPA-03255	Haecker, Adam	-	Request description Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and EPA FOIA regulations at 40 C.F.R. Part 2, Subpart A, I hereby request access to all records pertaining to the following project that are currently available only in redacted form on the EPA UIC Class VI Data Repository: Project name: Polk Storage Complex Project ID: 183 Region: 4 (Florida) Documents requested: Site Narrative (all versions, including any attachments/appendices) Area of Review (AoR) and Corrective Action Plan (all versions, including any supporting files) All related internal communications, evaluations, memoranda, and analyses used by EPA in preparing or reviewing the above documents. I understand that some information currently appears in redacted form on the repository; I am requesting complete unredacted copies of each document, including all information withheld under any exemption that may apply, along with a justification for any redaction or withholding as required by 5 U.S.C. § 552(a)(8) and EPA FOIA procedures. To assist in processing this request, the information I am seeking relates specifically to the permit application and review process under the Underground Injection Control (UIC) Class VI program, including site narrative and AoR/corrective action determinations. If any responsive records are located in multiple offices or regions, please include them. Fee category and waiver: I am a researcher for Carbon Sequestration and not seeking information for commercial use. Disclosure of these records is in the public interest because it will inform the public about EPA’s environmental oversight and risk evaluation procedures for this Class VI injection project. Therefore, I request a waiver of all search and duplication fees pursuant to 5 U.S.C. § 552(a)(4)(A)(iii) and the EPA’s FOIA fee guidelines. If you determine that any portion of this request is too broad, please contact me before imposing fees or narrowing the scope so that the request can be clarified. I would also like the records in electronic format, if available. Please provide expedited processing because this information involves environmental and public health matters of significance to the local community and timely disclosure is necessary to	03/03/2026

			inform the public about EPA's actions and oversight in this matter. I have attached the redacted version of the permit application that I was able to download from the EPA Class VI tracker.

2026-EPA-03274	Davis, Berneka	AIH (Facilities)	On February 5, 2026. I (Berneka Davis) made an anonymous report regarding inappropriate handling and disposal that was committed on the behalf of my employer (AHI Facilities). I informed the intake officer with the coast guard about the incident. I informed him that that I completed a full work up on the hazardous materials as well as partnered with vendors who agreed to assist with disposal. I further advised them that my employer allowed illegal dumping and transporting of some the materials. I kept the call anonymous at the time because of fear of retaliation. At this time, that is no longer a concern for me. As a result, I would like to formally request a copy of my report as well as actions taken. The intake Officer provided me with the following NRC # 145-4192. I have tried to independently search for the report but have been unable to do so. Are you able to support me with this request. 1253 Roundtable Drive Dallas TX	03/03/2026

2026-EPA-03240	Scacchi, John	Pacific Legal Foundation	Hello. I am requesting the disclosure of all notices of intent to sue submitted to the EPA under four statutes: Clean Water Act, Clean Air Act, Comprehensive Environmental Response, Compensation, and Liability Act, and the Resource Conservation and Recovery Act. Specifically, I am seeking notices of intent where private parties plan to sue private defendants under 33 U.S.C. 1365(a)(1), 42 U.S.C. 7604(a)(1), 42 U.S.C. 9659(a)(1), and 42 U.S.C. 6972(a)(1)(A)-(B). I would like records dated February 1, 2026, to February 28, 2026. If logs are available, I would like the information to include the name of the party who submitted the NOI, the complainant, the party receiving the NOI, and the NOI type (i.e., title of the anticipated action) in an electronic format please. I would prefer both a list of the notices as well as copies of the notices themselves, but I am happy to accept just copies of the NOIs if logs are unavailable. This is a monthly request in accordance with prior conversations with Royan Teter and Kevin Hill. I am happy to clarify anything about this request. Thank you very much! - Mitchell Scacchi (Date Range for Record Search: From 02/01/2026 To 02/28/2026)	03/04/2026

2026-EPA-03008	Bogardus, Kevin	E&E News	I request the spend plan, as described in the following excerpt from Senate Report 119-46: "PFAS and Contaminants of Emerging Concern.—The Committee remains concerned regarding PFAS and its effects on our communities and supports the Agency's previous actions on PFAS, including issuing its first-ever drinking water standard, designating two substances as hazardous under the Comprehensive Environmental Response, Compensation, and Liability Act [CERCLA], and updating interim guidance on the destruction and disposal of PFAS-containing materials. In April 2025, the Administrator announced major Agency actions on PFAS. The Committee is still awaiting a briefing on this updated PFAS plan. Immediately following the en- actment of this act, the Agency is directed to brief the Committee on the Agency's actions and provide the Committee with a spend plan that details funding at the program project level for fiscal year 2026." (please see page 89 of https://www.congress.gov/119/crpt/srpt46/CRPT-119srpt46.pdf). The joint explanatory statement of Division C of the Commerce, Justice, Science; Energy and Water Development; and Interior and Environment Appropriations Act, 2026, Public Law No: 119-74, states "the language set forth in House Report 119-215 and Senate Report 119-46 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement." (please see page 1 of https://www.appropriations.senate.gov/imo/media/doc/fy26_int_jes.pdf). 2026-EPA-03355	Sorgen, Jeremy	Northeastern University, he/him	I am requesting a copy of the EPA Region 9 List of Tribal Environmental Directors on behalf of an academic research project seeking to understand the extent of illegal cannabis grows on Tribal ancestral territories across California, the barriers Tribes experience in remediating these grow sites, and how Tribes might be better supported by State of California programs to conduct this work. The project is guided by a statewide Tribal Advisory Board. The project is funded by the California Department of Fish and Wildlife's Cannabis Restoration Grant Program. Dr. Jeremy Sorgen of Northeastern University (Mills College/Oakland) is the Principal Investigator. Access to the Region 9 List of Tribal Environmental Directors (or at least the California contacts therein) will greatly aid the project team's ability to conduct comprehensive outreach to California Tribes and ensure all Tribal Environmental Directors and department staff are aware of available state resources. Without the list, we will need to consult each Environmental Department website directly and outreach by word of mouth, since some websites are out of date and some departments do not maintain a website. While not impossible, this method is time consuming and will greatly reduce the time our team can spend conducting outreach, interviews and surveys of informed Tribal personnel. Please note, we are not requesting personal contact information for Tribal representatives, nor information about any federal funding the Tribes may have received from EPA. 2026-EPA-03362	Awosiji, Victor	(b) (6) [redacted]	Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I request copies of the following records: All Phase I Environmental Site Assessment (ESA) reports and Phase II Environmental Site Assessment reports produced under	03/09/2026

			EPA Brownfields Assessment cooperative agreements and Targeted Brownfields Assessments (TBAs) across all EPA Regions (Regions 1 through 10), for the period of January 1, 2015 through present. Specifically, I am requesting the final Phase I and Phase II ESA report documents (typically PDF files of 60-150+ pages each) that were produced by environmental consultants on behalf of Brownfields Assessment grant recipients or by EPA regional contractors performing Targeted Brownfields Assessments. I am requesting these records in electronic format (PDF) where available. If the volume of responsive records is large, I am willing to receive them in batches and am agreeable to receiving records via electronic delivery. This request does not encompass any information that may be entitled to confidential treatment, or that otherwise may be exempt from disclosure under FOIA. I request a fee waiver pursuant to 5 U.S.C. § 552(a)(4)(A)(iii). Disclosure of the requested information is in the public interest because it will contribute significantly to public understanding of environmental conditions at brownfield sites across the United States. The requested records document publicly funded environmental assessments of properties that affect community health and redevelopment decisions. If the fee waiver is not granted, please notify me if estimated fees will exceed $250 before processing. Thank you for your prompt attention to this request. 2026-EPA-03416	Adams, Duncan	The Montana Standard	In October 2024, EPA proposed a new target cleanup for lead in residential soils and interior dust for the Butte Priority Soils Superfund site in Butte, Montana. The agency requested public comment on the new proposed level of 175 ppm and set a deadline for comment of Feb. 14, 2025. EPA said it would release a responsiveness summary that would summarize those comments. That never happened and it seems unlikely that it ever will. Now the agency is on the cusp of announcing a new action level for lead cleanup in Butte. It has promised an announcement by June. 1 I request copies of the public comments submitted to EPA about the 175 ppm. Names can be redacted. 2026-EPA-03419	Marullo, Jillian	-	Please provide the following records concerning EPA's U.S.-British Columbia Transboundary Watershed Grant Program authorized by Public Law 118 HR 4366 (https://www.epa.gov/grants/us-british-columbia-transboundary-watershed-grant-program) and the grants awarded thereunder. For each applicant/recipient, please provide: 1. The complete grant application submitted in response to grant opportunity EPA-R10-WD-TWG-2025-01, including all attachments, appendices, technical proposals, scopes of work, monitoring plans, quality assurance project plans, sampling and analysis plans, budgets, and budget justifications. 2. The final, fully executed assistance agreement, including all terms and conditions, special conditions, and attachments. 3. The final workplan and/or scope of work incorporated into the assistance agreement, or other final documents identifying the specific activities, studies, modeling efforts, monitoring programs, stakeholder engagement activities, regulatory analyses, policy development efforts, or International Joint Commission (IJC)-related support activities funded by the grant, including any revised or updated versions. 4. Any final incremental funding amendments, modifications, or revised workplans associated with subsequent funding. 5. Records reflecting anticipated data collection, management, and use, such as: a. Monitoring parameters (e.g., specific contaminants or constituents, specific environmental media such as water column, sediment, soil, or biological tissue, hydrologic metrics, or other chemical, physical, or biological indicator); b. Sampling locations, frequency, duration, timing, and methodologies; c. Planned laboratory analyses, analytical methods, detection limits, and data validation; and d. Data management, storage, reporting, sharing and publication plans. If you believe this request can be clarified or reasonably narrowed to reduce burden or fees, please contact me before placing it in a complex processing track so that we may discuss ways to facilitate efficient processing. We are also willing to accept rolling production of responsive records as they become available. If you anticipate that the total fees will exceed $2,000, please notify me in writing before incurring such costs and provide an itemized estimate of the anticipated fees. To reduce costs and administrative burden, I request that all responsive records be provided in electronic format only. If any responsive records exist only in paper form, please contact me before undertaking duplication so we can discuss the most cost-effective method of production. 2026-EPA-03521	Wilson, Douglas	HF Sinclair	Would like a copy of the WRB Borger, Texas Waste Delisting Petition approved in June of 2025. SUMMARY: The Environmental Protection Agency (EPA) is granting a petition submitted by WRB Refining in Borger, Texas to exclude (or ``delist'') 7,000 cubic yards of F037 (petroleum refinery sludge) solids to be removed from their stormwater storage tanks for a one-time delisting. This determination is based on information the petitioner provided to the Agency, completion of sampling, and risk assessment using the Delisting Risk Assessment Software (DRAS) to determine whether the waste poses a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported or disposed of, or otherwise managed. This final rule responds to a petition submitted by WRB Refinery to exclude stormwater solids from the definition of a hazardous waste. If not	03/16/2026

			delisted, the stormwater solids are listed as F037 (primary oil/water/solids separation sludge). After careful analysis of the petition and evaluation of comments submitted by the public, the EPA has concluded that the petitioned waste is not hazardous waste when disposed of in Subtitle D landfills. This exclusion applies to the stormwater solids generated at WRB Refinery Borger, Texas facility. Accordingly, this final rule excludes the petitioned waste from the requirements of hazardous waste regulations under the Resource Conservation and Recovery Act (RCRA) when disposed of in a Subtitle D landfill but imposes testing conditions to ensure that the future-generated waste remain qualified for delisting. DATES: This rule is effective June 17, 2025 FOR FURTHER INFORMATION CONTACT: E'shala Dixon RCRA Permits & Solid Waste Section (LCR-RP) Land, Chemical and Redevelopment Division, EPA Region 6, 1201 Elm Street, Suite 500, Dallas, TX 75270, phone number: 214-665-6592; email address: dixon.eshala@epa.gov. 2026-EPA-03689	Lopez, Max	Environmental Law and Policy Center	Dear FOIA Office, ELPC is requesting documents related to USEPA's approval of Indiana's Streamlined Mercury Variance rule, 327 IAC 5-3.5. USEPA sent a letter to Thomas W. Easterly, then Commissioner of the Indiana Department of Environmental Management (IDEM), on December 21, 2005 (letter attached via "description document"). EPA notes in this letter that Indiana provided "supporting documents demonstrating the widespread social and economic impacts of compliance with mercury limits derived from Indiana's existing water quality criteria as well as documentation prepared by the [IDEM] showing compliance with the requirements of 40 CFR 132. Appendix F, Procedure 2." Pg. 1 (emphasis added). ELPC is requesting these referenced supporting documents provided by Indiana and IDEM to USEPA. Additionally, the letter notes that "[t]o date, USEPA has initiated, but not completed, consultation with USFWS on the [streamlined mercury variance]" while also acknowledging that "the approval of new and revised State water quality criteria under Section 303 of the CWA is an action requiring consultation." Pg. 2. ELPC is requesting all ESA consultation documents forming the basis for USEPA's determination that approval of this streamlined mercury variance does not violate the ESA. 2026-EPA-03700	Pauly, Thomas	Fred's Plumbing	TSCA Section 5(e) Consent Order for PMN P-24-0086 and P-24-0087 (HydroGraph Clean Power Inc.) Records Requested 1. The complete TSCA Section 5(e) Consent Order issued to HydroGraph Clean Power Inc. under Premanufacture Notice numbers P-24-0086 and P-24-0087, including all attachments, appendices, and exhibits. This order was signed on or about February 24, 2026, and pertains to graphene, turbostratic, 3-9 layers (P-24-0086) and graphene, turbostratic, ~32 layers (P-24-0087). 2. Any amendments, modifications, or supplements to the above Consent Order issued subsequent to the original order date. 3. All non-confidential correspondence between EPA and HydroGraph Clean Power Inc. (or its agents, counsel, or representatives) relating to the negotiation, terms, or conditions of the Consent Order, including but not limited to letters, emails, and memoranda. Specific Information of Interest To assist the Agency in identifying and prioritizing responsive records, I note that I am particularly interested in the following elements of the Consent Order, to the extent they are not subject to valid confidential business information (CBI) claims: (a) Permitted uses and use restrictions for the PMN substances; (b) Annual or aggregate manufacturing volume limits; (c) Whether the order permits processing of the PMN substances in dry powder form, or restricts processing to liquid dispersions or formulations only; (d) Worker protection requirements, including required personal protective equipment, engineering controls, and exposure limits; (e) Testing requirements triggered by production volume thresholds or time periods, including the specific toxicological or environmental fate studies required; (f) Requirements governing distribution of the PMN substances to downstream customers, including any mandatory written agreements, downstream notification obligations, or restrictions on customer use; (g) Environmental release limitations and disposal requirements; (h) Recordkeeping and reporting obligations imposed on the company. Request for CBI Segregation and Vaughn Index I understand that certain information in the Consent Order may be claimed as confidential business information under TSCA Section 14. However, I note that under TSCA Section 14(b), the following categories of information may not be protected as CBI: health and safety studies and data from such studies (Section 14(b)(2)); general information about the chemical substance including its generic chemical name and general description of uses (Section 14(b)(1)); and any information concerning the environmental or health effects of the chemical substance (Section 14(b)(2)). Accordingly, I request that the Agency: (i) segregate any information withheld under CBI claims from non-CBI information and release all non-CBI portions; (ii) provide a Vaughn index or equivalent description identifying each CBI redaction, the specific exemption claimed..... 2026-EPA-03788	pillon, chuck	-	P.O. Box 2997 Renton WA 98059 TO: THE UNITED STATES DEPARTMENT OF ENVIRONMENTAL PROTECTION NAT'L FOIA OFFICE 1200 PENNSYLVANIA AVE (2310A) WASHINGTON D.C. Please consider this a Formal Request un the United States FREEDOM of INFORMATION ACT. I am seeking some brief excerpts from an ENVIRONMENTAL PROTECTION ACT investigation that occurred on my land here in KING COUNTY WA. circa DECEMBER 2018. The operation was managed by MR. Jeff Fowlow...Field Coordinator for the EPA District Ten Office. All my contacts with Jeff and his crew were cordial and productive. In point of fact Jeff and his assistants produced some information that was very exculpatory for me. Unfortunately I have mispalced a few very improtant documents from his reports and need urgently to replace them. This EPA activity occurred on my rural King County property at: 15753 S.E. RENTON - ISSAQUAH ROAD... RENTON WA. 98059. THE EPA referred to my place as the MAY CREEK LANDFILL. The critical area on my land covered by Jess was referred to as the DEBRIS FIELD. There was suspicion that hazardous materials had been buried under this area...and it was intended that Jeff and crew would have to perform a "clean-up"of all such material there. The EPA crew excavated to a depth of twenty seven in random areas there over a five hour period, Jeff observed all this...and promptly noted that there was "NO SUCH MATERIAL BURIED THERE...AND THAT NO MORE WORK WAS NEEDED THERE." That passage is the most important one I need and hope you can locate it for me. One Federal Court Case # associated with his matter is 2:18-cv-0-JCC. 1845. One other passage occurred between Jeff Fowlow and Mr. Scott Marlow...a Washington State Official. I actually received his brief remark in an earlier FOIA request but have also mistplaced it. It may be found in that FOIA record. In it...Marlow had asked Jeff how the operation is going...Jeff is sort of vague about the clean-up process. Marlow replied that..."THAT'S OKAY...WE GOT THE JUDGE TO APPROVE $4 MILLION DOLLARS If it is possible to expedite these brief requests I appreciate it. I am in my 86th year and suffer from Cancer and Heart problems. My time here is obviously limited...and I have one final chance in the Sate Court system to have a severe Civil Penalty vacated. If I fail...my family will lose my entire Estate. REGARDS: CHUCK PILLON. BORN 1/13/41 in Wapato Washington.	03/27/2026

2026-EPA-03803	Bogardus, Kevin	E&E News	I request the briefing, as described in the following excerpt from Senate Report 119-46: "Science to Achieve Results [STAR] Grants.—The Committee rec- ommends funds to continue the STAR program and directs the Agency to distribute grants consistent with fiscal year 2024. The Committee urges that funding for Children's Environmental Health and Disease Prevention be continued. The Committee supports the efforts of the Agency to focus this funding on research related to early life stage, including prenatal, vulnerabilities to environ- mental stressors. The Committee remains interested in the feasi- bility of reestablishing the Graduate Fellowship program and of im- plementing a mechanism to allow for submission of unsolicited, principal investigator-initiated proposals to STAR in order to cap- ture innovative research ideas that may exist outside of the Agency and that advance its mission. The Agency is directed to brief the Committee on the program within 60 days of enactment of this act. The Committee looks forward to receiving the briefing directed in the explanatory statement accompanying Public Law 116–260." 2026-EPA-03792	Russell, Chloe	Preserve Our Yorkville & Community, LLC	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, the undersigned counsel hereby requests that U.S. EPA Region 5 produce and make available for inspection and copying the public records described below. This request is submitted on behalf of Preserve Our Yorkville & Community, LLC (in formation) and its members ("the Requestor"), residents and adjacent landowners directly affected by the Project Cardinal and Project Steel data center developments in Yorkville, Kendall County, Illinois. BACKGROUND This request concerns two large-scale data center campus developments in Yorkville, Kendall County, Illinois, both of which received final municipal approvals in 2026 and are now in the pre-construction phase. Members of the Requestor organization own real property directly adjacent to the Project Cardinal site along Ashe Road in Sugar Grove, Kendall County, Illinois, and within the immediate vicinity of the Project Steel site. Project Cardinal is a proposed 1,037-acre, 14-building, 1.8 GW data center campus developed by Pioneer Development, LLC, located northwest of Route 47 and Galena Road, south of Baseline Road, and east of Ashe Road in Yorkville. The City Council adopted Final Approvals (including the M-2 General Manufacturing rezoning ordinance, annexation agreement, Planned Unit Development agreement, and development and utility agreements) at a meeting commencing March 10, 2026 and concluding at approximately 12:51 a.m. on March 11, 2026. Construction has not yet commenced. Project Steel is a proposed 540-acre, 18-building data center campus developed by Prologis, L.P., located between Galena Road, Eldamain Road, and Corneils Road in Yorkville (City Case No. PZC 2025-07). The City Council adopted Final Approvals (including the M-2 General Manufacturing rezoning ordinance, annexation agreement, Planned Unit Development agreement, and development and utility agreements) on March 24, 2026. The formal Planning and Zoning Commission public hearing was held August 13, 2025, after the originally scheduled July 9, 2025 hearing was invalidated because no public hearing notices were published and no mailings were sent to nearby property owners. Prologis submitted multiple revised noise assessments in September 2025 and a revised traffic impact study in November 2025. A Prologis representative stated at a public hearing that Project Steel will be built to Tier IV emissions standards. Construction has not yet commenced. Together, Project Cardinal and Project Steel represent over 1,577 acres of M-2 General Manufacturing rezoning and up to 32 data center buildings in a single corridor in Yorkville. Both projects are now in	03/30/2026

			the pre-construction permitting phase. The Requestor seeks records from both projects in the categories attached as PDF. (Date Range for Record Search: From 01/01/2023 To 04/01/2026)

2026-EPA-03855	Chesnes, Max	Tampa Bay Times	I'm requesting any and all communications from American Contract Systems to the U.S. EPA that led the agency to believe a medical sterilization facility was not a high-risk facility. This information is cited in an US. EPA media response dated 3/27/26 to the Tampa Bay Times. Please provide us documentation of all information provided by the company that led the EPA to believe filtration had been installed.: "EPA completed risk modeling in July 2022, based on information provided by ACS that control equipment had been installed at ACS's Temple Terrace facility. As a result, ACS was modeled as lower risk and excluded from the "high-risk" category. That is why the EPA did not believe there was risk associated with the Temple Terrace facility at that time.
