

OFFICE OF GROUND WATER AND DRINKING WATER

WASHINGTON, D.C. 20460

May 19, 2026

MEMORANDUM

SUBJECT: Reallotment of Fiscal Year 2022 & 2023 Infrastructure Investment and Jobs Act Emerging Contaminant Drinking Water State Revolving Funds

FROM: Anita Maria Thompkins, Director
Drinking Water Infrastructure Development Division

TO: State Revolving Fund Branch Chiefs
Regions 1-10

This memorandum announces the availability of reallotted FY 2022 and FY 2023 Infrastructure Investment and Jobs Act (IIJA) (P.L. 117-58) Drinking Water State Revolving Fund (DWSRF) Emerging Contaminant (EC) dollars. This action makes critical additional drinking water infrastructure funds for emerging contaminants available to states across the nation.

Below is a description of the funds available for reallotment:

- \$111,000 in FY 2022 IIJA EC funds are now available to 31 states and Washington, D.C. from declinations.
- \$2,906,000 in FY 2023 IIJA EC funds are now available to 34 states and Washington, D.C. from declinations.
- For additional details on the previous round of reallotment see "[Reallotment of Fiscal Year 2021, Base, 2022 BIL, and 2023 BIL Drinking Water State Revolving Funds.](#)"

By law, the EPA must reallot any unobligated funds after the second fiscal year of availability. All DWSRF programs (the 50 states and Puerto Rico) that received their full DWSRF allotment within the two years of availability are eligible for reallotted funds, as well as Washington, D.C. The process is explained in the September 11, 2020, memorandum, "[State Revolving Fund Capitalization Grant Reallotment Procedure.](#)"

In 2025, the EPA piloted a new process for reallotments. The EPA announced the amount of funds available for reallotment to eligible states and solicited interest. States that were not interested in the funds were removed from the reallotment formula. This new process will help ensure reallotted funds are directed more quickly to communities in need and will help reduce the administrative burden for both states and the EPA.

Eligible states, Puerto Rico, and Washington, D.C. have until September 30, 2026, to apply for and receive their portion(s) of the reallocated funds. Any available funds remaining unawarded after that date will be available for reallocation.

Attachment A lists the state-by-state FY 2022 IIJA EC reallocation amounts. To arrive at these reallocation amounts the EPA removes ineligible states from the corresponding allotment formula. These reallocated funds carry all program requirements and authorities associated with the FY 2022 IIJA EC appropriation, and all current statutory requirements. Attachment B shows the state-by-state mandatory additional subsidy amounts for the appropriation.

Attachment C lists the state-by-state FY 2023 IIJA EC reallocation amounts. To arrive at these reallocation amounts the EPA removes ineligible states from the corresponding allotment formula. These reallocated funds carry all program requirements and authorities associated with the FY 2024 IIJA EC appropriation, and all current statutory requirements. Attachment D shows the state-by-state mandatory additional subsidy amounts for the appropriation.

Please see the abovementioned September 2020 reallocation memorandum for details about mechanisms regions may use to award the funds and expectations for commitments and disbursements.

If you have questions, please contact Kiri Anderer, Water Infrastructure Technical Support Branch Supervisor, at anderer.kirsten@epa.gov.
