

U.S. Environmental Protection Agency

National Contingency Plan

Product Schedule

**June 2026
(06/11/2026)**

Prepared by:

U.S. Environmental Protection Agency
NCP Product Schedule Manager

Listings on the National Contingency Plan Product Schedule do NOT mean that EPA approves, recommends, licenses, or certifies the use of listed products on an oil discharge. These listings mean only that data have been submitted to EPA as required by Subpart J of the NCP. Only a Federal On-Scene Coordinator may authorize use of these products in accordance with Subpart J of the NCP in response to an oil discharge.

NCP Product Schedule: New and Transitioned Products

<u>Category</u>	<u>Products by Category</u>	<u>Number of Products</u>
<u>Abbreviations</u>		
B	Bioremediation Agents	0
D	Dispersants	4
H	Herding Agents	0
SO	Solidifiers	0
SW	Surface Washing Agents	1
Total Products		5

All changes and additions to the NCP Product Schedule are indicated in bold under the applicable product listing.

New Listings to the Product Schedule: Fireman’s Brand Spillclean® (2026-SW-001)

Deletions from the Product Schedule: Surface washing agents, herding agents, and solidifiers listed in the NCP Product Schedule prior to December 11, 2023 remained conditionally listed until June 10, 2026. Any conditionally listed product that had not been listed in the NCP Product Schedule based on the amended NCP Subpart J testing and listing criteria ([88 FR 38280](#)) were removed on June 10, 2026.

Product manufacturer’s data summary information is found in the NCP Product Schedule Technical Notebook product bulletins.

As a companion to the NCP Product Schedule, the NCP Product Schedule Technical Notebook presents the product manufacturer's data summary information. The NCP Product Schedule Technical Notebook product bulletins can be found at: <https://www.epa.gov/emergency-response/ncp-product-schedule-products-available-use-oil-spills>.

NCP Product Schedule Format

- The NCP Product Schedule presents products (including all name(s), brand(s), and/or trademark(s)) in an alphabetical table of contents and by category type. Products for which EPA received submission packages that meet the 2023 amended NCP Subpart J data and information requirements, as amended, in §§ 300.915, 300.950, 300.955, and 300.970, and for which EPA has made an affirmative listing determination, are included in the NCP Product Schedule. As amended, the Subpart J Rule product categories include: dispersants, surface washing agents, bioremediation agents, solidifiers, and herding agents.
- Surface washing agents, herding agents, and solidifiers listed on the NCP Product Schedule prior to December 11, 2023 remained conditionally listed until June 10, 2026. Any conditionally listed product that had not been listed in the NCP Product Schedule based on the amended NCP Subpart J testing and listing criteria were removed on June 10, 2026.
- NCP Product Schedule users can navigate to the online [Technical Notebook](#) product summaries by clicking on the product listing names (including all name(s), brand(s), and/or trademark(s)) under the category type in the NCP Product Schedule section. Products are numbered by year and then chronologically by product category when they are listed. As an example, the product numbering convention would include year of listing “2024,” “D” for Dispersants, and the sequential order of listing “001” for a listing number of 2024-D-001.

Updated: 6/10/2026

Alphabetical Table Of Contents
List of Products (including aka's) on the NCP Product Schedule

PRODUCT NAME (BULLETIN NUMBER)	PRODUCT CATEGORY	PAGE NUMBER
Accell Clean® DWD 2.0 (2024-D-001)	Dispersant	8
Dasic Ecosafe OSD (2024-D-002)	Dispersant	8
Finasol OSR 52 (2025-D-004)	Dispersant	8
Finasol OSR 52 IBC (2025-D-003)	Dispersant	8
Fireman's Brand Spillclean® (2026-Sw-001)	Surface Washing Agent	9
