The proposed petition reissuance is for one Class I injection well, DWD No. 1, that will be used to inject hazardous waste near Columbia County, Arkansas. The petition reissuance requires, among other things, that the permittee monitor the injection project and submit periodic reports to EPA Region 6. Ongoing monitoring requirements are designed to ensure protection of underground sources of drinking water. The proposed reissuance decision was based on a detailed technical review of the submitted reissuance request with supporting documents.
