

EV-CIS Software Release Notes, Release 37.4

Key	Manufacturer Software Release Notes	Compliance Program
Defects and Recalls		
Defects and Recalls Maintenance and Enhancements		
EVCIS-12940	Problem: Submission fails during business rule validation when multi-byte characters are included in the submission. Solution: Fixed the issue so that submissions that include multi-byte characters are processed during business rule validation.	Defects/Recalls
Heavy-Duty Vehicles		
HDV GHG Rollback		
EVCIS-21333, EVCIS-21288, EVCIS-21334, EVCIS-21356, EVCIS-21612	New Feature/Functionality: Updates required for HDV GHG Rollback Description: Users will be guided by the user interface and business rules that inform what information is required or optional based on the new Internal Combustion Engine Vehicle (ICEV) EPA Certification Required Indicator; references to GHGs were removed from HDV certificates.	HD Vehicles
HDV RFC Module Updates		
EVCIS-21398, EVCIS-21357, EVCIS-21355, EVCIS-21399, EVCIS-21397, EVCIS-21610	New Feature/Functionality: HDV manufacturers are able to sign a submission package in the RFC module. Description: Users will be able to create a CROMERR Package using the new 'Submission Package Signature' process code in the RFC module for vehicles that are not Fuel Cell or Electric vehicles when the ICEV EPA Certification Required is No.	HD Vehicles
Light-Duty		
Light-Duty/GHG Maintenance and Enhancements		
EVCIS-21186	New Feature/Functionality: LD Hybrid Vehicle Test Information Submitters will be able to submit a Watt Hour bag test result value ≥ -9999.99 and a Drive Trace test result value ≥ -99.99 Description: Users will be able to submit a Watt Hour bag test result value ≥ -9999.99 and a Drive Trace test result value ≥ -99.99.	Light-Duty
Nonroad Spark Ignition		
NRSI Maintenance and Enhancements		
EVCIS-20211	Problem: Certificates of conformity for Large spark ignition (SI) stationary emergency engines that reference 40 CFR Part 1054 from 40 CFR 60 JJJJ do not list the emission standards. Solution: Fixed the issue so that Certificates of Conformity for Large SI stationary emergency engines that reference 40 CFR Part 1054 from 40 CFR 60 JJJJ list the emission standards.	NRSI
Web Application Security		
Security Vulnerability Remediation		
EVCIS-21514	Upgrades to various libraries have been made in Defects and Recalls to resolve high vulnerabilities.	Web Application Security
