2026-EPA-03870	Scacchi, John	Pacific Legal Foundation	Hello. I am requesting the disclosure of all notices of intent to sue submitted to the EPA under four statutes: Clean Water Act, Clean Air Act, Comprehensive Environmental Response, Compensation, and Liability Act, and the Resource Conservation and Recovery Act. Specifically, I am seeking notices of intent where private parties plan to sue private defendants under 33 U.S.C. 1365(a)(1), 42 U.S.C. 7604(a)(1), 42 U.S.C. 9659(a)(1), and 42 U.S.C. 6972(a)(1)(A)-(B). I would like records dated March 1, 2026, to March 31, 2026. If logs are available, I would like the information to include the name of the party who submitted the NOI, the complainant, the party receiving the NOI, and the NOI type (i.e., title of the anticipated action) in an electronic format please. I would prefer both a list of the notices as well as copies of the notices themselves, but I am happy to accept just copies of the NOIs if logs are unavailable. This is a monthly request in accordance with prior conversations with Royan Teter and Kevin Hill. I am happy to clarify anything about this request. Thank you very much! - Mitchell Scacchi (Date Range for Record Search: From 03/01/2026 To 03/31/2026)	04/01/2026

2026-EPA-03999	Brown, Lora	-	Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I am re-submitting this request following the helpful guidance provided in the Final Response to Case No. 2026-EPA-03969. I am also requesting expedited processing under 40 C.F.R. § 2.104(e) due to a time-sensitive court proceeding, as explained below. BACKGROUND ON THE	04/06/2026

2026 3rd Quarter FOIA Log

			PRIOR REQUEST On April 2, 2026, I submitted FOIA Case No. 2026-EPA-03969, requesting the inspection report and any documents pertaining to (b) (6). This property is the subject of an EPA TSCA enforcement investigation, Case No. 24TL040, conducted by Physical Scientist and Inspector Brandon Brewster of EPA Region 5, Enforcement and Compliance Program (ECP-17J), Chicago. On April 3, 2026, Government Information Specialist Linda Person responded promptly with a Final Response. I genuinely appreciate the quick turnaround. However, it appears the search was conducted using only the MyProperty tool (Facility Registry System), which — as the response letter itself helpfully noted — does not cover lead paint enforcement records. Specifically, the response stated: "If you are interested in lead paint or asbestos abatement enforcement records, please submit a new FOIA request explicitly requesting lead paint or asbestos abatement enforcement records, as such records are not covered by our search of the MyProperty search tool." I completely understand that my original request may not have been specific enough to direct the search to the correct records system. I am now following the guidance in that response and submitting this new request with the specificity needed. RECORDS REQUESTED As directed by the prior response, I am now explicitly requesting the following lead paint enforcement records: 1. The complete TSCA inspection report for EPA Enforcement Case No. 24TL040, pertaining to the property at (b) (6). 2. All lead paint enforcement records, investigation files, compliance evaluation reports, and inspector field notes related to Case No. 24TL040. 3. Any correspondence, memoranda, or communications between EPA personnel regarding the inspection and enforcement action at this property. 4. Any laboratory results, sampling data, or testing reports generated in connection with the investigation. 5. Any notices of violation, compliance orders, or enforcement actions issued to the property owner (Evergreen Real Estate Group / VineBrook Homes) regarding lead-based paint violations at this address. OUR CONNECTION TO THESE RECORDS My fiancé, (b) (6), was physically present and participated alongside Inspector Brandon Brewster during the entire investigation at our home. We are the current tenants at (b) (6) — we live here with our children. This is our home, and these records are about an inspection that took place in it. 2026-EPA-03995	Estevez, Jorge	Siena University	I am requesting under the Freedom of Information Act (FOIA). I am requesting any and hopefully all records, documents, reports and materials that includes, discuss or mention per and polyfluoroalkyl substances (PFAS) contamination in New York State from January 1, 2018 to the present, in either electronic or a hard copy. This request can include communications between the New York State Department of Environmental Conservation regarding PFAS contamination and other communications between PFAS contamination in New York State. As well as any records related to testing, monitoring or remediation of PFAS in New York. I am a college student who is studying health science at Siena University in Albany, NY. I am conducting some research on environmental health risks and their impact on local communities. PFAS contamination is a significant public health concern and is often referred to as "forever chemicals" due to it being persistent in the environment and human body.	04/06/2026

2026-EPA-04070	Leonelli, Sinja	New York University	To the EPA FOIA Officer: Pursuant to the Freedom of Information Act, I request personnel records for all EPA employees from the earliest date records are available through the date this request is processed. I request one record per employee per year, provided as a structured electronic dataset (CSV or Excel). Section A — Core personnel fields 1. Subagency or office 2. Employee name. I note that the U.S. Department of Labor's OSHA has previously released employee names in full in response to a FOIA request for analogous personnel data (Request ID 206181). I request EPA employee names on the same basis. If the agency determines that names cannot be released for non-supervisory employees, please provide an anonymized employee identifier that is consistent across years so that individual career trajectories can be tracked over time. For employees in supervisory or managerial positions (position titles containing "Supervisor," "Manager," "Director," or "Chief," or grade GS-13 and above), please provide names in full given their reduced privacy expectation in their public roles. 3. Position title 4. Occupational series 5. Pay plan 6. Grade 7. Step 8. Hire date 9. Separation date (if applicable) 10. City of duty station 11. State of duty station 12. Annual salary 13. Full office address of duty station (street address, city, state, zip code) 14. EPA region designation 15. Agency component or office (e.g., Office of Enforcement and Compliance Assurance, regional office, program office) 16. Full-time or part-time status 17. Work schedule type 18. Appointment type (e.g., permanent, temporary, term) 19. Bargaining unit status 20. PATCO category 21. Retirement plan code 22. Agency identifier or bureau code (for OPM linkage purposes) Section B — Enforcement and investigations occupational groups In addition to the full personnel dataset, I request that EPA provide whatever existing documentation or records identify which occupational series, position titles, or office components are primarily responsible for enforcement and investigative activities, including civil enforcement, criminal enforcement, compliance monitoring, and field investigations. Specifically, to the extent such records exist, please provide: 23. A list of occupational series codes and corresponding position titles that EPA classifies as enforcement or investigative roles 24. The office or program office within EPA primarily responsible for each such role 25. Whether each such role involves field investigations, civil enforcement, criminal enforcement, compliance monitoring, or some combination, as categorized by EPA in existing agency records If any fields contain personally identifiable information beyond what I have explicitly requested, please redact that information and provide the remaining non-exempt fields.	04/08/2026

2026-EPA-04153	Perusic, Joseph	-	EPA Inquiry: What Is Being Done Now for Cancer Survivors Exposed to Cobalt-60 Subject: Inquiry Regarding Current EPA Actions Related to Cobalt-60 and Long-Term Survivor Health Dear EPA Radiation Protection Division, I am writing as a long-term survivor of childhood cancer treated with cobalt-60 radiation in the mid-1960s. I recently reviewed the EPA's publicly available information on cobalt-60, including the archived "Radionuclide Basics: Cobalt-60" page, which outlines environmental sources, health risks, and regulatory controls for this radionuclide. Given the known long-term health effects associated with cobalt-60 exposure, I am seeking clarification on the following: What current EPA programs, research initiatives, or interagency collaborations address the long-term health impacts of cobalt-60 exposure, particularly for individuals who were medically exposed during earlier eras of cancer treatment? Does EPA maintain or participate in any survivor-focused monitoring, public-health guidance, or risk-communication efforts related to cobalt-60 or other medical radionuclides? Are there ongoing updates to cobalt-60 risk models, environmental standards, or radiation-protection guidelines that incorporate modern scientific understanding of late-effects, genomic instability, or long-term organ-system injury? If EPA does not directly manage survivor-related programs, could you please identify the appropriate federal partners (e.g., NCI, CDC, DOE, or other agencies) who coordinate on cobalt-60 health-risk issues? My goal is to understand how current federal science and policy address the long-term biological consequences of cobalt-60 exposure and how survivors can access accurate, up-to-date information. Thank you for your time and assistance. Sincerely, Joseph M. Perusic III Childhood cancer survivor (1965 cobalt-60 treatment)	04/13/2026

The response should include any email or meeting record related to anyone of these outside parties, not all of them or multiple members of this group. EPA is required to issue written documentation in response to information requests within twenty working days from the date the request is received and logged in by EPA, stating which records will, and which will not, be released and the reason for any denial of any portion of this request. 40 C.F.R. 2.104(a), (i). If it is your position that records exist that are responsive to this request, but that those records (or portions thereof) are exempt from disclosure under FOIA, please identify the records that are being withheld and state the basis for denial for each record (or portion) being withheld. In addition, please provide the non-exempt portions of the records. Time is of the essence with respect to this request. Accordingly (and pursuant to 5 U.S.C. § 552(a)(7)(B)), we respectfully request the estimated date upon which you will complete action on this FOIA request. In addition, we request to be informed of the tracking number of this FOIA request as soon as one has been assigned. Please either email responsive records to me at (b) (6). To the extent that EPA can do so, I request to be furnished with electronic copies of the above requested documents. (Date Range for Record Search: From 01/01/2025 To 04/30/2026)	04/14/2026

2026-EPA-04162	Spennacchio-Parker, Gabrielle	WILD VIRGINIA	I am writing to formally raise concerns regarding the adequacy of ambient air lead monitoring associated with operations at the Radford Army Ammunition Plant (RFAAP), and the decision by the Virginia Department of Environmental Quality to request a waiver from source-oriented monitoring requirements under 40 CFR Part 58. Based on a review of available monitoring data from 2020-2022, including three years of measurements used to calculate rolling 3-month arithmetic mean concentrations, the maximum observed value appears to be significantly below the National Ambient Air Quality Standard (NAAQS) for lead of 0.15 µg/m³. However, I am concerned that the current monitoring approach is insufficient to characterize actual community exposure for the following reasons: 1. Limited Spatial Representation The apparent reliance on a single monitoring location (e.g., near the Blacksburg sanitation station) does not adequately represent the variability in airborne lead concentrations across the broader fenceline and surrounding residential areas. Wind direction, terrain, and operational variability at RFAAP may result in localized exposure that is not captured by a single site. 2. Insufficient Temporal Resolution Sampling frequency (approximately once every 6 days) may fail to capture short-term emission events or episodic releases associated with facility operations. The use of 3-month averaging further reduces the ability to detect transient but potentially significant exposure events. 3. Limitations of TSP-Based Monitoring Total Suspended Particulate (TSP) monitoring does not differentiate particle size fractions, such as PM10 or PM2.5, which are more relevant for human inhalation and health risk. This limits the ability to assess actual exposure pathways. 4. Potential Underestimation of Peak Exposures The averaging methodology may mask short-duration spikes in airborne lead concentrations. Without higher-frequency or event-based monitoring, it is not possible to determine whether peak exposures occur during specific operational periods. Given these concerns, the request for a waiver from source-oriented monitoring requirements under 40 CFR Part 58 warrants further scrutiny. Source-oriented monitoring is specifically intended to capture maximum ambient concentrations in areas of expected highest impact, and its absence may leave critical data gaps. I respectfully request the following: A detailed justification for the waiver request, including modeling assumptions and supporting data Clarification on the how Blacksburg sanitation station monitoring locations were selected and validated Consideration of additional monitoring sites, including fenceline and community-based locations Evaluation of higher-frequency or continuous monitoring approaches Public disclosure of any communications or analyses related to monitoring adequacy and waiver decisions (Date Range for Record Search: From 06/30/2023 To 12/31/2023)	04/14/2026

2026-EPA-04190	Jhalla, Kaushal	-	Dear EPA FOIA Officer, Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I am requesting records from the U.S. Environmental Protection Agency. SPECIFIC RECORDS REQUESTED: A complete, machine-readable export (CSV or Excel preferred) of all firms currently certified under the EPA Renovation, Repair and Painting (RRP) Rule (40 CFR Part 745, Subpart E) in the following jurisdictions: - Virginia - Maryland - District of Columbia For each certified firm, I am requesting the following fields where available: - Firm name - Certification number - Certification status (active/expired) - Certification expiry date - Business address (street, city, state, zip) - Phone number - Date of initial certification I understand this data was previously accessible via the EPA's Firm, Lead, and Pesticide Portal (CFPUB) and is now accessible via https://cdxapps.epa.gov/ocspp-oppt-leadhub/firm-location-search, and am requesting it in bulk format for the three specified jurisdictions. PURPOSE: I am the founder of Veris (useveris.com), a public-interest contractor license verification platform that helps homeowners verify that contractors working in their homes are properly licensed and certified. This data will be used to help homeowners in the VA/MD/DC metro area confirm that renovation contractors are RRP-certified before hiring them for work in pre-1978 homes. FEE WAIVER REQUEST: I am requesting a fee waiver under 5 U.S.C. § 552(a)(4)(A)(iii) on the grounds that disclosure of this information is in the public interest. This data will be made freely available to homeowners through a consumer-facing verification tool and will not be used for commercial advantage. Disclosure is likely to contribute significantly to public understanding of lead-safe renovation practices. If a fee waiver is not granted, please notify me before incurring any costs exceeding \$25. 2026-EPA-04192	Campbell, Ian	-	I request access to all records held by the U.S. Environmental Protection Agency (including Region 10) related to environmental monitoring, assessment, or analysis of per- and polyfluoroalkyl substances (PFAS) and other persistent or “forever” chemicals in air, groundwater, surface water, and drinking water in areas surrounding semiconductor manufacturing operations in Boise, Idaho, including but not limited to facilities operated by Micron Technology. Scope of Requested Records This request specifically includes, but is not limited to, records dated from January 1, 2010 to the present concerning: 1. Draft and Non-Final Environmental Assessments Draft environmental assessments, environmental impact statements, or technical review documents evaluating PFAS or related contaminants in air or water near semiconductor manufacturing facilities in the Boise metropolitan or Treasure Valley region. Any preliminary or non-published versions of risk assessments, exposure models, or contaminant transport analyses. 2. Air and Water Quality Testing and Monitoring Data Raw or preliminary (non-finalized) data from air quality monitoring, stack emissions testing, or ambient air sampling for PFAS or related fluorinated compounds. Groundwater, surface water, or drinking water sampling data collected in proximity to semiconductor manufacturing operations, including any QA/QC datasets, preliminary results, or unvalidated findings. 3. Internal Agency Communications and Analyses Emails, memoranda, briefing materials, and technical discussions between EPA staff, contractors, and other agencies regarding: PFAS contamination risks Semiconductor manufacturing emissions Environmental or public health impacts to nearby populations Any internal deliberations regarding interpretation of monitoring data or risk thresholds. 4. Health and Exposure Assessment Materials Any EPA-generated or EPA-commissioned analyses evaluating potential human exposure pathways related to PFAS or similar persistent industrial chemicals in the Boise area. Exposure modeling outputs, assumptions, or draft conclusions related to nearby residential populations, drinking water systems, or environmental media. 5. Interagency Coordination Records Communications with state agencies (including Idaho Department of Environmental Quality), local water authorities, or health departments regarding PFAS monitoring, findings, or concerns in the vicinity of semiconductor manufacturing facilities. 6. 2026-EPA-04356	Austin, Brita	My Community Data	I am writing to request public records related to Class V Underground Injection Control wells registered in Warren County, Kentucky under EPA Region 4's UIC program. Specifically, I am requesting: 1. A list of all active Class V injection wells registered in Warren County, Kentucky, including facility name, address, well type, and submission date of the inventory form. 2. Any correspondence between EPA Region 4 and the City of Bowling Green regarding Class V well registration, compliance, or enforcement in Warren County. 3. The total number of Class V wells registered in Warren County by year, for any years available. This request is made under the Freedom of Information Act (5 U.S.C. § 552). I am requesting this information for educational and public interest research purposes through My Community Data (mycommunitydata.org), a civic data platform focused on community risk transparency. Warren County sits atop one of the most extensive karst landscapes in the eastern United States. The City of Bowling Green's own GIS data shows hundreds of active stormwater discharge points including drywells and injection wells feeding directly into a cave system that supplies the region's drinking water via the Barren River. Understanding the scope of registered Class V wells in this area is a matter of direct public health relevance. I am	04/20/2026

2026-EPA-04391	Shahan, Andrew	Montgomery County Engineer's Office	To help our contractor develop the required engineering controls for the work within the restricted area, we want to provide a copy of the adverse environmental conditions located within the Restricted Area with our bid documents. Thing is, when we went to the Vandalia Library to obtain the copy as per the AULs, they didn't have it. It's believed to have been transferred to the downtown Dayton Library. We are currently trying to track it down. Per the AUL, another copy should be located at the 7th Floor Records Center at U.S. EPA. Can you please send us an electronic copy of yours? We can then print a copy and place it back in the Vandalia Library, should the original not be found. I believe the records that are likely most responsive to our request are: RCRA Facility Investigation Report dated October 13, 2005 Revised Corrective Measures Proposal dated June 5, 2006 This is in reference to EPA RCRA ID: OHD052151701, Delphi Chassis Systems The affected parcel is Montgomery County Ohio #B02-00118-001 currently owned and operated by CERTA Vandalia, LLC is currently subject to an Administrative Order on Consent dated September 22, 2017 and an Environmental Covenant dated February 29, 2008. The conditions of the Environmental Covenant places AULs on the parcel and the 3rd noted AUL references a a requirement for a site-specific health and safety plan but indicates that the information is located in the AOC Administrative Record for the parcel at the Vandalia Branch Library. The Library does NOT have this record. It is necessary for our contractor to have access to this record in order to meet the obligations of the AULs listed in the AOC Administrative Record. 2026-EPA-04412	Perusic, Joseph	-	Subject: Survivor-Coded Evidence Relevant to IRIS Radiation Risk Assessments To the IRIS Program, I am submitting information that may be relevant to future IRIS toxicological evaluations involving childhood exposure to Cobalt-60 radiation. I am a survivor treated in 1965, before standardized pediatric oncology protocols existed. Because of this, my medical history has been fragmented across multiple systems, and I have had to navigate FOIA contradictions and federal record gaps to understand the long-term effects of my treatment. I am sharing this not for personal benefit, but because survivors treated before 1970 often fall outside existing datasets and risk models. My experience may help inform future assessments, particularly regarding long-term vascular, renal, and secondary malignancy risks associated with early-life radiation exposure. If this information can support IRIS in improving future public health guidance, I am glad to contribute. Sincerely, Joseph M. Perusic III	04/22/2026

2026-EPA-04370	Yunker, Sam	Axiomancer Labs LLC	Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I am requesting access to the following records: Phase I and Phase II environmental site assessment reports, and any subsequent cleanup or post-cleanup monitoring reports, for all brownfield sites funded under the EPA Brownfields Program (CERCLA Section 104(k)) from January 1, 2018 to the present. Specifically: (1) The full text of Phase I and Phase II assessment reports submitted to EPA by grant recipients. (2) The structured site inventory with fields: site ID, site name, coordinates, contaminant identifiers, media affected (soil, groundwater, surface water, air), cleanup status, grant recipient, grant amount, and cooperative agreement number. (3) Site-specific cleanup plans and final cleanup verification reports, where available. Geographic scope: nationwide. Format: native electronic — PDF for narrative reports, CSV or Excel for the tabular site inventory.	04/22/2026
2026-EPA-04372	Yunker, Sam	Axiomancer Labs LLC	Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I am requesting access to the following records: Facility-level compliance monitoring reports (CMRs) — including inspection reports, compliance evaluation findings, and violation narratives — for facilities subject to: (1) Resource Conservation and Recovery Act (RCRA) Subtitle C (hazardous waste generators, transporters, and TSDFs), (2) Clean Water Act (CWA) NPDES permit holders, and (3) Clean Air Act (CAA) Title V major source facilities, from January 1, 2020 to the present. Prioritize facilities classified in ECHO as High Priority Violators or Significant Non-Complier, and facilities subject to active enforcement actions. Fields requested: facility ID (EPA FRS ID and program-specific IDs), inspection date, inspector or lead agency, findings narrative, violations identified (citation), compliance status after inspection, and any attached inspection photographs or measurement data. Format: native electronic. I understand ECHO publishes aggregate compliance data — I am requesting the underlying inspection reports and narrative findings not surfaced in the public ECHO interface.	04/22/2026

Records Requested. Please search for and produce all records from January 1, 2010 through the date of this request, including: All records related to EPA's Effluent Guidelines Program Plan (Effluent Guidelines Program Plans 12 through 15) concerning the meat and poultry processing category, including internal analyses, industry data submissions, and records of EPA's decision to defer or decline rulemaking. All records related to EPA's detailed study of the Concentrated Animal Feeding Operations (CAFO) effluent limitation guidelines category announced in Effluent Guidelines Program Plan 15 (January 2023), including collected data, industry comments, and any draft findings. All communications between EPA officials and representatives of Tyson Foods, Smithfield Foods, the National Chicken Council, the North American Meat Institute, or the National Pork Producers Council concerning ELG rulemaking for meat and poultry processors or CAFO nutrient standards. All records related to EPA's internal analysis of the total nitrogen and total phosphorus discharge volumes from meat and poultry processing facilities under current NPDES permit limits, including any comparison of U.S. standards against international benchmarks (e.g., World Bank EHS Guidelines). All records related to EPA's review of Discharge Monitoring Report (DMR) data submitted by large meat and poultry processors - including Tyson Foods and Smithfield Foods - to assess compliance with permit limits for total nitrogen, total phosphorus, biochemical oxygen demand (BOD), and other parameters. All records of EPA's analysis of the estimated reduction in Gulf of Mexico nutrient loading that would result from more stringent effluent limits on meat and poultry processors, including any cost-benefit analyses. All records of EPA's communications with the Office of Management and Budget (OMB) concerning CAFO or meat and poultry processor nutrient discharge rulemaking, including any OIRA review correspondence. 3. Search Instructions. Please search EPA's Office of Water (Engineering and Analysis Division, Office of Science and Technology), Office of Enforcement and Compliance Assurance, and Office of Policy.	04/23/2026

I am trying to determine whether this file can be used to study which NPDES violations do and do not receive enforcement actions. To do that, I need documentation on the underlying population of violations used for the linkage. Please provide records sufficient to answer these questions: 1. What set of NPDES violations was eligible for linkage to enforcement actions in NPDES_VIOLATION_ENFORCEMENTS.csv? 2. Did EPA attempt to link all violations in the public NPDES violation files, or only a subset? 3. If only a subset was used, what rules or criteria defined that subset? 4. If a violation does not appear in NPDES_VIOLATION_ENFORCEMENTS.csv, should that be interpreted as no linked enforcement action, or could it also mean the violation was not included in the linkage process? 5. Please provide any data dictionary, technical documentation, business rules, or other guidance that explains the phrase "NPDES program interest linkage" and how the file was constructed. Electronic copies are preferred. Thank you.	04/23/2026

2026-EPA-04468	Hire, Gail	Verrill	This is a Freedom of Information Act (FOIA) Request under 5 U.S.C. §552. I request that the U.S. Environmental Protection Agency (EPA) provide copies of the following public records in its possession, custody or control. This amends our request of March 26, 2026, which omitted the enclosures referenced in #3, below. I seek records dated, generated, or obtained from January 1, 2014, to the present, regarding enforcement against certain commercial and industrial laundry companies for alleged violations of the Clean Air Act. These facilities may be accepting soiled towels that contain free liquids with the potential to emit Volatile Organic Compounds (VOCs). 1. In particular, I am seeking information collection requests sent to, records of violations alleged against, and compliance or enforcement actions taken by these three companies: Swiss Uniform of 35 Windsor Ave, Vernon, Connecticut, 06066. WW Uniform Services at 27i Hall Ave, Wallingford, Connecticut, 06492, and Vestis (formerly Aramark Uniform Services) at 110 Glenn Street, Lawrence, Massachusetts. 2. Records might be titled: Clean Air Act Section 114 Information Collection Requests. Administrative Orders. Settlements. Notices of Violation. Civil Judicial Actions. Consent Decrees, or Clean Air Act 113(d) Actions for Penalty. 3. Enclosed are two News Releases, both naming Mr. David Deegan of Public Affairs at the U.S. Environmental Protection Agency, Region I, as the Press Contact, describing the type of investigation I am seeking. I also seek other News Releases that announce actions or investigations of the three companies listed above (Swiss Uniforms, WW Uniforms and Vestis). 4. In addition, I am seeking copies of the Settlement Agreements or Consent Decrees between EPA and the companies referenced in item #3, above: (a) New England Industrial Uniform Rental Service, Inc. (2020 settlement for facility at 355 Union Street, West Springfield, Mass.), (b) UniFirst Corp. of Massachusetts (2014 settlement for facilities in Stratford, Conn.; Bangor and Portland, Maine; Dorchester and Springfield, Mass.; and Lebanon and Nashua, N.H.), and (c) Cintas Corp. of Ohio (2014 settlement, for facilities in Cumberland, R.I., Chelmsford, Mass., and Westbrook, Maine). I am requesting the disclosure of all notices of intent to sue submitted to the EPA under four statutes: Clean Water Act, Clean Air Act, Comprehensive Environmental Response, Compensation, and Liability Act, and the Resource Conservation and Recovery Act. Specifically, I am seeking notices of intent where private parties plan to sue private defendants under 33 U.S.C. 1365(a)(1), 42 U.S.C. 7604(a)(1), 42 U.S.C. 9659(a)(1), and 42 U.S.C. 6972(a)(1)(A)-(B). I would like records dated April 1, 2026, to April 30, 2026. If logs are available, I would like the information to include the name of the party who submitted the NOI, the complainant, the party receiving the NOI, and the NOI type (i.e., title of the anticipated action) in an electronic format please. I would prefer both a list of the notices as well as copies of the notices themselves, but I am happy to accept just copies of the NOIs if logs are unavailable. This is a monthly request in accordance with prior conversations with Royan Teter and Kevin Hill. I am happy to clarify anything about this request. 2026-EPA-04641	Gjovik, Ashley	-	This request is about the TRW Microwave Superfund site at 825 Stewart Drive (CAD009159088). I'm looking for all recent reports, memos, letters, complaints, plans, lab results, etc. for the site from Jan. 1 2025 through May 1 2026. This would include documents based on earlier data but not published/created until the timeframe in stated. There is very little posted on the EPA webpage for the CERCLA site and it appears EPA stopped publishing the annual groundwater reports several years ago. I'd like to request EPA concurrently update the public documents and post the missing ones along with releasing to me through FOIA -- so the community has access to these documents as well. 2026-EPA-04693	Bogardus, Kevin	E&E News	I request all records in the binders in front of and next to EPA Administrator Lee Zeldin at the witness table for the House Appropriations Interior, Environment, and Related Agencies Subcommittee hearing on April 27, 2026; the House Energy and Commerce Environment Subcommittee hearing on April 28, 2026; and the Senate Environment and Public Works Committee on April 29, 2026. 2026 3rd Quarter FOIA Log

			records in the binders during these hearings. Please see the attached images of Zeldin with the records in the binders. Those records are agency records subject to disclosure under the Freedom of Information Act. First, the records in the binders were in the possession and control of the agency at the time of these hearings, as evidenced by Zeldin's reliance on them in an official capacity. Courts have consistently held that materials used by agency officials to conduct official business qualify as "agency records" under FOIA, regardless of their format or origin. Second, Zeldin's public use of the records in the binders during sworn testimony demonstrates that they were integrated into the agency's decision-making or communications processes. Materials that inform or underpin official statements to Congress are central to the agency's functions and therefore fall within FOIA's scope. Third, there is a strong public interest in disclosure of the records in the binders. Zeldin's testimony was delivered in a public forum as part of Congress's oversight responsibilities. Releasing the underlying materials would allow the public to evaluate the accuracy, completeness, and context of statements made to Congress, thereby promoting transparency and accountability in government. To the extent that any responsive records may be subject to exemptions, the agency should release all reasonably segregable non-exempt portions. Moreover, any deliberative process privilege claims should be narrowly construed where records have been expressly relied upon in public testimony, as such use may waive or diminish the applicability of those exemptions. Responsive records to my request will likely be in the Office of Congressional and Intergovernmental Relations and/or elsewhere in the Office of the Administrator. Please click on these links for more detail on these hearings (https://appropriations.house.gov/schedule/hearings/budget-hearing-environmental-protection-agency-0 ; https://energycommerce.house.gov/events/environment-hearing-the-fiscal-year-2027-environmental-protection-agency-budget ; and https://www.epw.senate.gov/public/index.cfm/hearings?ID=2A1BC306-F44D-45A7-898D-E968BFEA1445).

2026-EPA-04595	Sullivan, Michael	-	EPA Region 3 Oversight Failures Regarding AEP 10-K Non-Disclosure and Sarbanes-Oxley Certifications (February 12, 2026) On February 12, 2026 — only two days after the second class action lawsuit was filed in West Virginia circuit court — American Electric Power Company, Inc. (AEP) filed its Annual Report on Form 10-K for the fiscal year ended December 31, 2025 (SEC Accession No. 0000004904-26-000013). That 10-K contains zero references to: The Wayne County East Lynn substation oil release (approximately 4,900 gallons of transformer oil into Twelvepole Creek beginning September 1, 2025) The 21-day “Do Not Consume” order affecting approximately 2,400 households (January 16 – February 6, 2026) The two pending class action lawsuits filed February 5 and February 10, 2026 CEO William J. Fehrman and CFO Trevor I. Mihalik personally signed all 32 Sarbanes-Oxley Section 302 and Section 906 certifications across every AEP operating company, including Appalachian Power Company (the direct operator of the East Lynn substation). These certifications state under penalty of perjury that the 10-K “does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made... not misleading.” This omission occurred while Andrew Teno (Icahn Group) was already seated as non-voting Board Observer (appointed December 22, 2025). These facts raise serious questions about whether EPA Region 3 adequately oversaw WVDEP’s compliance with Safe Drinking Water Act public notification requirements and whether EPA Region 3 failed to detect or act upon a major utility’s material non-disclosure to investors and the public in violation of federal oversight obligations. 			(please see https://www.opm.gov/chcoc/latest-memos/guidance-on-government-wide-email-what-did-you-do-last-week.pdf). "At the same time, we decided to end the 'five things' email reporting process. Our view is simple: every federal manager has an obligation to track and prioritize what their team is working on — be that through regular one-on-ones or otherwise. The five things email was an augment to that, so if managers find it useful to deploy, they of course are free to do so directly. But OPM will no longer maintain a centralized inbox for this practice," OPM Director Scott Kapor said in an Aug. 8, 2025 blog post (please see https://www.opm.gov/news/secrets-of-opm/supporting-agencies-through-change/). 2026-EPA-04940	Bogardus, Kevin	E&E News	I request all records in the binders in front of and next to EPA Administrator Lee Zeldin at the witness table for the Senate Appropriations Interior, Environment, and Related Agencies Subcommittee hearing on May 13, 2026. Zeldin often flipped through, read from and otherwise consulted the records in the binders during this hearing. Please see the attached image of Zeldin with the records in the binders. Those records are agency records subject to disclosure under the Freedom of Information Act. First, the records in the binders were in the possession and control of the agency at the time of this hearing, as evidenced by Zeldin's reliance on them in an official capacity. Courts have consistently held that materials used by agency officials to conduct official business qualify as "agency records" under FOIA, regardless of their format or origin. Second, Zeldin's public use of the records in the binders during sworn testimony demonstrates that they were integrated into the agency's decision-making or communications processes. Materials that inform or underpin official statements to Congress are central to the agency's functions and therefore fall within FOIA's scope. Third, there is a strong public interest in disclosure of the records in the binders. Zeldin's testimony was delivered in a public forum as part of Congress's oversight responsibilities. Releasing the underlying materials would allow the public to evaluate the accuracy, completeness, and context of statements made to Congress, thereby promoting transparency and accountability in government. To the extent that any responsive records may be subject to exemptions, the agency should release all reasonably segregable non-exempt portions. Moreover, any deliberative process privilege claims should be narrowly construed where records have been expressly relied upon in public testimony, as such use may waive or diminish the applicability of those exemptions. Responsive records to my request will likely be in the Office of Congressional and Intergovernmental Relations and/or elsewhere in the Office of the Administrator. Please click on these link for more detail on this hearing (https://www.appropriations.senate.gov/hearings/a-review-of-the-presidents-fiscal-year-2027-budget-request-for-the-environmental-protection-agency).	05/14/2026

2026 3rd Quarter FOIA Log

			Keyword 2026-EPA-01840 Date Range December 16, 2025 to the later of May 13, 2026, and the date of search. Facts Related to this Request This request is filed only because I cannot obtain my rights to the 4,279 documents for which I already paid the EPA on February 13, 2026. It's now been three (3) months, and I still can't obtain my rights. On May 11, 2026, EPA's second extension letter stated that EPA is requesting this extension until July 30, 2026, after its first extension letter set a completion date of May 11, 2026. Matthew Waits' March 5, 2026, extension letter stated the EPA would complete this request on or before May 11, 2026. Now, Attorney Joan Chu's May 11, 2026, extension letter stated the EPA will not complete this request until July 30, 2026. This will be 137 days after I paid the EPA for my rights to ALL these 4,279 documents. I should have received these 4,279 documents in the December 2028 search in 2019 from my previous request EPA-HQ-209-000357, referenced in both of these EPA's March 5, 2026, and May 11, 2026, extension letters, stated the following. "Please note that your request 2026-EPA - 01840 seeks records that were previously collected for a different FOIA request, some of which were determined to not be responsive to that other request. Such records were not previously reviewed for application of withholding exemptions and must now be reviewed." This search should be very easy for the EPA's FOIA staff to copy and paste the one (1) keyword 2026-EPA-01840 and the 13 email accounts to send to EPA eDiscovery Services in the search criteria to be searched in their centralized email search, and all documents located are responsive records.

2026-EPA-04322	Austin, Kate	Mostardi Platt	I am trying to find a list of VOCs (with CAS numbers) that are regulated under air permitting from a reputable source (such as the EPA or a national org), but I haven't had any luck in finding one. I have found a list of HAPs with CAS numbers in the eCFR (link: https://www.ecfr.gov/current/title-40/chapter-I/subchapter-C/part-63/subpart-DD/appendix-Table%201%20to%20Subpart%20DD%20of%20Part%2063), but when it comes to VOCs, the CFR only has a list of what chemical compounds are NOT considered to be VOCs, which isn't helpful to me. Could you please provide me with a list of VOCs that are subject to air permitting regulations? Even a list of the 50-100 most common compounds would be great. Thank you in advance, and I greatly appreciate any help or guidance you can provide. Kate Austin ((b) (6)) (Date Range for Record Search: From 1/1/2020 To 4/17/2026)	05/18/2026

2026-EPA-04740	Krasnoff, Peter	WEST, Inc.	Available environmental records for Mare Island Naval Shipyard Parcels D1.1, D1.2, D1.3, D2 and Golf Course IA-E including: Radiological assessments, Finds of Suitability to Transfer (FOSTs); Remedial Action Plans, Records of Decision, No Further Action Letters/Determination, Lead-Based Paint Evaluations; Underground Storage Tank reports, PCB Cleanup Plans and Unexploded Ordnance Surveys.	05/18/2026
2026-EPA-04949	Avitia, Alejandro	Remotto	I am requesting access to records related to individuals and companies certified under Section 608 of the Clean Air Act (EPA Section 608 certification program). Specifically, I am requesting: Any existing datasets, registries, or records maintained by the EPA or on its behalf that identify technicians and companies holding Section 608 certification. Any associated metadata fields available, including certification type (Type I, II, III, Universal), certification status, certification date, and certifying organization. A list of all EPA-approved certifying organizations authorized to issue Section 608 certifications, including any available information about their reporting obligations or data-sharing practices with the EPA. This request also includes any records, documentation, or system descriptions that explain how Section 608 certification data is collected, stored, maintained, or accessed within EPA systems or through third-party organizations. If the EPA does not maintain a centralized or comprehensive database of certified individuals or companies, I request any records or documentation identifying where such data is held, how it is structured, and how it may be accessed, including references to third-party entities responsible for certification or data management. I prefer to receive the requested information in a machine-readable format (such as CSV, Excel, or JSON). This request covers records from January 1, 2015 to the present. Public Interest Justification: The requested information concerns the implementation and oversight of a federal environmental certification program under the Clean Air Act, specifically related to the handling of refrigerants and compliance with environmental protection standards. Disclosure of this information will contribute to a better public understanding of how technician certification is administered, the extent of workforce coverage, and the role of EPA-approved organizations in supporting compliance with federal environmental regulations. This information is particularly relevant given increasing regulatory and environmental focus on refrigerant management, emissions reduction, and workforce readiness in critical infrastructure sectors such as HVAC and refrigeration. The requested data will be used to analyze and communicate insights about certification distribution, potential gaps in compliance, and overall system transparency, in formats accessible to a broad audience including industry stakeholders, researchers, and the general public. If any portion of the requested information is exempt from disclosure, please provide all reasonably segregable non-exempt portions of the records. Part 2, COGENCY GLOBAL INC., hereby requests from EPA copies of EPA Form 8570-35 (Data Matrix) for product Wolmanac OD23, EPA registration number 62190-44, submitted by Arch Wood Protection, Inc. The product was approved on July 17, 2025. COGENCY GLOBAL INC. understands that none of the information on EPA Form No. 8570-35 is confidential business information (CBI) and that EPA is able to release the form in response to a FOIA request. Documents responsive to this request likely will be maintained by the Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request. COGENCY GLOBAL INC. is first and foremost interested in receiving any documents that do not contain CBI as soon as possible. COGENCY GLOBAL INC. understands that some of the documents responsive to this request may contain CBI. COGENCY GLOBAL INC. requests that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible. If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information that you determine not to be exempt. COGENCY GLOBAL INC. consents to such deletion at this time to facilitate your prompt response and in no way waives our right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information. COGENCY GLOBAL INC. requests that you provide us with accurate copies or a complete and accurate account of the information requested. This is a commercial request. According to EPA ECHO, the address of this site is "1mi from Solida Rd on Rt 52, South Point, OH 45680." These records concerning PFAS and this site may include—but are not limited to—the following: a. dye-tracing studies; b. sampling or monitoring data from wells, stormwater, or groundwater; c. communications with local authorities concerning water testing or water pollution; d. OECA's investigation and resulting report, No. NEICVP1570E01, in 2024; e. Communications with Ohio EPA, RDI Construction, Calgon Carbon, or any other third party; and f. Communications within OECA or with any other EPA office. For purposes of this request, the term "records" is used to mean anything denoted by that word or its singular form in the text of FOIA. In particular, the term includes, but is not limited to, documents (handwritten, typed, electronic or otherwise produced, reproduced, or stored), letters, emails, facsimiles, memoranda, correspondence, notes, databases, drawings, graphs, charts, photographs, minutes of meetings, electronic and magnetic recordings of meetings, and any other compilation of data from which information can be obtained. We remind you that FOIA requires that you respond within 20 working days of your receipt of this request, see 5 U.S.C. § 552(a)(6)(A)(i); 40 C.F.R. § 2.104, and that that response must "at least indicate within the relevant time period the scope of the documents [you] will produce and the exemptions [you] will claim with respect to any withheld documents." Citizens for Resp. & Ethics in Washington v. FEC, 711 F.3d 180, 182-83 (D.C. Cir. 2013). We ask that you disclose this information as it becomes available to you without waiting until all of the communications and records have been assembled for the time period requested. We request electronic copies of the records whenever possible.	05/20/2026

2026-EPA-04977	Allen, Stephen	Bighorn Press LLC	May 17, 2026 U.S. Environmental Protection Agency Region 10 — FOIA Office Attn: FOIA Officer 1200 Sixth Avenue, Suite 155 Seattle, WA 98101 Re: Freedom of Information Act Request — Mitigation Banking and Section 404 Records, Steiwer Ranch and Seven Springs Ranch, Gilliam and Wheeler Counties, Oregon Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I respectfully request records in EPA Region 10's possession relating to the properties and entities described below. I am a journalist and the Editor and Publisher of The Times-Journal, a weekly newspaper serving Gilliam, Wheeler, and Sherman counties in north-central Oregon. This request concerns reporting on mitigation banking, water resource regulation, and steelhead habitat in my publication's coverage area. I. PROPERTIES AND ENTITIES AT ISSUE This request concerns the Stanley Ranch (approximately 22,889 acres) and the adjacent Seven Springs Ranch, both located in Wheeler County, Oregon, sold in or around April 2025. The acquiring entities are limited liability companies believed to be formed under Delaware law, including but not limited to: Silver Spur Real Estate, Basswood Properties Holdings, Quailwood LLC, affiliated with or controlled by Kosei Advisors, Rolling Hills Estates, California. The stated acquisition purpose is mitigation banking, potentially for steelhead habitat credits in the John Day River system. II. RECORDS REQUESTED I request all records, including correspondence, memoranda, emails, meeting notes, technical comments, and agency determinations, relating to: 1. Any mitigation banking prospectus, pre-application submission, or Mitigation Banking Instrument associated with either property, or submitted by the entities identified above; 2. Any EPA technical comments, concurrences, or objections submitted to the U.S. Army Corps of Engineers Portland District regarding a proposed mitigation bank on either property; 3. Any Interagency Review Team (IRT) correspondence, comments, or meeting records related to a proposed mitigation bank on either property; 4. Any Section 404(c) proceedings, correspondence, or determinations associated with either property; 5. Any records exchanged between EPA Region 10 and NOAA National Marine Fisheries Service, U.S. Fish and Wildlife Service, Oregon Department of Environmental Quality, Oregon Department of State Lands, or Oregon Department of Fish and Wildlife regarding either property or the proposed mitigation bank; 6. Any records pertaining to steelhead (Oncorhynchus mykiss) mitigation credit methodology, watershed assessment, or habitat credit valuation in the John Day River basin or its tributaries. III. TIME PERIOD I request records generated or received between January 1, 2023 and the date this request is processed. (Date Range for Record Search: From 01/01/2024 To 05/17/2026)	05/20/2026
2026-EPA-05037	Salemi, Benjamin	MRHFM LLC	This is a request under the Freedom of Information Act, 5 U.S.C. § 552. I am writing on behalf of Maune Raichle Hartley French & Mudd, LLC in connection with ongoing litigation: Hallan C. Newell v. Air & Liquid Systems Corporation, et al. (Washington State). Our client was exposed to asbestos during his employment at the University of Washington, and the records described below are directly relevant to this case. I am requesting copies of all records related to an asbestos-related citation issued by the EPA to the University of Washington in or around 1986,	05/20/2026

			including but not limited to: The original citation or notice of violation issued to the University of Washington concerning asbestos; Any related compliance orders, settlement agreements, or consent documents; Records reflecting a penalty or settlement payment of approximately \$35,000 made by the University of Washington to the EPA in connection with this citation; Any documents related to the EPA's investigation, such as inspection reports or investigator's notes. For reference, the attached document contains a mention of the settling of this 1986 asbestos citation, found under the section titled "Changes," within bullet point 5. This reference serves as a starting point for identifying the underlying EPA records we are seeking. This matter would likely fall under EPA Region 10. If these records are maintained by a different office or region, I respectfully request that this request be forwarded to the appropriate custodian of records pursuant to FOIA regulations. Thank you for your assistance in this matter. (Date Range for Record Search: From 01/01/1985 To 12/31/1986)	
2026-EPA-05038	McCarty, Niko	-	To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: ...specifically pertaining to the Biotechnology Program within the New Chemicals Division (or successor office responsible for microorganism submissions under TSCA Section 5): 1. The current records control schedule(s), records disposition schedule(s), and file plan(s) governing records created or maintained by the OPPT Biotechnology Program, including any schedules approved by the National Archives and Records Administration (NARA). 2. Any internal guidance, indexes, or documents that identify the categories of records the Biotechnology Program creates or maintains in connection with submissions for microorganisms under TSCA Section 5 — including but not limited to TSCA Experimental Release Applications (TERAs), Microbial Commercial Activity Notices (MCANs), Tier I exemption notices, and Tier II exemption notices. 3. Any records retention or disposal forms (e.g., SF-115 or equivalent) submitted to NARA in the last five years that cover Biotechnology Program records. Date range: I am requesting current/active schedules and any versions in effect during the past five years. Format: Electronic copies in their original format (PDF, Word, Excel) are preferred. Please provide records on a rolling basis as they become available rather than waiting for the entire request to be processed. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. 2026-EPA-05040	McCarty, Niko	-	To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Standard Operating Procedures (SOPs), desk manuals, review handbooks, or equivalent internal guidance documents used by EPA staff to review TSCA Section 5 submissions for microorganisms intended for environmental release or field testing — including TERAs, MCANs, and Tier I/II exemption notices. Internal checklists, data requirements tables, or templates identifying the categories of information EPA requests or expects from submitters in connection with environmental-release submissions. Risk assessment frameworks, templates, or guidance documents used to evaluate environmental-release submissions, including any documents describing how human health, ecological, and environmental risks are characterized for engineered microorganisms. Templates used to draft consent orders, Significant New Use Rules (SNURs), or "not unreasonable risk" determinations for biotech submissions involving environmental release. Internal training materials prepared for new reviewers in the Biotechnology Program. I am not requesting case-specific risk assessments or submitter-specific records in this request — only the generic procedural, methodological, and training documents. Date range: January 1, 2020 through the date this request is processed. Format: Electronic copies in original format (PDF, Word, Excel). Please provide records on a rolling basis as they become available. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. 2026-EPA-05069	Mackie, Katie	BBJ Group	I am looking for information regarding, specific air permits, inspection reports, violation notices, leaking underground storage tanks (LUST) incidents, site remediation program enrollment, compliance reports, ground-water and soil contamination information, sampling results, and incident notices for any facility at the following address: 715 Hamilton Street and 7 Richards Street, Geneva, Illinois, 60134	05/21/2026
2026-EPA-04963	Cope, Grant	Michael J. fox Foundation	This FOIA request is to obtain the registrants' response to EPA's DCI that the agency issued to registrants of paraquat dichloride on February 4, 2026 and records related to this response. EPA has stated that the agency provided the registrants 90 days to respond to the DCI.3 This means that the registrants should have provided the response by May 5, 2026. The records related to the registrant's response to the DCI include but are not limited to any messages or documents related to the registrants' response to the DCI. These records also include but are not limited to any records of other federal or state agency messages or documents concerning the registrant's response to the DCI, including from the Office of Management and Budget (OMB), the United States Department of Agriculture and the California Department of Pesticide Regulation. In accordance with FOIA, please provide the records responsive to this request starting on February 4, 2026, until the present (i.e., May 15, 2026). Please provide the records in electronic format. To the extent practicable, we seek electronic copies of the above records in native file format, or, if that is not practicable, with full metadata for all fields. See 5 U.S.C. § 552(a)(3)(B) (agency shall provide records in any form or format if the record is readily reproducible in that form or format). If EPA claims that any of the requested records are exempt from mandatory disclosure, we request that the agency: 1. Provide an index of all records containing the requested information, reflecting the date, author, addressee, number of pages and subject matter of such documents; 2. State the FOIA exemption you claim applies to each record or portion of a record you are withholding or redacting; 3. State with particularity the reason why such exemption is applicable; and 4. Exercise your discretion to release such records notwithstanding the availability of a basis for withholding or examine each information request to determine if reasonably segregable non-exempt information exists that may be released after redacting information that is exempt from disclosure and provide us with a copy of each record with only the information exempt from disclosure redacted.	05/21/2026

2026-EPA-05057	Kranzler, Seth	-	Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552, I request the following records maintained by the U.S. Environmental Protection Agency, Region 2. I am making this request as an individual member of the public in a non-commercial capacity. SUBJECT FACILITY - Business name: ABC Body & Trailer Co., Inc. - Address: 1620 Atlantic Avenue, Brooklyn, NY 11213 - EPA Facility Registry System (FRS) ID: 110019803426 - BBL: 3013340016 - SIC Code: 7532 (Top, Body, and Upholstery Repair Shops and Paint Shops) - Related entity: Truck King International Sales & Services Inc. (USDOT 1746065), same ownership/management network, address of record 9505 Avenue D, Brooklyn, NY 11236. ABC Body & Trailer Co., Inc. has operated as a commercial auto-body and vehicle-repair shop at 1620 Atlantic Avenue since at least 1983. Operations include spray-applying coatings to motor vehicles and other surfaces using VOC-containing paints, use of paint strippers and solvents, and vehicle-repair activities that generate hazardous waste streams including spent solvents and paint waste. BACKGROUND AND REGULATORY CONTEXT NESHAP 6H is not delegated to NYS DEC in Region 2. EPA's regulations at 40 CFR Part 63, Subpart HHHHHH ("6H") apply to every area-source facility that spray-applies coatings to motor vehicles or mobile equipment. Under the EPA Region 2 NESHAP Delegation Table, Subpart HHHHHH has NOT been delegated to NYS DEC. Accordingly, all Initial Notifications and Notifications of Compliance Status required by 40 CFR Sections 63.11175 and 63.11176 must be filed directly with EPA Region 2 (with copies to NYS DEC), and since 2023-05-09 must be submitted electronically via the Compliance and Emissions Data Reporting Interface (CEDRI) on EPA's Central Data Exchange (CDX). Existing sources were required to file an Initial Notification by 2010-01-11 and a Notification of Compliance Status by 2011-03-11. Subsequent Annual Notifications of Changes are required	05/21/2026

			whenever previously submitted information changes (40 CFR Section 63.11180(a)). A review of publicly indexed EPA ECHO data (2026-05-15), the CDX/CEDRI electronic filing database, and the Detailed Facility Report associated with FRS ID 110019803426 does not return any indexed record of a Subpart HHHHHH notification for ABC Body & Trailer Co. or for 1620 Atlantic Avenue. The combination of (a) no indexed NESHAP 6H notification and (b) the confirmed absence of any NYS DEC air registration for the facility (verified 2026-05-14 against DEC's Issued State Facility Permits list) suggests ABC never filed the required notifications. Auto-body shops generating spent halogenated solvents (F001-F005 listed hazardous wastes: toluene, xylene, MEK, etc.), paint waste, and associated waste streams above 220 lbs per month must obtain an EPA ID Number via EPA Form 8700-12 as a Small Quantity Generator (SQG) and re-notify every four years since 2021 (40 CFR Section 262.18). 2026-EPA-05143	Hirji, Zahra	Bloomberg News	Dear EPA FOIA Officer, Under the Freedom of Information Act 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I am requesting an opportunity to inspect or obtain copies of all public comments submitted to the Environmental Protection Agency regarding the proposed rule "National Emission Standards for Hazardous Air Pollutants: Ethylene Oxide Emissions Standards for Sterilization Facilities Residual Risk and Technology Review Reconsideration." On March 17, 2026, EPA announced in the Federal Register that it was reconsidering the so-called sterilizer rule, soliciting public comment through May 1, 2026. In a subsequent Federal Register notice, the agency extended the public comment period through May 15, 2026. According to Regulations.gov, 8,681 public comments were received during that time. However, as of May 22, 2026, only 3,180 have been posted online. I am requesting access to all public comments submitted on the proposed rule received between March 17 to May 15, 2026. I'm specifically requesting to receive the records digitally or electronically. If there are any fees for searching or copying these records, please inform me if the cost will exceed \$25. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of this proposal. I will use this information in my Bloomberg News reporting aiming at clarifying the impacts and significance of this proposal to change rules limiting the carcinogen ethylene oxide. This information is not being sought for commercial purposes. If you intend to deny this request, I will expect to hear from you within the 20 business days after confirming the receipt of my request as mandated by law. Also, if you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. Thank you for considering my request. Sincerely, Zahra Hirji (b) (6) (Date Range for Record Search: From 03/17/2026 To 05/15/2026)	05/22/2026

2026-EPA-04596	Sullivan, Michael	-	EPA Region 3 Oversight Failures Regarding AEP 10-K Non-Disclosure and Sarbanes-Oxley Certifications (February 12, 2026) On February 12, 2026 — only two days after the second class action lawsuit was filed in West Virginia circuit court — American Electric Power Company, Inc. (AEP) filed its Annual Report on Form 10-K for the fiscal year ended December 31, 2025 (SEC Accession No. 0000004904-26-000013). That 10-K contains zero references to: The Wayne County East Lynn substation oil release (approximately 4,900 gallons of transformer oil into Twelvepole Creek beginning September 1, 2025) The 21-day "Do Not Consume" order affecting approximately 2,400 households (January 16 – February 6, 2026) The two pending class action lawsuits filed February 5 and February 10, 2026 CEO William J. Fehrman and CFO Trevor I. Mihalik personally signed all 32 Sarbanes-Oxley Section 302 and Section 906 certifications across every AEP operating company, including Appalachian Power Company (the direct operator of the East Lynn substation). These certifications state under penalty of perjury that the 10-K "does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made... not misleading." This omission occurred while Andrew Teno (Icahn Group) was already seated as non-voting Board Observer (appointed December 22, 2025). These facts raise serious questions about whether EPA Region 3 adequately oversaw WVDEP's compliance with Safe Drinking Water Act public notification requirements and whether EPA Region 3 failed to detect or act upon a major utility's material non-disclosure to investors and the public in violation of federal oversight obligations. 2026-EPA-05179	Stern, Kenan	Kenan-Flagler Business School	Subject: FOIA Request for Sexual Harassment Training Materials and Related Records To the FOIA Office: We are a group of researchers collecting data on harassment training materials used by organizations. Our goal is to aggregate data from many organizations' training materials and analyze it across different types of trainings and organizations. We will not be looking at data at the individual-organization level, and will not be singling out individual organizations in our analysis. We know you have a lot of work, so we truly appreciate your time and assistance with this request. Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I request access to records concerning sexual harassment training used, provided, assigned, distributed, or required by the Environmental Protection Agency. I kindly request records from January 1, 2018 through the date this request is processed, regarding: Sexual harassment training materials used by your agency in any of the following forms: slide decks / PowerPoints PDFs training scripts captions, transcripts, or subtitle files for training videos screenshots, exports, or	05/28/2026

			equivalent records for online training modules or LMS-based training quizzes, assessments, or knowledge checks associated with the training With each training material or module, please provide a record or note indicating when it was created, adopted, revised, or last updated, and identifying whether the material was created internally, adapted from another government source, or purchased/licensed from a third party Please also provide a record or note identifying the office(s) or program(s) responsible for creating and administering the training, such as Title IX, Equal Opportunity, Human Resources, Compliance, or Employee Relations offices. Please provide the records in electronic format where possible. For slide decks, please provide native PPT/PPTX files if readily reproducible, and PDF copies if native files are not available. For online modules, if full export is not possible, I request screenshots, transcripts, scripts, captions, course outlines, and any equivalent records maintained by the agency. If any portion of this request is denied, please release all reasonably segregable non-exempt portions and describe the basis for each withholding. If this request is considered too broad, please contact me so I may narrow it. If responsive records are maintained by particular subcomponents or offices, please construe this request to include those locations most likely to maintain training, EEO, HR, ethics, civil rights, compliance, and workforce-development records. If there are any fees associated with this request, please notify me before processing further. Please also confirm receipt of this request and provide a tracking number. I request a waiver or reduction of fees on the ground that disclosure of these records is in the public interest because it will contribute significantly to public understanding. 2026-EPA-05313	Scacchi, John	Pacific Legal Foundation	Hello. I am requesting the disclosure of all notices of intent to sue submitted to the EPA under four statutes: Clean Water Act, Clean Air Act, Comprehensive Environmental Response, Compensation, and Liability Act, and the Resource Conservation and Recovery Act. Specifically, I am seeking notices of intent where private parties plan to sue private defendants under 33 U.S.C. 1365(a)(1), 42 U.S.C. 7604(a)(1), 42 U.S.C. 9659(a)(1), and 42 U.S.C. 6972(a)(1)(A)-(B). I would like records dated May 1, 2026, to May 31, 2026. If logs are available, I would like the information to include the name of the party who submitted the NOI, the complainant, the party receiving the NOI, and the NOI type (i.e., title of the anticipated action) in an electronic format please. I would prefer both a list of the notices as well as copies of the notices themselves, but I am happy to accept just copies of the NOIs if logs are unavailable. This is a monthly request in accordance with prior conversations with Royan Teter and Kevin Hill. I am happy to clarify anything about this request. Thank you very much! - Mitchell Scacchi (Date Range for Record Search: From 05/01/2026 To 05/31/2026)	06/01/2026

2026-EPA-05277	Stodgel, Amanda	Rn BSN CN IV CLNC	Dear Freedom of Information Act Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and U.S. Environmental Protection Agency (EPA) regulations set forth in 40 C.F.R. Part 2, Subpart A, I hereby request disclosure of the following records regarding the Class VI permit application for located in or impacting Galva, Illinois: Emergency and Remedial Response Plan (ERRP): The complete, project-specific Emergency and Remedial Response Plan submitted as part of the permit application. Risk-Based Assessment: Any project-specific risk-based assessments, contingency plans, or rupture modeling submitted by the applicant. Financial Assurance Documentation: All documents detailing the financial assurance mechanisms and trust funds established by the applicant for this project. Request for Expedited Processing: I request expedited processing of this request pursuant to 5 U.S.C. § 552(a)(6)(E). There is a "compelling need" to inform the public regarding this project due to significant environmental justice and safety concerns for the Galva community. The potential risks associated with the proximity of this project to residential areas create a pressing need for the community to understand the federal government's oversight and the operator's safety infrastructure. Request for Fee Waiver: I request a waiver of all fees for this request. Disclosure of this information primarily benefits the general public by significantly assisting citizens in Galva in understanding the safety and emergency infrastructure associated with the proposed carbon sequestration project, which is a matter of intense public interest. Please provide these records in electronic format. If any portion of these documents is withheld, please identify each record and state the specific legal basis for the denial. Please confirm receipt of this request and provide the assigned tracking number as soon as possible.	06/01/2026

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. §§ 552, et seq., and the U.S. Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, Bergeson & Campbell, P.C. (B&C®) hereby requests from EPA copies of all documents submitted to EPA from or in support of the Heartland Health Research Alliance's (HHRA) Heartland Study (HS), including information pertaining to the presence of herbicides in human urine. Documents responsive to this request likely will be maintained by the Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request. B&C understands that some of the documents responsive to this request may have to undergo confidential business information (CBI) review. B&C requests that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible. If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform B&C of the basis for the claimed exemption, and furnish us with copies of those portions of the document that you determine not to be exempt. B&C's consent to such deletion at this time is designed to facilitate your prompt response and in no way waives B&C's right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information. B&C requests that you provide us with accurate copies or a complete and accurate account of the information requested. B&C agrees to pay reasonable search and reproduction costs; if these costs exceed \$200.00, however, B&C requests that you notify us before reproducing the documents. B&C understands it can expect a response within 20 days of your receipt of this letter.	06/02/2026
2026-EPA-05347	May, Beatrice	-	Under the Freedom of Information Act, I am requesting the following records: Copies of all schedules, calendar entries and correspondence relating to the work schedule of Environmental Protection Agency Administrator Lee Zeldin between April 1, 2026, to April 30, 2026. I look forward to receiving your response within 20 business days, as required by statute, Beatrice May (Date Range for Record Search: From 04/01/2026 To 04/30/2026)	06/02/2026
2026-EPA-05348	May, Beatrice	-	Under the Freedom of Information Act, I am requesting the following records: Copies of all schedules, calendar entries and correspondence relating to the work schedule of Environmental Protection Agency Administrator Lee Zeldin between May 1, 2026, to May 31, 2026. I understand there may be a cost associated with this request. Please reach out to me directly once you have a price estimate. I am requesting these records on behalf of the Climate Action Campaign, or CAC. CAC's FOIA requests seek records to illuminate and inform the public debate regarding the federal government's activities related to climate change, clean energy, and the environment. CAC is a nonpartisan coalition of a dozen major national environment, environmental justice, and public health groups working together to drive ambitious, durable federal action based on science to address the climate crisis. CAC is a non-profit organization that was established by The Partnership Project, a 501(c)(3) non-profit. The coalition, based in Washington, D.C. but with members from across the country, supports more than 60 partners and allies across the nation working to rally public support to tackle the climate crisis. These partners include Arizona Forward, Center for American Progress, Moms Clean Air Force, PennFuture, and the Union of Concerned Scientists. CAC's goal is to	06/02/2026

2026-EPA-05382	Hirji, Zahra	Bloomberg News	Dear EPA FOIA Officer, Under the Freedom of Information Act 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I am requesting an opportunity to inspect or obtain copies of all public comments submitted to the Environmental Protection Agency regarding the proposed rule "Reconsideration of the Greenhouse Gas Reporting Program." On September 16, 2025, EPA announced in the Federal Register that it was reconsidering the Greenhouse Gas Reporting Program, soliciting public comment through November 3, 2025. According to Regulations.gov, 53,085 public comments were received during that time. However, as of June 2, 2026, only about 1,570 have been posted online. I am requesting access to all public comments submitted on the proposed rule received between September 16 to November 3, 2025. I'm specifically requesting to receive the records digitally or electronically. If there are any fees for searching or copying these records, please inform me if the cost will exceed \$25. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of this proposal. I will use this information in my Bloomberg News reporting on the proposal rule and its economic impacts on American industry, including the oil and gas industry. This information is not being sought for commercial purposes. If you intend to deny this request, I will expect to hear from you within the 20 business days after confirming the receipt of my request as mandated by law. Also, if you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. Thank you for considering my request. Sincerely, Zahra Hirji (b) (6) (Date Range for Record Search: From 09/16/2025 To 11/03/2025)	06/02/2026

2026-EPA-05267	Ivanov, Valerii	Impulse Storm ltd	I request the following records of the U.S. Environmental Protection Agency, created or received between January 1, 2018 and the date this request is processed: Records sufficient to identify EPA's participation in the NFPA Technical Committee on Aerosol Extinguishing Technology (the technical committee responsible for NFPA 2010), including records identifying any EPA employee who served on that committee as a member, alternate, or liaison, and any health, toxicity, or human-exposure information EPA provided to NFPA for use in NFPA 2010. All records that state, derive, calculate, review, justify, or otherwise reference the maximum allowable design application density for Powdered Aerosol I (GreenSol) in normally occupied spaces, including any record containing the value "156 g/m³" (or "156 g/m3") in connection with Powdered Aerosol I. All communications between EPA and any of the following, concerning Powdered Aerosol I / GreenSol, NFPA 2010, the use of aerosol extinguishing agents in normally occupied spaces, or occupied-space design application densities: (a) the National Fire Protection Association (NFPA); (b) any member, alternate, liaison, or staff of the NFPA Technical Committee on Aerosol Extinguishing Technology; and (c) GreenEx Fire Suppression Solutions BV or any representative of the submitter of Powdered Aerosol I. The SNAP submission for Powdered Aerosol I (GreenSol) and EPA's evaluation records underlying Determination 38 (88 FR 61977; Docket EPA-HQ-OAR-2003-0118), including the risk screen, the toxicity/health review, any internal technical analysis, and records reflecting the basis for EPA's statement in Determination 38 that the agent's post-activation products, including carbon monoxide, are not expected to exceed the NIOSH Immediately Dangerous to Life or Health (IDLH) value in end-use conditions. Scope note. I do not seek any third party's confidential business information. Where responsive records contain such information, I ask that EPA release the records with that information redacted, so that processing is not delayed by submitter notification. Format. Please provide responsive records in electronic form, in native format with available metadata where reasonable, delivered through the FOIA Public Access Link. Fees. This request is made in the public interest, concerning the health and safety of occupants of spaces protected by aerosol extinguishing systems, and not primarily for commercial benefit; I request a waiver of all fees. I am not willing to pay any fees. If the fee waiver is denied, please do not incur any fees: instead, notify me, and treat this request as limited to records retrievable at no cost, or contact me to narrow the scope accordingly.	06/03/2026

2026-EPA-05384	Hirji, Zahra	Bloomberg News	Dear EPA FOIA Officer, Under the Freedom of Information Act 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I am requesting an opportunity to inspect or obtain copies of all internal communications and documentation regarding EPA's Green Power Partnership's 2025 quarterly top rankings. For several years, EPA's Green Power Partnership program, a voluntary agency program working with companies to expand their purchasing of clean power, has published top partner rankings every quarter. There are multiple top lists – National Top 100, Top 30 College & Universities, Top 30 K-12 Schools, Top 30 Local Governments, Top 30 On-Site Generation, Top 30 Retail, Top 30 Tech & Telecom, 100% Green Power Users, Fortune 500 Partner List, and Long-term Contracts – which were updated and posted every January, April, July, and October. According to EPA's website, all the Top Partner Rankings were last updated in October 2024, with a note saying: "2025 Top Partner List Update Schedule – Coming soon!". This webpage was last updated December 12, 2025, per EPA's website, but no 2025 partner lists were published. I'm requesting all internal communication and documents about the Green Power Partnership's	06/09/2026

			rankings in 2025, including but not limited to internal emails, phone call logs and notes, text messages, calendar schedules, meeting notes, and memos. I'm specifically requesting information for the time period between January 1, 2025 and December 31, 2025. I'm specifically requesting to receive the records digitally or electronically. If there are any fees for searching or copying these records, please inform me if the cost will exceed \$25. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of this program and its rankings. I will use this information in my Bloomberg News reporting on this program's popular ranking, which companies and other organizations have cited in their own sustainability records. I am also requesting expedited processing. This is a public program that has seemingly been inactive for over a year with little to no public communication. These records will help provide transparency on what's happened to these rankings. If you intend to deny this request, I will expect to hear from you within the 20 business days after confirming the receipt of my request as mandated by law. Also, if you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. Thank you for considering my request. Sincerely, Zahra Hirji (b) (6) [REDACTED] (Date Range for Record Search: From 06/01/2025 To 12/31/2025)	
2026-EPA-05533	Hirji, Zahra	Bloomberg News	Dear EPA FOIA Officer, Under the Freedom of Information Act 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I am requesting an opportunity to inspect or obtain copies of all state requests, letters, and related applications submitted to the Environmental Protection Agency seeking approval to run their own coal combustion residual (CCR) permit program under the Resource Conservation and Recovery Act (RCRA). I'm specifically seeking state requests and related records submitted to the EPA between November 5, 2024 and June 5, 2026. (date range amended June 16, 2026) Since the start of the second Trump administration, the EPA has already approved North Dakota's program in November 2025 and Wyoming's program in February 2026. Additionally, the agency has proposed approval for both Virginia's program in May 2026 and Louisiana's program in June 2026. I am specifically requesting documentation for the state requests, applications and other related documentation tied to these four state programs listed above, as well as any other state request for a coal combustion residual program where the EPA has not yet made a preliminary or final decision. 2026-EPA-05594	Brombacher, Markus	INREX, LLC	This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents, including but not limited to correspondence, internal memoranda, reports, notes, records or other materials in the Environmental Protection Agency's ("EPA's") pesticide registration files for the following Atticus, LLC pesticide product: 91234-478 ("AR3127.102"). We would appreciate it if EPA would give priority to the following documents and provide them to us under separate cover as soon as they have cleared EPA's Confidential Business Information review: 1. any submission/application correspondence with EPA; 2. any EPA Form 8570-1 (Application for Pesticide – Section 1); 3. any EPA Form 8579-34 (Certification with Respect to Citation of Data); 4. any EPA Form 8570-35 (Data Matrix); and 5. any EPA Form 8570-27 (Formulator's Exemption Statement). In addition, we seek meeting minutes prepared as required under 40 CFR 155.30(d)(1-7) as well as materials not designated as CBI identified as per 40 CFR 155.30(d)(6) for correspondence between EPA and representatives (employees or consultants) of Atticus, LLC (EPA Co. No. 91234) and Argite, LLC (EPA Co. No. 87373) related to the companies' fulfillment of requirements under the Data Call-In Notice for the pesticide Indaziflam, GDCI-080818-5729. Please provide correspondence including email, official meeting notes, presentations, or other materials provided to or created by the agency. Furthermore, we seek copies of any EPA Forms 8570-32 (CERTIFICATION OF ATTEMPT TO ENTER INTO AN AGREEMENT WITH REGISTRANTS FOR DEVELOPMENT OF DATA) filed by the above-referenced companies and/or their representatives related to the above referenced GDCI. This request does not apply to any documents or portions thereof contained in these files that are Confidential Business Information. Further, this FOIA request does not seek test data, manufacturing processes, or the confidential statement of formula for this or any other pesticide product. We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$100. If I may be of any assistance with this matter, please do not hesitate to contact me at (b) (6). Thank you in advance for your assistance. Sincerely, Markus W. Brombacher, INREX, LLC, 9915 Corsica St., Vienna, VA 22181.	06/10/2026

2026-EPA-05573	Mccready, Ken	-	FOIA REQUEST: Clean Water Act Notice of Violation; Michigan; Iosco County; Grant Twp.; East Branch, Au Gres River; FOIA Request Dear Administrator: Pursuant to 5 U.S.C. sec. 552, the Freedom of Information Act (FOIA), please provide me with any permit application, permit or both, granted the State of Michigan or its Department of Natural Resources or any other agency, that would authorize the dumping of live and dead fish into the above river, for each and every year the state applied. The state calls it "fish planting." It's pollution, by definition (see, e.g., "pollutant," in 33 USC § 1362(6)). It's a scheme they've perpetrated for a number of years. I'm including an Exhibit from my pending litigation against the state of Michigan which it submitted to establish the subject river as navigable. This Exhibit shows the state maintains this as an ongoing, systemic program of pollution. I don't know the percentage of dumped fish that are dead; this will require cooperation of the state of Michigan, and it is uncooperative. I would seek the same in discovery and you may obtain it by administrative action, of course. It doesn't appear that the Code distinguishes between live and dead fish for purposes of banning the dumping of effluent and pollutants. I do not concede that this river is navigable; in fact, the state of Michigan is, in that pending litigation, laying the issue that it is the planting of fish that makes this river navigable (among other things). But the state of Michigan asserts that the river is navigable. I think I may provide this notice and file any subsequent citizen suit based on the state of Michigan's asserted position that the river is navigable for any number of reasons, not including the dumping of fish itself. If I am wrong, in my suit that seeks a declaration of non-navigability of the river, then this claim springs to life. If there is a state-authorized program that EPA authorized, please provide any such final document or documents that commemorate the authorization of the state to proceed in such "fish planting" activities without further involvement of EPA. If you are aware of any other legislation, regulation or waiver that would allow the state of Michigan to dump fish into this particular (or any other, navigable) river in Michigan, please advise me. For now, though I dispute that this river is navigable, I am placing the Agency on notice that the state of Michigan is regularly and consistently, in operation of a "fish planting" program that shows every indication of continuing into perpetuity, dumping both live and dead fish into the above river, AND MANY OTHERS, constituting the discharge of effluent in violation of the Act. This affects, offends and aggrieves me because our drinking water comes, in part, now and will in future emergency situations, from the river. When it becomes necessary to have	06/10/2026

2026-EPA-05590	Xu, Fengyi	-	I am requesting the exact latitude and longitude coordinates for all public water system (PWS) facilities maintained within the Safe Drinking Water Information System (SDWIS/FED). This data is required for academic hydrology research evaluating electricity-sector water demands and associated regional water stress under future extreme climate scenarios. The exact coordinates are necessary to perform accurate spatial joins, assigning each water facility to its corresponding HUC12 granular basin. This mapped data will then be integrated into the hydrological model to assess regional water footprints alongside a multi-year simulation (2023–2030) of US power grid capacity expansion. To address critical infrastructure security concerns, the precise spatial coordinates will be utilized strictly for internal geoprocessing. No exact facility locations or pinpoint coordinates will be published, shared, or made public. All final research outputs, datasets, and journal publications will exclusively feature aggregated data at the HUC12 watershed scale. 2026-EPA-05669	Puchalsky, Richard	PERI	On behalf of the Political Economy Research Institute (PERI), an independent unit of the University of Massachusetts Amherst, I request an electronic copy of information that EPA may have in connection with its Risk Screening Environmental Indicators (RSEI) proposed version 2.3.13 with last data year 2023. This information is specifically three database tables that are usually described as the RSEI Public Data Release "Off-site", "Releases", and "Submissions" tables with 1 record per Toxic Release Inventory (TRI) offsite destination, per TRI submission, and per TRI release respectively. These tables could be used to link TRI data, which PERI already has, with some v2.3.13 RSEI information that has already been released to the public. We previously obtained the "Facility" and "Chemical" files via FOIA: these 3 additional tables would provide linkages to off-site transfers to POTWs and incinerators, which we would use to further inform the public. I understand that the RSEI Public Data Release version has not been released to the public, but this table information seems likely to have been prepared by EPA's contractor(s) and sent back to EPA. It consists of links between ID numbers, as well as some data separately released as part of TRI, and should not be the subject of internal agency deliberation. The updated data are critical for timely analysis of corporate environmental performance: PERI releases free web-based analysis and search pages called the Toxic 100 Air Polluters and Toxic 100 Water Polluters to the public every year that are based on the EPA data, and this year the EPA data are late. (They are usually published in Feb-Mar). PERI is working on a somewhat reduced but still valuable to the public analysis of the data: these 3 additional tables would improve our analysis.. 2026-EPA-05717	Chen, Matthew	EHS Support, LLC	I am requesting the comprehensive electronic database for the San Jacinto River Waste Pits Superfund Site (TXN000606611). As described in the Preliminary Site Characterization Report and the Remedial Investigation Report for the SJRWP Superfund Site: "Although the UAO does not require that Respondents produce hard copy data reports, Respondents maintain a comprehensive electronic database for the project and provide USEPA with period updates in Microsoft Access." and "Database updates are typically provided to USEPA after newly validated data are received and incorporated. The project database is a comprehensive and the definitive source of chemistry data that will be used in the RI/FS, and used in this report."	06/15/2026
2026-EPA-05720	Horn, Bill	-	Region 5 conducted an inspection March 10-13 2026 at Lawrenceville, Illinois. This inspection was conducted by a team that included Eric Small. The report was finished 70 days later. We had submitted a previous FOIA request (2026-EPA-03712) and received the report, but Appendix D of the report requested documents for the last 5 years. We are asking for those documents that Lawrenceville, Illinois should have provided in response to Appendix D. If Lawrenceville failed to provide those requested documents, then we would like documents that show this failure as well as documents that explain the protocol for failure to submit those documents. We are really interested in a few specific things from Appendix D.: - The wastewater budget - Acute Toxicity data pursuant to special condition 11 - Televising Summary - Laboratory certification/sample - Chain of custodies - SSOs standard operation , report procedures - Semi- annual sludge report - Basically anything that was requested but not submitted. We hope that the responses go back the 5 years. Thank you.	06/15/2026

2026-EPA-05627	Lanham, Dewight	The Changing Road, See Today to Remember Tomorrow	At sometime in the 20th Century, the city of Franklin, TN built an incinerator to burn the city's trash. It was located at the end of Incinerator Road, Franklin, TN. Eventually, the top of the incinerator had broken which caused soot and ashes to fly out when the trash was burning. In 1982, a neighbor to the incinerator, James Leach, called the EPA to have them look into the problem. I have talked to Mr. Leach, and according to him, when the EPA came, they immediately shut it down. I have asked many Franklin government employees about the incinerator as well as the Tennessee Department of Environment and Conservation but very few even know there was an incinerator much less know what happened to it. I personally saw it in the late 1980's after it was shut down. In the past few years, Franklin and Williamson County has grown significantly. In 2017 I began making YouTube videos of roads in Williamson County called The Changing Road, See Today to Remember Tomorrow.(https://www.youtube.com/channel/UCB3FIA6jhFcPUCdFmG50v8Q) When possible, I include available historical information such as Historical Markers, old cemeteries and changes that have been made to a road. I have made the dashcam of Incinerator Road but I am searching for dates and photos of the incinerator to include in the YouTube video. Please search the EPA files for the complaint by Mr. Leach in 1982 and include, if possible, when it was built, when it was closed and especially any photos or videos of the incinerator. I believe our county historian, Rick Warwick, and the county archives would also be interested in the information you find. Please either mail it to me or as an attachment to an email. Thank you kindly, Dewight Lanham	06/16/2026

2026-EPA-05811	Mohamed, Gus	-	I filed a complaint with you regarding MDEQ not enforcing the City of Belzoni, MS fixing a sewage line that repeatedly backed up into my house causing it to be flooded over 8 times, rendering it uninhabitable and causing it to become uninsurable. MDEQ cited the city, and the lack of the city responding, MDEQ turned it over to enforcement that never did anything to make the city fix this. The first flood was in March of 2024 and MDEQ came out. It continued to flood 8 more times through December 2025 when we installed back flow valves to make it stop, but that rendered our plumbing useless when they were closed. The house can never be repaired especially since this is still an on going problem. I filed a complaint with EPA in December of 2024 and got a call from MDEQ in response to EPA contacting them. MDEQ came out in January of 2025 and inspected, and video taped the lines finding the city sewage lines to my house were cracked and leaking causing excessive intrusion of run off ground water to overwhelm the sewage line forcing the water back into my house. I am requesting any and all information regarding survey, video, reports that MDEQ may have given in response to this inspection regarding my complaint filed with EPA. However, subsequent emails replying to or forwarding such emails with commentary are responsive to this request. (Date Range for Record Search: From 06/16/2025 To 06/16/2026)	06/24/2026
2026-EPA-05741	Patel, Dhruv	Hunterbrook Media	Hunterbrook Media requests digital copies of final or formal U.S. EPA records concerning VISCOFAN USA INC, 50 COUNTY COURT, MONTGOMERY, AL 36105, FRS ID Number 110003389734. This request includes final or formal inspection reports, enforcement actions, notices of violation, warning letters, informal or formal enforcement records, final findings, and follow-up records concerning the facility. Hunterbrook Media also requests external communications from 01/01/2018 to the date this request is processed concerning environmental complaints about the facility. This includes communications between U.S. EPA Region 4 personnel and outside parties, including state environmental agencies, members of the public, complainants, company representatives, or other non-EPA entities. This request does not seek purely internal EPA communications, internal drafts, deliberative materials, or predecisional materials. Confidential Business Information is outside the scope of this request; please exclude records or portions of records that would require CBI substantiation, and please do not initiate the CBI substantiation process. This request is submitted with a request for expedited processing based on an environmental justice-related need. The requested records concern EPA oversight of a regulated industrial facility and external environmental-complaint communications involving potential community impacts. Prompt disclosure would help inform the public and potentially affected community members about EPA's inspection, enforcement, and complaint-response	06/24/2026

2026-EPA-05722	Ilavarasan, Uma	-	Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I request records sufficient to identify all applicants to the Clean Heavy-Duty Vehicles (CHDV) Grant Program authorized under the Inflation Reduction Act of 2022, for the 2024 Notice of Funding Opportunity (application period closed July 25, 2024). Specifically, I request the following fields for each applicant (both awarded and non-awarded): • Applicant organization name • EPA Region • State • Sub-program applied for (School Bus or Vocational Vehicles) • Community type (e.g., nonattainment area, territory, tribal, or other) This is the same level of detail EPA has already made public for awardees on the CHDV Grant Program Awards page. I am not requesting application narratives, technical proposals, budget details, scoring information, reviewer notes, or any other deliberative or commercial information. A simple list or spreadsheet of applicant names and the above fields would fully satisfy this request. Additionally, if available as a discrete field, I request the total funding amount requested by each applicant. I understand this field may be treated differently from the above and ask that any partial withholding not delay production of the remainder of the records. Please produce responsive records in electronic format (e.g., CSV, XLSX, or PDF) via email or the FOIA online portal. (Date Range for Record Search: From 04/24/2024 To 01/31/2025)	06/24/2026
2026-EPA-05750	Oswalt, Dakota	Northwest Missourian	Scale Microgrids, a renewable energy company owned by EQT, is considering building a data center eight miles south of Maryville, Missouri. During a public forum, concerned residents wondered how this data center would affect the local ecosystems and agriculture. Consultants working with Scale Microgrids assured one resident that the project had been evaluated by the EPA, and that more information on the EPA's approval of the project was found on Scale Microgrids' website. I, however, could not find any information on that website about the project's compliance with the EPA. I am wondering if this project has truly been examined by the EPA or if the consultants are just saying that. In order to help to determine my status to assess fees, you should know that I am a member of the news media, serving as the editor-in-chief of the Northwest Missourian newspaper at Northwest Missouri State University. I am submitting this FOIA request as a part of my duty to serve my campus and the Maryville, Missouri, community. I request that a copy of the following documents, or documents containing the following information, be provided to me: I would like any and all information the EPA has regarding Scale Microgrids' White Cloud Acres project in	06/24/2026

2026-EPA-05751	Norquist, Luke	-	The Hennepin Energy Resource Center has a Clean Air Act compliance-monitoring activity of type "Information Request" (Formal), with EPA as Lead Agency, dated 04/13/2026, against Source ID MN0000002705300400 (ICIS-Air; FRS ID 110028022903). This request concerns that Information Request and records reasonably associated with it. RECORDS REQUESTED: 1. The April 13, 2026 Information Request issued by EPA Region 5 to HERC, its operator/owner (GRE HERC Services LLC / Great River Energy; Hennepin County), or the legacy permittee Covanta Hennepin Energy Resource Co LP — including the letter/notice and all attachments, enclosures, appendices, questionnaires, schedules, and certification forms. 2. All cover/transmittal correspondence serving or transmitting that Information Request on the facility or its operator/owner. 3. All responses and submissions made by the facility or its operator/owner in reply, including response letters, data, monitoring records, certifications, and supplemental responses. 4. All correspondence between EPA (or its contractors) and the facility or its operator/owner concerning the Information Request, including extension requests, clarifications, and any Confidential Business Information (CBI) claims. 5. Any reasonably associated ICIS-Air activity record(s) for this Information Request (data fields, activity log, linked documents). DATE RANGE: January 1, 2025 through the date of processing. FORMAT: Please provide responsive records electronically (searchable PDF) where possible. (Date Range for Record Search: From 01/01/2025 To 06/15/2026)	06/24/2026
2026-EPA-05773	Garritty, Austin	We the peopl	I hereby request copies of all records, communications, and documents maintained by the Environmental Protection Agency (EPA) regarding the proposed data center project and/or Metered Mining operations within or near the Village of Hammond, St. Croix County, Wisconsin. Scope of Request This request includes, but is not limited to, the following materials generated, received, or held by the EPA from January 1, 2025, through the date of this processing: All permit applications, environmental impact assessments, water usage evaluations, and air quality reviews submitted by or on behalf of Metered Mining or any affiliated contractors regarding a data center development in Hammond, WI. All internal and external correspondence (including emails, meeting notes, memos, and letters) between EPA personnel (including Region 5 officials) and representatives of Metered Mining, local Hammond village officials, or St. Croix County officials regarding this project. Any regional grid, energy, or environmental impact reviews conducted by the EPA concerning the electrical infrastructure load changes related to this specific proposal.	06/24/2026
2026-EPA-05780	Hu, Jian	Singapore Management University	I request records already maintained in EPA's Emissions Inventory System (EIS): a standard facility-process point-source emissions export for the off-cycle (every-year) inventory years 2018, 2019, 2021, and 2022 — the same report EPA uses to build the public NEI "*_facility_process_byregion" data summaries. I am NOT requesting creation of a new record, only an export of existing EIS data. Scope: all nationwide stationary point sources (50 states + DC), facility-process level (one row per facility x process x pollutant). Fields: eis_facility_id, tri_facility_id, agency_facility_id, site_name, state, county, fips, primary_naics_code, scc, process_description, pollutant_code, pollutant_desc, total_emissions, emissions_uom, inventory_year, site_latitude, site_longitude. Pollutant priority: Volatile Organic Compounds (VOC). If a full pollutant export is no additional burden, please also include all criteria air pollutants (CAPs) and HAPs. Format: CSV, delivered electronically. I already hold the public triennial NEI (2017, 2020, 2023), so ONLY these four off-cycle years are needed. Non-commercial academic research at Singapore Management University; results reported only in aggregate/regression form. (Date Range for Record Search: From 01/01/2018 To 12/31/2023)	06/24/2026

2026-EPA-05966	Sanders, Matthew	Stanford Law School	This request covers all such notices EPA received, whether or not posted on EPA's "Notices of Intent to Sue the U.S. Environmental Protection Agency (EPA)" webpage (https://www.epa.gov/ogc/notices-intent-sue-us-environmental-protection-agency-epa). This request includes the following documents: 1. A list of every NOIS that EPA received from January 1, 2012, through the date EPA conducts its search. To the extent EPA maintains information about NOIS in a database, log, spreadsheet, or other electronic system, this item includes a copy of that system's records in a structured electronic format (e.g., Excel or CSV), including any data fields not reflected in EPA's publicly June 24, 2026 Page 2 available NOIS listing—for example, any field reflecting the status or disposition of the NOIS. 2. Any document created as part of any action taken in response to each NOIS that EPA received from January 1, 2012, through the date EPA conducts its search, including any settlement agreement or consent decree resolving or arising from a NOIS, and any document reflecting a decision by EPA to initiate, decline, or assume (i.e., to "overfile") enforcement in response to a NOIS. 3. Any communication between EPA and the party that submitted a NOIS (or that party's representatives), made in relation to any NOIS that EPA received from January 1, 2012, through the date EPA conducts its search. For NOIS submitted under the Clean Water Act or the Endangered Species Act, this item additionally includes any internal EPA communication made in relation to those NOIS. 4. All policies, guidance documents, manuals, standard operating procedures, directives, memoranda, and training materials governing EPA's receipt, logging, evaluation of, or response to NOIS. Requesters do not limit this item to the time period specified above. 5. All documents concerning (a) EPA's adoption of, or transition to, an electronic system for submitting or receiving NOIS, including any proposal, rulemaking record, or statement of the system's purpose; and (b) EPA's implementation, as it relates to NOIS, of the 2017 agency directive addressing "sue-and-settle" practices. 6. Any records describing how EPA compiles, updates, and maintains its public "Notices of Intent to Sue the U.S. Environmental Protection Agency (EPA)" webpage (https://www.epa.gov/ogc/notices-intent-sue-us-environmental-protection-agency-epa) and any underlying database, including any criteria governing whether a notice EPA receives is posted; and any records identifying notices EPA received but did not post, or that were posted and later removed	06/25/2026

2026-EPA-05967	Zhang, Kaili	-	I am requesting SDWIS-FED / Safe Drinking Water Information System records related to public water system source facilities, especially surface-water intakes, for non-commercial academic research at Texas A&M University. The research purpose is to assign data-center direct water consumption to HUC12 watersheds using the best available public water supply source-location information. I do not intend to publish, redistribute, or display exact source-water intake coordinates. I request records, preferably in CSV or geodatabase format, containing the following fields where available: 1. PWSID; 2. Facility ID; 3. Facility name, if releasable; 4. Facility type code, including intakes, infiltration galleries, reservoirs, springs, wells, and wellheads; 5. Source indicator; 6. Water type code, including surface water, groundwater, and groundwater under the influence of surface water; 7. Facility activity/status code; 8. State and county identifiers; 9. Latitude and longitude, if releasable; 10. Latitude/longitude source, determination method, and verification method, if available; 11. HUC12 watershed code for the facility location, if available or derivable. Because I understand that exact latitude/longitude data for source-water intakes may be sensitive, I request the least-sensitive version sufficient for the research purpose. If exact latitude/longitude cannot be released, please provide a facility-level crosswalk containing PWSID, Facility ID, facility/source type fields, water type, status fields, and HUC12 watershed code, without exact coordinates. If access to latitude/longitude data requires additional justification or restricted-use procedures, I am willing to provide institutional affiliation documentation, advisor confirmation, a data management plan, and to sign a data-use agreement. The data would be used only for academic research, stored securely, and reported only in aggregated watershed-level results. Requested date range: current available SDWIS-FED records, and if available, historical records from 2000 to the present sufficient to identify active and inactive public water system source facilities. Fee category: educational or non-commercial scientific requester. I request a fee waiver or reduction because the requested information will be used for non-commercial academic research and will contribute to public understanding of water demand, watershed stress, and drinking-water source geography. If any portion of the requested records is exempt from disclosure, please release all reasonably segregable non-exempt portions, especially HUC12-only facility assignments if exact latitude/longitude fields are withheld. 2026-EPA-06004	Jin, Yingyi	Department of Resource Economics, University of Massachusetts Amherst	To whom it may concern, I hope this message finds you well! I am a PhD student at UMass Amherst working with Professor David Keiser (Yale University) on a research project examining the effects of water system consolidation. I am writing to request detailed data on all loans made through the Drinking Water State Revolving Fund (DWSRF) through the end of the year 2025. We seek data on the level of each individual loan (e.g., each row in the resulting dataset should list a single loan), rather than more aggregate summaries. We seek data covering all available years through the year of 2025. We seek all variables in the data, including but not limited to the following: loan amount; date loan was requested; date loan was disbursed; name, identification code, and address of the drinking water treatment plant or system that benefited from the grant; name, identification code, and address of the local government that managed the grant; unique grant number (grant identification code or grant-related tracking number); any other information on the purpose of the grant; grant terms (interest rate, duration, etc.), grant repayment information, written description of the grant project, state/federal grant share, and all other variables available in the data. All requested information will be used solely for academic research purposes. Please let me know if I can provide any additional clarification regarding our request. 2026-EPA-06052	Albright, Elizabeth	-	**Freedom of Information Act Request** Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I request records concerning EPA's legal interpretation of Section 1412(b)(1) of the Safe Drinking Water Act in connection with the proposed rule, *Rescission of Regulatory Determinations and Removal of Related Provisions for Four PFAS Substances* (91 Fed. Reg. 21263, May 20, 2026; Docket No. EPA-HQ-OW-2025-0654). The supporting economic memorandum for this proposed rule, *Overview of Costs and Benefits for the Rescission of Regulatory Determinations and Removal of Related Provisions for Four PFAS Substances* (EPA-HQ-OW-2025-0654-0009), states that the proposal is intended "to correct the unlawful procedure under which these regulations were promulgated" and repeatedly relies upon the conclusion that the 2024 PFAS rule was promulgated without following the statutorily prescribed process. Because these are legal conclusions rather than economic findings, I request the agency records that support or adopt those conclusions. Specifically, I request final agency records created between January 20, 2025, and May 20, 2026, including: 1. Final legal memoranda, statutory analyses, interpretive memoranda, decision memoranda, or equivalent records that explain or adopt EPA's conclusion that Section 1412(b)(1) of the Safe Drinking Water Act does not authorize the concurrent proposal or promulgation of regulatory determinations and National Primary Drinking Water Regulations. 2. Final memoranda or briefing materials prepared for or provided to the EPA Administrator, Deputy Administrator, Assistant Administrator for Water, General Counsel, or other senior agency officials explaining the legal basis for the statement that the 2024 PFAS National Primary Drinking Water Regulation was promulgated through an unlawful procedure. 3. Final records that memorialize the adoption or approval of this interpretation by EPA leadership, including decision memoranda, approval memoranda, or policy memoranda. 4. 2026-EPA-06039	Kiel, Douglas	Northwestern University	I request copies of all reasonably segregable agency records, regardless of format, concerning the scoring, revision, reduction, non-listing, deferral, archiving, or reprioritization of CERCLA/Superfund sites on, adjacent to, or otherwise affecting tribal lands or tribal interests within EPA Regions 6, 8, 9, and 10. 1. DATE RANGE - Substantive Scope: December 11, 1980, through December 31, 2005. - Control/Migration Records: Include later-created records only to the extent they identify, locate, index, migrate, crosswalk, or control access to the substantive 1980–2005 files (e.g., CERCLIS-to-SEMS crosswalk data, database migration logs, file plans, FRC box lists). 2. GEOGRAPHIC AND PROGRAMMATIC SCOPE This request covers sites within Regions 6, 8, 9, and 10 located on, adjacent to, or impacting federally recognized tribes, reservations, pueblos, Alaska Native villages, tribal trust/allotted lands, or treaty-reserved resource areas (including usual and accustomed fishing, hunting, and traditional gathering grounds). Per GAO findings on historical data gaps, the search must not be limited strictly to sites explicitly coded with "Native American Interest" or "On Tribal Land" flags in active databases. Rather, queries must utilize the site and tribal search anchors provided below to locate relevant records. 3. RECORDS REQUESTED I request all responsive records, including draft, internal, contractor-generated, and non-final versions, divided into the following 10 categories: 1. HRS Scoring Packages: Preliminary, draft, revised, and final HRS scoring packages, worksheets, Quickscore outputs, scoring-factor tables, pathway calculations, QA/QC review comments, and contractor markups. 2. Site Assessment Reports: Draft and final Preliminary Assessments (PA), Site Inspections (SI), Expanded Site Inspections (ESI), pre-CERCLA screening forms, and formal "No Further Remedial Action Planned" (NFRAP), "Archived," or "Below Threshold" determinations. 3. Score Change Documentation: Change logs, adjustment memoranda, Headquarters-Regional variance records, and contractor redlines showing instances where a site score was reduced, an exposure pathway removed, an observed release uncredited, or target populations altered. 4. Tribal Exposure Pathways: Records concerning the inclusion, exclusion, or discounting of tribal subsistence, traditional lifeways, treaty-reserved resource use, ceremonial use, heavy local fish/game consumption, traditional plant consumption, and surface/groundwater exposures. 5. Internal Briefings & Ephemera: Internal emails, memoranda, briefing papers, talking points, handwritten notes, meeting minutes, and concurrence slips discussing HRS score reductions, NPL threshold avoidance, site archiving, delayed listing, or the diversion of sites to non-NPL cleanup mechanisms. 6. HQ-Regional Communications: Communications between EPA Headquarters and Regions 6, 8, 9, or 10 regarding whether tribal-impacted sites should be proposed for the NPL, deferred to RCRA, referred to state/tribal programs, or managed via the Superfund Alternative Approach. 7. Targeted Contaminant Files: Technical evaluations and site files regarding abandoned uranium mines, uranium tailings, mine/milling waste, radioactive substances, heavy metals, smelter wastes, and contaminated sediments affecting tribal lands in the targeted regions. 8. PRP & Lobb . . . The description has exceeded the character limit.	06/30/2026
