We are requesting that the Shelburne Falls Wastewater Treatment Plant be included for coverage under the Publicly Owned Treatment Works General Permit number POTW(MAG580002) issued on July 6, 2011. The facility received acceptance for coverage under the previous General Permit PTOW(MAG580002), and there have been no changes to the treatment operation since that time. The Dilution Factor at the Outfall has also not changed appreciably during that time, and was previously calculated at 239. Should you require additional information, please feel free to contact the Wastewater Treatment Plant Supervisor, Dan Fleuriel at (413) 625-2300 or Nick Tooker at Tighe & Bond (413) 572-3275.

Sincerely,

Buckland Board of Sewer Commissioners
