Re: Sunderland WWTP
NPDES Permit #MA0101079

Gentlemen:

Currently we discharge treated wastewater from our wastewater treatment plant under NPDES Permit #MA0101079, and have submitted our renewal (Transmittal # X238590) to the Massachusetts Department of Environmental Protection. Our contract operator through his discussions with you has stated that we appear to qualify under POTW GP NHG580000. We are writing to request authorization to discharge from our wastewater treatment plant under POTW GP NHG580000 to the Connecticut River.

If there are any questions regarding this correspondence please contact the Board of Selectmen's office at (413) 665-1441.

Sincerely,

  
Scott A. Bergeron, Chair Thomas D. Fydenkevez, Vice Chair David J. Pierce, Clerk
Board of Selectmen
