Re: Technical Review of Application – Set 3, Part 1
Carbon TerraVault Holdings LLC (CTV) II Project
Underground Injection Control (UIC) Permit Application
Class VI Pre-Construction Permit Application No. R9UIC-CA6-FY22-4.1-4.5

Dear Faisal Latif:

The United States Environmental Protection Agency, Region 9 (EPA) has identified additional information or clarification needed for continued evaluation of the subject permit application. The comments are included in two Enclosures to this letter: Evaluation of CTV's December 2024 Responses to EPA's Comments on Site Characterization, and Evaluation of CTV's December 2024 Responses to EPA's Comments on Project Financial Responsibility Information.

Please submit the information requested in the Enclosures by March 31, 2025. If additional time is needed to respond, CTV should submit to EPA a written request for extension that provides a proposed alternative due date and a justification for the time extension. If you have any questions about this letter and the Enclosures, please call me at (415) 972-3971, or contact Calvin Ho at (415) 972-3262.

Sincerely,

David Albright
Manager, Groundwater Protection Section
