Santa Clarita, CA 913558

Dear William Chessum:

On February 28, 2025, the United States Environmental Protection Agency, Region 9 (EPA) sent you a letter indicating that additional information is necessary to clarify and supplement the CTV V UIC Class VI permit application. In that letter, we requested CRC to submit the additional information by March 31, 2025.

On March 27, 2025, we received an email requesting an extension to submit the requested information by June 2, 2025, along with justification for the extension. The justification provided was that the complexity of the questions in the letter require additional time to complete a thorough evaluation and response. This letter confirms that we find your justification acceptable, and EPA grants your extension to June 2, 2025 to submit the requested information.

If you have any questions about this letter, please call David Albright at (415) 972-3971 or contact Kaylee Ball at (415) 972-3944.

Sincerely,

David Albright
Manager, Groundwater Protection Section
