Santa Clarita, CA 913558

Dear William Chessum:

On May 13, 2025, the United States Environmental Protection Agency, Region 9 (EPA) sent you a letter indicating that additional information is necessary to clarify and supplement CTV VI's UIC Class VI permit application for the Site Characterization and the Area of Review Delineation attachments. In that letter, we requested that CTV submit the additional information by June 12, 2025.

On June 3, 2025, we received your email message requesting an extension to submit the requested information by September 1, 2025, along with a justification for the extension. The justification provided was that the information is technically complex and will require additional time for CTV to complete a thorough evaluation. This letter confirms that EPA finds your justification acceptable and grants your extension to submit the requested information by September 1, 2025.

In light of this extension, we are adjusting the tentative project decision schedule to reflect the additional days associated with this extension. Enclosed is the new tentative project decision schedule.

If you have any questions about this letter, please contact Abby Farrell at (415) 972-3937, or call me at (415) 972-3971.

Sincerely,

David Albright
Manager, Groundwater Protection Section

Enclosure: Class VI Tentative Project Decision Schedule-CTV VI- June 2025
