

Northeast Alabama Community College

Office of the President
Dr. David Campbell

Jimmy H. Baker, Chancellor

Alabama Community College System

135 South Union Street

Montgomery, AL 36104

March 26, 2024

Dear Chancellor Baker,

I am writing in support of the Alabama Community College System (ACCS) application for an EPA Climate Pollution Reduction Grant (CPRG) and to confirm my college's intent to implement a key portion of the associated project as a sub-grantee. Our school will be joining other ACCS colleges in replacing old, high-mileage, gasoline- or diesel-powered vehicles with new energy-efficient electric vehicles (EVs). With grant funds, our college will replace a total of 3 vehicles with EVs and will also purchase and install one Level 3 (fast) charging station(s) to enable their continuous use and to support additional fleet electrification in the future.

As a leading change-agent in our service area, NACC is eager to invest in projects that showcase innovation, promote economic growth, and have a positive social impact, particularly in the low-income, disadvantaged communities in which many of our students live or work. By implementing EVs, the College will greatly reduce fuel consumption and realize significant savings on annual transportation costs. These savings translate into financial resources better used to support student success. In addition, by implementing EVs, NACC will be reducing greenhouse gas emissions, improving air quality, and contributing to a cleaner, healthier environment. We look forward to sharing our success in this project with our many community partners and serving as a role model for other organizations and individuals considering electric vehicle adoption.

Thank you for the opportunity to participate in this project. We look forward to hearing the good news that the ACCS application has been selected for funding.

Sincerely,

Dr. David Campbell
