RE: Climate Pollution Reduction Grants (CPRG) – Letter of Support

To Whom It May Concern:

Please accept this letter as confirmation by Construction Partners, Inc. ("CPI") of its full support of the application by the Alabama Department of Transportation ("ALDOT") for a grant relating to specifications for warm mix asphalt with temperature reductions and cold central plant recycling.

With operations in six states in the southeastern United States, including through its Alabama subsidiary, Wiregrass Construction Company, Inc., CPI agrees to support ALDOT's effort to develop innovative solutions for transportation infrastructure. Through partnership and collaboration, CPI will work with ALDOT to foster awareness through outreach, plant visits, technical presentations, and sharing lessons learned across state boundaries.

CPI believes that this proposal has the potential to make a significant impact by not only reducing the greenhouse gas emissions from the asphalt mixture industry, which has been often overlooked in favor of larger greenhouse gas emitters, but also energizing the industry nationwide. We look forward to working with ALDOT on this important endeavor and spreading the work across our industry.

Sincerely,

A handwritten signature in black ink, appearing to read "Heather Dylla".

Heather Dylla, Ph.D.
Vice President of Sustainability and Innovation
