

Kim Mahoney, PE, CDT, Associate Vice Chancellor Facilities and Campus Services

Kim Mahoney will be the principal investigator for UAA's projects identified in the grant application. She is a licensed civil engineer and has over 30 years of experience in project management, contract oversight, and grant administration for construction grants for public facility projects. She is familiar with grant compliance and associated reporting for multiple grant projects and has worked with agencies: US Department of Commerce Economic Development Administration (EDA), National Archives and Records Administration (NARA), and Health Resources and Services Administration (HRSA). She has managed multi-million dollar design and construction facility projects across Alaska and is familiar with complexities of remote projects.

In her role as the Associate Vice Chancellor of Facilities and Campus Services, she has planning, design and maintenance oversight of 3.2M gross square feet of facilities across 6 campuses. The replacement value of the portfolio she is responsible for is \$2.3B¹ in facility assets.

Chris McConnell, MS, PMP, UAA Director of Facilities Planning and Construction

Chris McConnell serves as the Director of Facilities Planning and Construction leading the capital project team for the University of Alaska Anchorage. Chris holds a B.S. in Construction Management, a M.S. in Engineering Management, and is a licensed project management professional. Chris has spent 21 years building a career in the construction sector, with the last 11 focused on higher education construction and planning.

Chris has managed construction projects both large and small on behalf of the University. He is experienced in partnering, innovative procurements, ensuring compliance with public procurement and capital project regulations, and grant compliance. Chris served as a technical expert on the development of the municipality of Anchorage's climate action plan, and gives back to the profession of higher education facilities management through service on the Pacific Region Board of the Associate of Physical Plant Administrators (APPA).
