RE: Letter of Support for Albuquerque MSA CPRG Implementation Application.

Greetings City of Albuquerque Sustainability Office Team,

The Bernalillo County Extension Master Composters Association (BCEMCA) is pleased to support and collaborate with the City of Albuquerque Sustainability Office Team (CABQ SO) and other entities in this coalition implementation application for the EPA Climate Pollution Reduction Grant (CPRG) program.

The BCEMCA values the work that CABQ SO is leading to make transformative changes across the Albuquerque Metro Statistical Area (MSA).

To support this initiative, the BCEMCA would help educate partners and participants in the science, materials, methods and benefits of composting in various settings.

Access to basic composting science knowledge is critical for the success of composting initiatives in a variety of settings. The BCEMCA would support with education a variety of partners tailored to specific group needs with reference to their specific composting site requirements.

Sincerely,  
John Zarola, President  
Bernalillo County Extension Master Composter Association
