RE: Letter of Support for Albuquerque MSA CPRG Implementation Application

Greetings City of Albuquerque Sustainability Office Team,

New Mexico Healthy Soil Working Group (NMHS) is pleased to support the City of Albuquerque Sustainability Office (CABQ SO) and other entities in their collaborative application for the EPA Climate Pollution Reduction Grant (CPRG) program. We value the work that CABQ SO is leading to make transformative changes across the Albuquerque Metro Statistical Area (MSA).

We have been pleased to work with CABQ SO on the successful implementation of community composting stations in the city of Albuquerque. The grant will bring much needed funds to build on these pilots and will go a long way to establish the Albuquerque Metropolitan Statistical Area as a composting region.

CABQ SO has also been a steadfast member of the New Mexico Compost Coalition, which we facilitate. We're looking forward to continuing this important work together in order to reduce climate pollution and center the needs of the most vulnerable in our MSA.

Sincerely,

A handwritten signature in black ink, appearing to read "Isabelle Jenniches".
