RE: Letter of Support for Albuquerque MSA CPRG Implementation Application

To Whom it May Concern:

CNM Ingenuity, Inc. (CNMI) is pleased to support and collaborate with the City of Albuquerque Sustainability Office (CABQ SO) and other entities in a coalition implementation application for the Environmental Protection Agency Climate Pollution Reduction Grant (CPRG) Implementation Grant. CNMI is a leader in providing accelerated educational and training opportunities in key workforce areas that foster economic development and job creation. We have accomplished this by forging links between educational institutions, businesses, industries, and government and recognizing the importance of a more skilled workforce and for new opportunities for jobs in new fields.

To contribute to this initiative, CNMI commits to providing workforce training for small businesses, providing low-income individuals with financial mobility, and providing an entry point into the clean energy transition via workforce and economic development. Specifically, we commit to creating accelerated workforce training opportunities in climate pollution reduction, such as training contractors on weatherization energy efficiency upgrades for low-income and disadvantaged communities. Through this collaborative, interagency approach, we hope to continue to ensure that our educational programming continues to fill the need in workforce training and employment opportunities in green energy.

I am pleased to support this application. If awarded, CPRG Implementation funds CNMI will sign a Memorandum of Agreement by July 1, 2024, with the City of Albuquerque to demonstrate our continued commitment to the success of the CPRG program. Thank you for your consideration.

Sincerely,

Kyle V. Lee, CEO
CNM Ingenuity, Inc.
